# Radio station hopes to air parade tonight

By MARY WESTON  
Staff Writer

OROVILLE — If you aren't at the Parade of Lights tonight, you might want to tune your radio to KROV 91.1 FM.

The local low-frequency radio station KRBS 107.1 is going to start broadcasting at full-power on Monday, but they hope to have high-frequency waves flowing in time to broadcast at the parade tonight at 6 p.m.

The local radio station embarked on the path to getting a high-frequency call sign more than a year ago.

Ron Ullman, board director for the station, said they found out the license **WILL BE** issued on Tuesday, 12-11-12

With the radio tower and antenna in Forbestown, the station will reach into

four counties.

"We will have 10 times as much power as we did before," Ullman said.

The station will now broadcast at least 50 miles.

The KROV crew is testing the station today and Sunday.

A group of Oroville residents formed the nonprofit Bird Street Media Project in 1999 that operates KRBS.

The all-volunteer staff is committed to celebrating cultural diversity, arts, education and the community.

"It's Oroville's No. 1 community-raised station," Ullman said.

The station has a wide variety of music and talk shows on a variety of subjects. The programmers are local

people. The website [www.oroville-radio.org](http://www.oroville-radio.org) lists the programs. The station also welcomes new programs.

Over the last more than a year of transition toward high-frequency, the station survived by having yard sales. Now that summer is over, Ullman said they need community support and are planning fundraisers. Any donations would be appreciated, he said.

Donations can be mailed to Bird Street Media Project, P.O. Box 9, Oroville, CA, 95965. Donations can also be given on the website with a Pay Pal account.

You can also call the station at 534-1200 and ask for a stamped, addressed envelope or have someone meet you at the station, 2360 Oro-Quincy Highway.

The African American Family and Cultural Center will take over the low-frequency station KRBS

when the center can get a broadcasting studio and equipment, Ullman said.

Ullman is the Weather Watcher for the station, and he also has a sci-

ence news and history of rock program.

# PRELIMINARY NON-COMMERCIAL FM CHANNEL STUDY

## - COMMENTS -

**Channel Study:** There are two possible channels available that would be capable of covering Oroville. The opening on Ch.216 is less restricted towards the north.

**Interference:** NW: KCHO in Chico (3<sup>rd</sup> adjacent Ch.219) limits the proposed location from getting any closer to Oroville.  
S: KXJC Sacramento (1<sup>st</sup> adjacent Ch.215) requires protection which severely limits propagation southward and thus reception in that direction will be challenged.  
E: KNIS Carson City NV.(1st adjacent Ch.217) requires protection which severely limits propagation eastward, however the steep terrain would otherwise challenge any propagation in that direction anyway.

**Coverage:** The proposed service should provide 65dBu (useable reception) within the Oroville metropolitan area
