

## KTXO Goldsmith - Issues and Program Sheet

### Fourth Quarter 2021

There were no issues for the 4th quarter of 2021.

KTXO broadcasts a program called Dial-N-Deal each weekday morning from 9AM to 10AM. This program allows members of the community to buy, sell, swap and trade items. It is also used as a forum to announce fundraising events for local churches and civic organizations. Local government officials use this time period to make announcements about items such as road detours and widespread power or water outages and other things that pertain to public safety or concern. Lost and found animals are broadcast during this program as well. We also broadcast Tips for Today's Homeowner on weekdays at 10AM and 3PM and Daily Dose at noon on weekdays, which is a short, inspirational program. Cowboy Corner with Red Steagall plays on Saturday mornings at 8AM and Sweet Country Music plays at 6PM on Saturday evenings, which is classic country, comedy and trivia.
