At Issue FCC Report

Q4 October-December 2016

October 2 – Health insurance rates are going up again next year for Minnesotans who buy individual or small group plans through MNsure. In some cases, the increases are dramatic. Our exclusive KSTP/SurveyUSA poll shows how the presidential candidates are doing in Minnesota. Republican 7th Congressional District candidate Dave Hughes joins us in studio.

October 9 - One of the big issues surfacing for state legislative candidates is how to get a handle on sky-rocketing health insurance costs. The St. Cloud mall attack is mentioned, in part, in the latest negative campaign ad against 8th District congressman Rick Nolan. Tom Hauser talks with Democratic 6th Congressional District candidate David Snyder about the issues he's focusing on in his first run for office.

October 16 - Minnesota lawmakers are scrambling to figure out ways to make health insurance more affordable for Minnesotans. Governor Dayton admitted this week the Affordable Care Act is "no longer affordable." The ACA is the subject of a new attack ad against 2nd Congressional District candidate Angie Craig. We have highlights of a 1st Congressional District debate between Tim Walz and Jim Hagedorn. ABC News political director Rick Klein joins us to talk about what's been a crazy presidential campaign.

October 23 – Governor Dayton is changing his tune over a special session to address rising health insurance costs. He now says he will call lawmakers back if the four caucus leaders can reach an agreement by November 1. We meet a candidate for a state house seat who has a shot at becoming the second youngest state lawmaker in Minnesota history. Greg Ryan, the Republican candidate in the 4th Congressional District sits down with Tom Hauser in studio.

October 30 - Governor Dayton is proposing a temporary fix to help thousands of Minnesotans faced with skyrocketing health care costs in 2017. The candidates for Minnesota's 5th Congressional district are here to debate the issues.

November 6 – Donald Trump is making a last-minute campaign stop in Minneapolis/St. Paul today. He visited western Wisconsin earlier in the week. We take a look at last minute efforts by both parties to rally voters for Tuesday's election. Our two final Truth Tests of the season look at dueling ads in the 8th Congressional District.

November 13 - A 2016 campaign season full of twists and turns ends with Donald Trump set to become the next President of the United States. We are tracking the impact of Minnesotans

and their votes on election day from the State Capitol to the White House. Jason Lewis, the Republican who won a tight race in Minnesota's 2nd Congressional district, joins us in studio.

November 20 - Now that the 2016 elections are over, we're looking ahead to 2018 and 2020, when Minnesota could be one of the most politically active states in the country. In the next election cycle, we'll have a U.S. Senate race, a Governor's race and at least four hotly-contested congressional races. Dave Horsager, an author and world-renound expert in trust, joins us in studio to discuss what Donald Trump needs to do to build trust with voters.

November 27 - Governor Dayton is giving Republican lawmakers until Monday to get on board with his plan to provide relief to Minnesotans facing soaring health care costs. Our exclusive KSTP/SurveyUSA poll asked Minnesota voters who they would support as potential candidates in the 2018 race for governor. Jack Jablonski, the former Benilde-St. Margaret hockey player paralyzed during a game accident nearly five years ago joins Tom Hauser in studio.

December 4 - The state has a \$1.4 billion surplus to work with during the 2017 legislative session. St. Paul Mayor Chris Coleman joins Tom Hauser in studio for his first TV interview since announcing he will not seek a fourth term as mayor. The legislative auditor has opened an investigation into the use of two luxury suites by MSFA members at U.S. Bank Stadium.

December 11 - The deadline for Minnesota lawmakers to decide whether or not to hold a special session has been pushed off until late this next week. However, that delay won't hold up the groundbreaking for a new professional soccer stadium in St. Paul. 5th District congressman Keith Ellison says he will resign his seat if he's elected chairman of the Democratic National Committee.

December 18 - Governor Dayton and House Speaker Kurt Daudt continue to spar over a possible special session. New legislative leaders, Republican Sen. Paul Gazelka and DFL Rep. Melissa Hortman preview the 2017 Legislative Session. Former State Representative Marty Seifert joins us in studio to discuss his new work of historical fiction, profiling a notorious ax murder in western Minnesota in the early 1900's.

FINDING OWEN: A BOY'S STORY

Owen Suskind is a young man with autism featured in the recent documentary "Life, Animated." In 1994, when Owen was almost three years old he started to withdraw and eventually stopped speaking. Not much was commonly known about autism, and Owen's parents, Ron and Cornelia, took him to a specialist who diagnosed him. Despite full time intensive speech and language therapy, Owen remained silent and the only activity that comforted him was watching Disney animated movies. Then a few years later there was an astonishing breakthrough: on his older brother's 9th birthday Owen told his parents, "Walter doesn't wanna grow up like Mowgli or Peter Pan." After barely speaking for years Owen put together a complex and insightful sentence, and it was at that moment Ron and Cornelia realized Owen understood the world through animated movies. Now understanding the key to communicating with Owen, his verbal skills began to improve and eventually led to him moving out, having a girlfriend, going on job interviews and more. 20/20 SATURDAY: HOME FOR THE HOLIDAYS

In the first hour “20/20” reports on family mysteries sent in to ABC by viewers searching for their long lost family members. With the help of investigative genealogist Pamela Slaton, whose passion is reuniting people, Anchor Elizabeth Vargas and “20/20” set out on three emotional journeys.

In the second hour, “20/20” asks: Could someone ever forgive a mom who would abandon not one but three newborn babies within blocks of each other over a five-year period? It is an incredible mystery that is solved right before viewers’ eyes. Elizabeth Vargas reports. (OAD 5/6/16)
