**QUARTERLY**

**ISSUES REPORT**

**July/August/September 2016**

## Quarterly Issues and Programs Report

Through formal and informal ascertainment of the general public, community leaders, public officials – inclusive of different ethnic organizations and service organizations, the following list emerged as issues needing media attention and support. The programs produced to meet the needs of the public included locally produced shows.

### Community Issues

Accidents and Disasters	Funerals and Memorials
Children & Youth	Health and Medical
Court and Legal Decisions	Housing
Crime and Law Enforcement	Poverty
Deaths	Religion
Education	Safety
Elderly-Seniors-Retirement	Transportation

## Regularly Scheduled Programs

Our locally produced, regularly scheduled programs are aired specifically to address community issues, concerns and needs. The programs are as follows:

### News 4 NY – Daily Local News Programs

WNBC’s daily newscasts devote considerable time to local issues and community problems. Regularly scheduled newscasts include:

Program	Time	Days
Today in New York	4:30am -7:00am	Monday-Friday
News 4 NY at Noon	12:00pm-12:30pm	Monday-Friday
News 4 NY at 4:00pm	4:00pm-5:00pm	Monday-Friday
News 4 NY at 5:00pm	5:00pm-5:30pm	Monday-Friday
News 4 NY at 5:30pm	5:30pm-6:00pm	Monday-Friday
News 4 NY at 6:00pm	6:00pm-6:30pm	Monday-Friday
News 4 NY at 11:00pm	11:00pm-11:35pm	Monday-Friday
Saturday Today in NY	6:00am-7:00am	Saturday
Saturday Today in NY	9:00am-10:00am	Saturday
News 4 NY at 6:00pm	6:00pm-6:30pm	Saturday
News 4 NY at 11:00pm	11:00pm-11:30pm	Saturday
Sunday Today in NY	6:00am-8:30am	Sunday
Sunday Today in NY	10:00am-10:30am	Sunday
News 4 NY at 6:00pm	6:00pm-6:30pm	Sunday

**Description** The family of a Nebraska toddler who was killed by an alligator while visiting Disney World has no plans to sue. The parents of two year old Lane Graves say are focused on the future health of their family. Disney said it is providing support for the family. There is no word on whether a financial settlement had been reached. Graves died after an alligator dragged him into the Seven Seas Lagoon outside The Grand Floridian Hotel last month.

**Description** A man who served more than two decades for a crime officials now say he didn't commit is free this morning. Duquene Pierre spent 22 years behind bars wrongfully convicted of a 1994 murder in Elizabeth, NJ. Police in South Carolina gave Pierre a speeding ticket four hours before the murder took place. But back then Prosecutors convinced a jury it was his brother that was stopped. During the retrial, witnesses admitted they couldn't positively put Pierre at the scene. The Judge then threw the case out.

**Description** Powerful lights once used to grow pot are now being used to grow produce at a Connecticut school. In the past year, Chef Tom Johnson expanded the culinary arts program at New Long High School. He needed more lights for the herb and vegetable greenhouse but the school didn't have the budget to buy expensive fixtures. The school turned to the Police who came up with the solution of using lights seized from illegal marijuana grow houses.

**Description** New York City students have a lot to be proud of. For the first time, students caught up with their peers around the State on English exams. English test scores rose 7.6 to 38% in each of the City's 32 community schools districts in every grade across all five boroughs. The Mayor called it an "astounding" one year gain. Math rates also improved and graduation rates reached over 70 percent for the first time in the City's history.

**Description** In five years, high school students in New Jersey will have to pass a tough test in order to graduate. The test is called the Partnership for Assessment of Readiness for College and Careers test. It measures a student's ability in English and Math. The State Board of Education make the test mandatory and a lot of parents are upset calling the test too hard. Many states have stopped issuing the test.

**Description** The City of Yonkers is scooping land to build two new elementary schools even though it doesn't have the money for the approval to build them. The City is currently in negotiations to buy the undeveloped land near a former public housing complex now known as Grant Park. City Officials admit the schools haven't even been designed yet and there is no money in the budget to pay for them. The Mayor has asked the state for two billion dollars to rebuild the City's Public Schools.

**Description** In News 4 For Your Health, there are new statistics about Teen depression and there is reason for concern. According to the Substance Abuse and Mental Health Administration, one in 9 people age 12 to 17 experience some form of depression each year this means three million teenagers nationwide. In New York and New Jersey, that number jumped to more than ten percent in just the past year. In Connecticut, it's just under ten percent. Doctors say they are really concerned teens won't admit they need some help.

**Description** A new study is shedding light on menopause and women's health. Researchers at the University of Virginia tracked heart disease risk factors like high cholesterol and obesity and found that those risks appear to increase during pre-menopausal years and not after as previously thought. A woman's chances of developing diabetes and stroke also increased during that time. The risk factors are even greater in African American women.

**Description** On this day in 1981 a group of men gathered in the living room of playwright and author Larry Karger to talk about the virus killing their friends. They passed around a hat and raised seven thousand dollars. This meeting laid the foundation for what would become the Gay Men's Health Crisis. The GMHC has grown through the decades and last year the organization provided services and meals to ten thousand people affected by HIV and AIDS.

**Description** A big portion of the food we eat contains GMO's or Genetically Modified Ingredients and soon consumer will be able to look at a label and know for sure. President Obama signed a new law that would require all food labels to declare whether the item contains GMO's. Companies must either say that in plain words on the package or provide a QR code, 1800 number or website for consumers to visit. Opponents argue this type of labeling discriminates against lower income families who don't have access to technology.

**Description** New technology being used at the DMV is making it easier for authorities in New York to catch identity thieves. Since 2010, the DMV has been using a facial recognition program to match every new driver photograph to those already in its database. The system was upgraded last January and the enhancement alone has already led to more than one hundred arrests. Half of the arrests involved people with a suspended or revoked license who try to get a new one by using a stolen identity.

**Description** Despite a Government mandate, a new report finds many railroads are making little progress installing new safety technology known as "Positive Train Control." The technology can automatically slow a train that's going over the speed limit. Federal Regulators say it could have prevented crashes like the one that killed eight Amtrak passengers outside Philadelphia last year. The Government report found that some railroads have yet to equip any trains with the technology.
