Kathleen talked about the stressors that have led to parents and/or caregivers taking out their anger and fear on children in their care and we talked about how since many kids are not going to school the teachers and counselors who were the first line of defense in helping abused kids are no longer seeing the children. Kathleen spoke of the work that CASA does to help children who have been abused and neglected and how the community can get involved to help and how they can become CASA volunteers to help children who are navigating the child welfare system.
