Crystal Schanio with the Irving Independent School District and April Martin Nickels with Kroger joined me to talk about "Backpack Boosters" for needy families in North Texas. Crystal talked about the importance of helping kids who may not be able to afford back to school supplies because their families are already barely making it month to month with rent, car insurance and buying groceries. She talked about the reality of what faces children today in low income zip codes and how these school supplies help the children focus on their education rather than their need. April Martin Nickels talked about outreach efforts by Kroger to help schools in North Texas and how communities and neighborhoods need to do their part to volunteer to help out their area school districts. We shared the ways that people can help lift up not just schools but communities as a whole since the future will depend on a well-educated workforce. Rabbi Amy Weiss joined me for the last portion of the program to talk about Undies for Everyone a nonprofit that provides new underwear for needy children going back to school. The nonprofit was founded by Rabbi Weiss and she will be on hand for the annual Mayor's Back To School Fair in Dallas on August 2nd handing out packets of new underwear to children in need. Rabbi Weiss says children living in poverty have enough to worry about that they need to have to worry about having clean underwear when they go to school and not only is this a self confidence booster but it helps out teachers who often times will spend their own money to help children in need in their classrooms. We talked about their advocacy to get rape kits processed to get rapists off the streets and their advocacy to get victims believed. We also talked about the misconception that assaults are committed by strangers when the majority of rapes are committed by acquaintances which is why they often times go unreported. We talked about the shame that a survivor may feel and how the Rape Crisis Center helps them realize that they are not at fault and that there is no right way to navigate it. You can report if you want but if you don't want to that is okay but know that you are not alone and that you will find your way. Dr. Carlo joined me to talk about the need for the entire community to understand that if you are sexually active, if you are having unprotected sex you are at risk of HIV and AIDs. So many of those who are newly diagnosed never thought they were at risk because they thought that this is a gay person's disease not thinking that if a spouse strays or a partner cheats you are at risk. Dr. Carlo talked about the programs offered by Prism Health and we promoted the upcoming Lifewalk which will take place Sunday, October 6th in Dallas.
