

# Community Issues Report – WPNW

*January 2022 – March 2022*

**Issue:** Hospitalized Children

**Station Response:**

We joined the community at Project Night Lights at Helen DeVos Childrens Hospital to bring JOY to kiddos that are currently hospitalized. We also teamed up with a local elementary school to collect games and toys for those children in the hospital.

**Issue:** Beach Clean Up

**Station Response:**

We heard about a middle school student that was spending his time at the public beach, sweeping the sand from the sidewalks, picking up trash, etc. during the summer and during the school year cleaning up the playground. We bought him a wagon and new supplies to thank him for all that he is doing for the community!

**Issue:** Foster Care

**Station Response:**

We teamed up with a local ministry that works with foster care families and helped supply them with some of the items they need to continue to reach these kids and families.
