

Community Issues Report – WPNW

January 2024 – March 2023

Issue: Loneliness

Station Response:

For Valentines Day we invited listeners to nominate someone they know that has experienced loss and the day feels heavy for. We then delivered personal valentines to them to make the hard day a little less sad and lonely.

Issue: Adults living with medical and sensory needs

Station Response:

We visited a daytime enrichment program for adults living with significant, ongoing therapeutic, medical and sensory needs. It was a surprise day of bubbles and donuts and we left special gifts for each of the staff members to thank them for the hard work that they do!
