Length: 00:48:22

1955 SEVEN DAYS OF FALL tells the story of the 1955 Brooklyn Dodger/New York Yankee World Series based upon the poem entitled '1955', by James T. Crawford and directed by Rory Fielding. In unprecedented style, the program uniquely blends the traditional documentary elements of archival footage and stills, narration, period music, player and fan interviews. The poetry recital weaves through 1955 Seven Days of Fall to recount this timeless story six decades later. The film reflects dedication, teamwork, belief in one's self and commitment to achievement against all odds - this is the story of the Brooklyn Dodgers' only World Championship title after 65 years of futility and the team's unique connection with the community that so closely identified with it. '1955' is more than a sports story; it's a time capsule of a period in American history like no other. As the documentary's epilogue states: "To believe was to achieve, back in 1955". The film features many exclusive last interviews with players who have since passed away, including the legendary Duke Snider. Of the original team, only four players currently survive. '1955' is the winner of the NY Independent Film Festival, the Accolade Competition of La Jolla, CA and the Aurora Award - 'Platinum Best in Show'.

Ancient Remedies with Dr. Josh Axe is based on Dr. Josh Axe's latest and most compelling book to date. It exemplifies his deep-seated passion, vision and mission to help people truly heal at the root cause of illness in order to live their best lives. Dr. Axe's heart centered approach can be traced to successfully guiding his mother through her extensive health struggles, after which he committed to a life's work of sharing the methodology that worked for her, and his patients. With Ancient Remedies, Dr. Axe's goal is to empower people to find wellness in their own lives by focusing on the powerful benefits of using food to heal your body; an approach rooted in an age-old practice but tailored to our modern world. Ancient Remedies is a new way of thinking about health and healing - one based on the time-tested knowledge from ancient medical systems that use natural solutions to address digestive issues, hormonal imbalances, inflammatory conditions, immune dysfunction, neurological disorders, and autoimmune disease. The ancient approach to illness lies in a single, simple strategy: Instead of treating symptoms, heal the root cause of the disease. Ancient healers not only believed in identifying the root cause of each patient's health problem, but they also spent years meticulously researching, cataloguing and studying which natural remedies were most effective in healing each condition. The most common remedies included superfoods, mushrooms, herbs, spices and essential oils. Today's research, which Dr. Axe explains in this program, also shows the efficacy of this approach so families can make the best health choices for themselves.

She speaks with her parents, former staff, and former classmates - a Latinx dancer; a young professional from NY; a Lakota youth activist; and a lawyer- and have their own varied memories. She questions what kind of youth deserves this treatment, if any. Through this process, like many with PTSD, she wonders if she will ever be a reliable narrator of her own story and if not, how much does that matter?"
