The FCC's Media Bureau extended the deadline to file 2013 biennial broadcast ownership reports for commercial stations (FCC Form 323) from November 1, 2013 until December 2, 2013. This 30-day extension was adopted to provide licensees of commercial full-power AM, FM, TV and LPTV stations (including Class A stations), and entities holding attributable interests in these licensees, with additional time to prepare the form, according to the Media Bureau. Notwithstanding the extension, each biennial ownership form submitted is to contain information which is current "as of" October 1, 2013. **Noncommercial licensees do not file biennial ownership reports on a common date, but are required to continue to submit these reports every other year on the anniversary of the due date for the filing of their station's renewal application.**
