RESPUNSIVE PROGRAMMING

Program: "Let's Talk About It" a daily local call in program (locally-produced)

<u>Description:</u> Caller believes the Mellen Street overpass is a huge mess and asks why they don't widen I-5 to 3 lanes though the area.

<u>Program:</u> "Let's Talk About It" a daily local call in program (locally-produced)

<u>Description:</u> Caller asked about the student delegation asking for sidewalk in streets leading up to Centralia HS. Caller believes it should be a school project.

<u>Program:</u> "Let's Talk About It" a daily local call in program (locally-produced)

Description: Caller says the Borst sidewalk leading up to Centralia HS was supposed to be part of a stimulus project but the city couldn't afford the extra costs associated with it, including the fact that they don't own the properties on the street so would have to purchase them to get rights.

<u>Program:</u> "Let's Talk About It" a daily local call in program (locally-produced)

<u>Description:</u> Caller wondered why they lowered the speed limit coming of Winlock rather than spend money to straighten the "dangerous" curves.

February 11, 2016 8:35 a.m. 4 minutes

DATE/HME/DURATION

March 21, 2016 8:50 a.m. 4 minutes

March 25, 2016 8:45 a.m. 10 minutes

March 30, 2016 8:50 a.m. 5 minutes 6. Local Traffic Issues

Program: "Let's Talk About It" a daily local call in program (locally produced)

January 12, 2016 8:35 a.m. 10 minutes

<u>Description</u>: Host feels a stop light is needed at Market and 20th in Chehalis and also wondered if there should be a pedestrian walkway connecting high school and other schools in Chehalis.

<u>Program:</u> "Let's Talk About It" a daily local call in program (locally-produced)

January 20, 2016 8:40 a.m. 8 minutes

<u>Description:</u> Caller believes the Mellen Street interchange must have been "purposely" designed to be "awful." And that the LaBree Road overpass in Chehalis is dangerous as well.

<u>Program:</u> "Let's Talk About It" a daily local call in program (locally-produced)

January 20, 2016 8:50 a.m. 4 minutes

Description: Another caller complained that the Airport Road roundabout by Walmarts. Says it is too fast in one direction and has trouble seeing over it. Also asked when the DOT will fix the Koontz Road overpass in Napavine.

<u>Program:</u> "Let's Talk About It" a daily local call in program (locally-produced)

February 9, 2016 8:45 a.m. 4 minutes

Description: Host believes that due to the long backups because of the stoplight at the Mellen Street overpass in Centralia someone is going to get seriously hurt in a traffic accident especially if an ambulance from the hospital goes the wrong way in an emergence situation to save time.

| ISSUE | RESPUNSIVE PROGRAMMING | DATE/HME/DUKAHUN |

STATION KELA

QUARTERLY ISSUES/PROGRAMS LIST – APRIL 2016 (For programming aired January 1 through March 31, 2016)

This Quarterly Issues/Programs List is a list of non-entertainment programming which, in the opinion of the management of the Station, represents the most significant treatment by the Station of certain issues believed to be of community concern. The list is not intended to be a comprehensive list of <u>all</u> of the Station's non-entertainment programming. Nor is it designed to list every program broadcast by the Station that is responsive to the selected issues. Included are only those programs in which the Station devoted significant time or depth to the various issues.

| <u>ISSUE</u> | RESPONSIVE PROGRAMMING | DATE/TIME/DURATION |
|---------------------------------|---|---|
| 1. Washington State Patrol | <u>Program</u> : "Let's Talk About It" a daily local call in program (locally-produced). | January 1, 2016 8:40 a.m. 5 minutes |
| | Description: Caller brought up topic of WSP and why they are unable to keep troopers. Host asked if there's a way to ticket vehicles without stopping to talk to driver (as to eliminate lack of safety of the trooper). That would bring up another issue which would be that the owner of the car, and not the driver, would be ticketed. | |
| | Program: "Let's Talk About It" a daily local call in program (locally-produced) | March 17, 2016 8:30 a.m. 3 minutes |

Issues covered: Urban Planning Public Transportation Length: 8:16

Jason R. Wiles, PhD, Associate Professor, Biology, Syracuse University

Dr. Wiles led a study that found that minority college students learn many science, technology, engineering, and mathematics lessons more effectively when they are taught by a recent minority student, rather than a traditional classroom instructor. He explained why STEM subjects are so important for today's students, and the possible reasons why this alternative method of teaching works so well.

Lenath: 7:09

Brandon L. Alderman, PhD, Assistant Professor of Exercise Science and Sport Studies, Director of the Exercise Psychophysiology Lab at Rutgers University

Dr. Alderman led a study that examined whether a combination of activities can effectively treat depression. Participants who were asked to meditate for 30 minutes before exercising for 30 minutes twice a week had 40 percent less depressive symptoms than they did before the study began. He explained the likely reasons behind these results. He said that even study participants who were not depressed received noticeable benefits.

Paul Redman, Executive Director of Longwood Gardens near Philadelphia, one of the leading public gardens in the country, co-chair of the Seed Your Future initiative, which promotes horticulture as a career path for young people

Mr. Redman is concerned about the increasing shortage of professional horticulturalists and horticulture programs at universities. He noted that enrollment in horticulture programs has declined dramatically at a time when the need for graduates of these programs is more important than ever. He outlined the wide variety of good jobs available and discussed possible reasons that horticulture is not considered by young adults preparing to enter college or the job market.

Michael J. Blaha, MD, MPH, Preventive Cardiologist, Director of Clinical Research at the Ciccarone Center for the Prevention of Heart Disease at Johns Hopkins Hospital

Dr. Blaha recently led a study that suggests that people who exercise habitually are more likely to survive their first heart attack. He discussed the wide-ranging benefits of exercise and how much is enough. He said even older people can get in shape and get the heart-protective benefits of physical activity. He also offered ideas for how to get started.

Issues covered:

Personal Health Senior Citizens

Length: 9:03

Janette Sadik-Khan, transportation and urban transformation expert, former transportation commissioner of New York City, author of "Streetfight: Handbook for an Urban Revolution"

Ms. Sadik-Khan discussed the importance of incorporating innovative transportation plans into modern urban environments. She explained how cities can add protected bike paths, improve crosswalk space, and provide visual cues to reduce speeding. She said redesigning streets can reduce congestion and increase foot traffic, which often improves the bottom line of local businesses.

Show # 2016-11 3/13 Time Aired: 7.130am

Brian Fleming, combat veteran, co-author of "Redeployed: How Combat Veterans Can Fight the Battle Within and Win the War at Home"

Mr. Fleming discussed Post Traumatic Stress Disorder and other difficulties faces by combat veterans and their families. He noted that the suicide rate among veterans under the age of 30 has risen by 44% in the past several years. He said no one prepares veterans to successfully make the transition back home. He offered strategies for both vets and their families who are struggling with a return to civilian life.

Issues covered: Military Families Issues **Government Policies** Mental Health

Length: 9:16

Bradley F. Bale, MD, heart attack and stroke prevention specialist, Medical Director of the Heart Health Program for Grace Clinic, Lubbock, TX, author of "Beat the Heart Attack Gene: The Revolutionary Plan to Prevent Heart Disease, Stroke, and Diabetes"

Heart disease affects 81 million Americans and is the culprit in one of every two deaths in the United States, Dr. Bale said most people think that they are not at risk of a heart attack if they control their cholesterol and blood pressure, but they aren't aware of other major risk factors. He outlined some relatively inexpensive lab tests than can uncover arterial inflammation and its underlying causes. He also talked about the importance of simple changes in lifestyle that can dramatically cut the risk of heart attack and stroke.

Issues covered: Personal Health Length: 9:16

Alfie Kohn, education watchdog, author of "The Homework Myth: Why Our Kids Get Too Much of a Bad Thing"

Mr. Kohn shared results of a study that found that more homework is being assigned to younger students each school year. He believes that homework provides no benefits in elementary school. He explained why homework is still so widely accepted, despite evidence against it.

Length: 4:37

Show # 2016-12 **3 a b b aired**:

Time Aired: 7:30 a m

Richard Retting, MS, FITE, transportation consultant for the Governors Highway Safety Association

Pedestrian fatalities in the U.S. jumped last year, the largest annual increase ever measured. Mr. Retting said numerous factors may have contributed to the spike, including an increase in the number of miles driven, alcohol consumption, and the growing use of cell phones among walkers and drivers. He believes states and localities can apply the right mix of engineering, education and enforcement to counteract this troubling trend.

Phil Reed. Senior Consumer Advice Editor at Edmunds.com

Today's cars no longer need to have their oil changed every 3,000 miles. Mr. Reed talked about design improvements in recent years, and how drivers can decide when it really is time for an oil change. He talked about the positive effects of this rapidly advancing technology for both the environment and consumers' pocketbooks.

R. Douglas Fields, PhD, Chief of the Section on Nervous System Development and Plasticity at the National Institute of Child Health and Human Development, a part of the National Institutes of Health, Adjunct Professor in the Neuroscience and Cognitive Science Program at the University of Maryland, College Park, author of "Why We Snap: Understanding the Rage Circuit in Your Brain"

Today's headlines are filled with examples of otherwise rational people with no history of violence or mental illness who suddenly snap in a domestic dispute, an altercation with police, or road rage attack. Dr. Fields explained the reasons behind these seemingly random episodes. He said every human has been hardwired with the potential to snap. He also said the same pathway in the brain that can result in a violent outburst can also enable us to act heroically and altruistically before our conscious brain knows what we are doing.

Issues covered:

Mental Health
Domestic Violence

Length: 7:46

Thomas Nassif, Ph.D., Professorial Lecturer in American University's Department of Health Studies, researcher at the D.C. Veterans Affairs Medical Center

U.S. veterans often return home with multiple types of trauma, and suffer from one of the highest rates of chronic pain of any population in the U.S. Dr. Nassif led a study that found that veterans who practiced meditation reported a 20 percent reduction in pain intensity, and in how pain interferes with everyday aspects of life, such as sleep, mood, and activity level.

QUARTERLY ISSUES REPORT, JANUARY-MARCH, 2016

Show # 2016-01 1 Time Aired: 7:30am

John A. Eterno, Ph.D., Professor, Associate Dean and Director of Graduate Studies in Criminal Justice at Molloy College, former Captain with the New York City Police Department, co-author of "The Crime Numbers Game: Management by Manipulation"

Dr. Eterno conducted the first scientific examination of crime statistics manipulation in the New York City Police Department. He explained how increasing pressure to show decreasing crime rates by any means necessary has affected police departments throughout the United States. He discussed how this affects crime victims and explained what citizens can do, to ensure that their local police department is reporting crime statistics in an honest manner.

Issues covered:

Crime

Government Policies

<u>Length:</u> 8:47

Kristen Copeland, MD, Assistant Professor of Pediatrics at Cincinnati Children's Hospital Medical Center

75% of young children in the US are in some form of pre-school or daycare outside the home. Dr. Copeland conducted a study that found that most children in daycare get far too little exercise. She explained the reasons behind this trend and why parents should be concerned. She outlined the types of questions parents should ask when they are looking for a pre-school or daycare center.

<u>Issues covered:</u> Children's Health

Parenting Education

Length: 8:24

Phil Reed, Senior Consumer Advice Editor at Edmunds.com

Today's cars no longer need to have their oil changed every 3,000 miles. Mr. Reed talked about design improvements in recent years, and how drivers can decide when it really is time for an oil change. He talked about the positive effects of this rapidly advancing technology for both the environment and consumers' pocketbooks.

Issues covered:

Environment

Consumer Matters

Length: 4:52
