

Public Inspection File

State and Local Franchising Related Materials

Records are kept in this file as required by Section 76.1715 of the Federal Communications Commission (FCC) Rules and Regulations.

Rule § 76.1715

Retention *Must retain in the public file information regarding the advertiser.*

What's in here? This section may contain content that is required to be made available for public inspection pursuant to a cable operator's franchising agreement. Cable operators may choose to take advantage of this option in order to maintain in a single location all materials required to be made available to the public, pursuant to either the FCC's rules or franchising requirements. Please note that if a franchising authority has a requirement to maintain a local file that would not be satisfied by posting those documents to the online file, the cable operator must continue to maintain such a local file in compliance with the franchising agreement unless the franchising authority allows the cable operator to move those files online.
