---	-------	-------	-----	------	----------------------	--------------------------------

Welcome to a TBN Special The Gathering Storm Against America with Erick Stakelbeck. Over the next hour we'll break down what may be the most perilous time this nation has faced since World War II. Are we on the verge of a new world war? Could some rogue regime even do the unthinkable and use nuclear weapons? If the rhetoric coming out of Moscow these days is any indication, nothing is off the table. Ever since Russia launched a massive ground invasion of Ukraine back in February, Vladimir Putin and other top Russian officials have been threatening to use nuclear weapons, and not only against Ukraine. Putin has threatened to use them against NATO as well. And a member of the Russian Parliament warned recently that just four high powered nuclear missiles could destroy the United States. With tensions between Russia and the U.S. increasing daily, and Russian wielding close to 6,000 nuclear warheads, these statements must be taken seriously. At the same time, Russia's ally, China, has also threatened war with the United States. The communist regime in Beijing has undertaken a massive military and nuclear weapons build up and is vowing to conquer Taiwan by any means necessary. China's growing alliance with Russia poses a major problem for America. Its alliance with North Korea poses yet another. Kim Jong-un's forces have already test fired dozens of ballistic missiles this year and are working on intercontinental missiles; ICBMs that could one day reach the United States. Meanwhile in the Middle East, the hour is late to stop Iran's nuclear program. At this point, perhaps, only Israel will prevent Iran's Ayatollahs from acquiring the world's deadliest weapons. Russia, China, North Korea, and Iran. Four governments with serious ideological differences that are nonetheless united by their hostility toward the U.S. and their desire to see America toppled as the world's superpower. How should we respond to these unprecedented challenges? These wars and rumors of wars. Is our leadership up to the task? And how can Christians be a voice of truth and shine a light in the growing darkness? Over the next hour, you'll hear from Colonel Oliver North, Senator Joni Ernst, Colonel Allen West, Pastor Jack Hibbs, and others as we break down the gathering storm against America; addressing economic, environmental, public safety, substance abuse, youth, and spiritual issues facing our nation.

TBN Special Report with TBN News Correspondent Erick Stakelbeck: The Rise of China. From the Museum of the Bible in Washington, D.C. and New York studio Erick Stakelbeck Reports. You'll hear why China's communist regime poises a unique threat to the United States and the world. From a massive military and nuclear arms buildup, to cyberattacks against sensitive American targets, China is directly challenging the United States. Its goal is clear; to replace the U.S. as the world's next superpower. Despite this and despite the Chinese government's continued evasiveness on the true origins of COVID-19, American companies are lining up to do business with Beijing. For some, the so-called social credit system that China uses to suppress and monitor its own citizens does not seem to affect their bottom line, but there is light in the darkness. While Christians in China suffer severe persecution, the Church is growing by leaps and bounds in the world's most populous nation. We're joined today by Former Secretary of State, Mike Pompeo; courageous Chinese dissidents, and leading experts to get the inside story on the rise of China and why it matters to you.

The rise of cancel culture has caused many individuals to lose their ability to communicate freely. Big tech companies like Facebook, Instagram, Twitter, Google, YouTube, and Amazon are rising to power and controlling the flow of information. PragerU.com has been placed on the restricted list by Google because of its conservative views. Actor Kevin Sorbo's Facebook page was removed after posting opposing views of COVID-19 and pro-life viewpoints. According to pew research almost 1/2 of the millennials do not believe in free speech for hate speech. To stop the woke movement individuals should seek alternative routes to big tech companies, fight for freedom of speech and continue to maintain the God given values once established by America's founders.

The Supreme Court has overturned cases that include issues of abortion (Roe v. Wade) and gender confusion (same sex marriage). Rabbi Jonathan Cahn's new book, "The Return of the God's," speaks about the issues of abortion, the education system, the sexual revolution and other cultural issues- where they come from and how we should respond to them. It is important for individuals to pray, share the Gospel with others, and stand up for their freedom.

New York Times Best-Selling Author, Jonathan Cahn, explains the similarities of Ancient Israel and the United States. Jonathan Cahn states, "The United States was actually founded after the pattern of Ancient Israel." America has done the same as Ancient Israel by driving God out of culture as well as lifting up their children to Baal through abortion. Jonathan Cahn says, "We've watched that in America. We've watched it, the whole world has been affected...We've watched the culture turn away from God... We've watched a sexual revolution as in the bible, and we have offered up our children. A modern day of Baal worship is abortion." Bill Clinton became the first U.S. President to endorse abortion. Bill Clinton served in the political office for 22 years like King Ahab, in the bible, who reigned in Samaria for 22 years. Hillary Clinton follows the paradigm of Queen Jezebel. Both women encouraged feminine power and Baal worship (abortion). Joram is an heir of Ahab and follows the policies of Ahab, as did President Barack Obama with President Bill Clinton. Joram went into power having the former first lady, Jezebel, by his side like President Barack Obama went into office with former first lady, Hillary Clinton. King Jehu is the ancient archetype of President Donald Trump. Jehu was not a politician and Donald Trump was not a politician. Jehu was to go against the House of Ahab, and Donald Trump went against the Clinton Family in the Presidential Election. Jonathan Cahn says, "It wasn't about Jehu. It's not about Donald Trump. It's about can 'God use anyone? Even those who don't know him?' Yes, He can. God is Sovereign. He'll use anything. Anyone." When Jehu gets to the temple of Baal, he destroys it. Donald Trump did the same thing as Jehu by signing executive orders to protect unborn children. Jonathan encourages viewers to lean towards a spiritual revival and turn towards God, he says, "It can't just be political. If it changes politically, but not culturally, not spiritually, then America is lost."

According to Gordon Robertson, the U.S. Embassy opening in Jerusalem was a very important move as it recognizes Israel's sovereignty. The 1995 Jerusalem Embassy Act was a U.S. law that mandated that the Embassy be moved, this didn't take place until President Trump entered office. Gordon Robertson explains how Christians play a part in the restoration of Israel as a nation and the fulfillment of biblical prophecy. According to Gordon Robertson, 70 years ago Israel legally established its capital, Jerusalem. He believes assisting Israel to become a nation should be the goal for America.

Dr. A.R. Bernard #2301	27:30	27:30	LCL	PA/O	1/1/2023	5:00 PM

According to A.R. Bernard, the word "Semite" represents a historical language classification that goes back to the Mesopotamian, the Phoenicians, and the Ancient Civilizations. Official classification came during the period of imperialism between the 1600s and especially 1800s. This language category became racial when scientific racism was introduced, and social construct of race began to take place. Scientific racism is defined as "a violent distortion of physical anthropology," it takes the idea of who we are as human beings and classifies it in a way to enforce racial superiority; it is a social construct. It is when physical features determine the level of dignity as a human being, which was used to legitimize the enslavement of people of color. It is important for individuals to educate themselves so that one does not buy into a narrative that was created with a political or social agenda attached to it. It is our responsibility to gain knowledge and information so that we may learn how to respond through a Christian perspective.

According to A.R. Bernard, God is at work in the world: creatively, providentially, redemptively, and judicially. God is at work creatively; to bring things into existence; that includes visions and dreams. Dream/ Vision is defined as "a belief in the possibility; imagining the possibility of what could be, what can happen to transform human society." God gives people visions, dreams, ideas to create ministries, organizations, institutions, entities, and movements that bring about justice, that deal with oppression and marginalization. He creatively brings things into existence revealing how to use the resources of the earth for human flourishing.

There are 3 systems that function in every society throughout history. The political (government), the economy (business), and the moral system (religion, education, philanthropy). These systems work together. The moral system becomes the accountability factor that holds the checks and balances against the political system and economic system so that the forefront of society is always the worth and dignity of the human person and the importance of pursuing the common good. God uses these systems and structures in order to facilitate change on our behalf. God works to bring justice, changes in policies, practices, procedures and processes that marginalize and oppress people.

At the age of 9 years old, Jodie Ballenger started to smoke pot and get into fights. When she was 14 years old, she was sent to juvenile and later was placed in a reform school called White's Residential and Family Services. Billy Ballenger was given up for adoption and struggled to fit in causing him to run away from home at an early age. He too was sent to White's Residential and Family Services where he met Jodie. After being released from reform school, Billy moved in with Jodie and they became pregnant, so they decided to get married at the age of 17 & 18. By the time they were 18 & 19, Billy and Jodie had a flow of known felons in and out of their home (known as the party house). One day a SWAT team raided their house and took away their baby girl because of the violent atmosphere. At this time, they were arrested and faced many trials. Throughout this process, Billy and Jodie found God and were able to restore their family.

Benny Tate was raised by his mother and stepfather. During his mother's pregnancy, his stepfather insisted on aborting him. His mother, however, chose otherwise and kept Benny. During his childhood, both Benny and his mother were physically abused by his stepfather. After running away from Benny's stepfather, Benny and his mother became involved in selling whiskey illegally and living in nightclubs. At the age of 15, Benny found his mother, who was planning to commit suicide. That weekend his mother found hope in God, decided not to commit suicide, and prayed that God would touch Benny's life also. At the age of 16, Benny also found God and his life was radically changed.

Restoring America with Erick Stakelbeck: Ronald Reagan once compared the United States to a shining city on a hill. During his inaugural address, George Washington said, "The preservation of the secret fire of liberty, may be staked," on what he called "the experiment entrusted to the hands, of the American people." They knew, instinctively, that the United States was unlike any nation in the history of the world. A beacon of freedom blessed by God above, but to whom much is given much is required. The United States today is more divided than at any time since the civil war, and the divide goes far beyond politics to the very essence of who we are. Will America continue to carry the banner for freedom and Judeo-Christian civilization, of liberty and equality for all? Or will we choose socialism, secularism, and squabbling factions that are obsessed with race, gender, sexual identity, and tearing down the very foundations on which this nation was created. And what happens if we choose the latter? Over the next hour, you'll hear from leaders in every field. From Florida Governor, Ron DeSantis, to Former Secretary of State, Mike Pompeo, Michele Bachmann, Greg Abbott, Governor of Texas, and Rev. Franklin Graham, plus top leaders in education, business, media, and faith, as they lay out the blueprint for restoring America.

Several Dr. Seuss books have been taken out of the education system because of controversial ideas. According to Dr. Ben Carson, the founder and chairman of the American Cornerstone Institute and former Secretary of the Department of Housing and Urban Development, this is an attack on liberty. The "More Perfect Union" program is an aspect of ACI which emphasizes the principles that founded America. In this program, they challenge people to read and ask questions about documents like the Declaration of Independence and the Constitution. ACI also offers a summer program called "Young Patriot" teaching children about the real history of America. It is important for individuals to understand the history of America to fight back against the rise of cancel culture.

On this emotional episode of Taking Care of Business we explore the difficult subject of youth suicide. Youth Suicides are now a pandemic in our country. The suicide rate for young people between the ages of 14 and 19 has jumped 70% in the past 10 years. 157,000 young people are hospitalized each year for self-harm. Many feel that this coincides with the launch and popularity of many of the social media apps and platforms. Most young people don't realize that social media sites are not accurate representations of the authentic lives of those using them. Meet young people who tell their stories of how they attempted to end their lives but lived to tell about it!

<p>In a recent year, 47,000 individuals committed suicide in this country, 70,000 people died of drug overdose and many more died because of alcohol addictions. What is happening and, more importantly, what is being done to intervene? Depression and addictions are causing more suicide related deaths than at any other time in American history. Self-harm is not always caused by a gun; often it is a drug overdose or alcohol induced event. On this edition of Taking Care of Business, see the sad realities facing our society and meet those who are trying to intervene.</p>

<p>According to Joseph Prince living <i>The Let Go Life</i> is about living a life free from worry in any area where one could experience insufficiency, such as health, finances, problems with their children, and spousal relationships. It is trusting that God will supply for all of one's needs. Joseph Prince teaches a paradigm shift in thinking by encouraging people to allow the finished works of Christ (Grace) to help in one's difficult situations. He states, "If we refuse to take hold of the anxious thoughts over our lives, God will clothe us with a quality body, quality health...the only thing that is hindering us from the supply, is worry." God has a supply of blessings for healing, financial wisdom, parenting and many other things, but as soon as one worries, God's supply is restricted from getting to the individual. Joseph Prince says, "Grace flows in the worry-free areas of your life." Fear and worry prevent individuals from being at peace and entering God's rest. Medical science has proven that stress could lead to physical problems, mental health problems, destructive behaviors, addictions, and chronic depression. Joseph Prince suggests people to live their lives in the unforced rhythm of grace, by relaxing and knowing that God has already supplied for all their needs as he states, "Do your responsibilities, do what you need to do, but do it relaxed. Parent relaxed. Administrate, manage relaxed. Do everything relaxed because that is the secret."</p>

Statistics show that more than seventy million people suffer from insomnia every year. It is credited with 38,000 deaths. It costs the U.S. \$70 billion worth of productivity; 64% of teenagers suffer from insomnia. The most severe cases occur between the ages of 30 and 40; and about 50% of all senior citizens over the age of 65 battle with it. According to Frank Santora, this multi-generational problem is a symptom of what is happening in our souls because we are overburdened with worry, anxiety, fearfulness, fretfulness, uncertainty, and busyness. Frank Santora teaches practical steps to finding rest in Christ.

Statistics show that worry and stress are responsible for high blood pressure, heart disease, stroke, asthma, obesity, depression, gastrointestinal problems, Alzheimer's, accelerated aging and premature death. Documentation shows that 85% of the things that we worry about never come to pass. Worry does not only impact us physically, but also impacts our spiritual life and how we function. According to Frank Santora, it is important for individuals to find the peace of God to combat worry and stress.

According to Frank Santora, our minds have a profound impact on our lives. It is important for individuals who struggle with anxiety, worry, sleeplessness, and lack of peace to remember two key points God has given us to combat these struggles: prayer & praise. Prayer is a way in which individuals release their burdens unto God. Praise is what keeps these burden on God. Through prayer and praise individuals are able to surrender to God, holding on to their faith and believing that the situation will get better.

Jordan Rubin's book "Natural Remedies," is an A-Z guide on how to use God-given foods, supplements, essential oils, herbs, and spices to combat disease and injuries. According to Jordan Rubin, sometimes the best first aid is a natural remedy that one can still use alongside medical care. The first step to being proactive with one's health including major health challenges like eczema, psoriasis, arthritis, autoimmune disease is to use the natural remedies God created for us to boost our health and that work no matter what circumstance one is in. There are natural remedies for very single health condition (injury, gut disorder, Crohn disease, ulcerative colitis, IBS) that don't provide "side effects, but side benefits" (instead of hurting other organs, it may heal them).

Jordan Rubin's book "Natural Remedies," explores ancient nutrition and the health benefits found in God's creation. According to Jordan Rubin, calories are energy. Individuals should not consume too many carbs, instead they should consume things that have good fat and a little bit of raw unheated honey. Ashwagandha is an herb that can help reduce cortisol, which is a stress hormone, and naturally boosts one's energy. Kenny Phillips was diagnosed with throat cancer and was told to do chemotherapy. Kenny consulted health coach, Jordan Rubin and followed his principles to help fight his throat cancer. Through prayer, changing his diet, and exercising Kenny found hope and healing from his disease. According to Jordan Rubin, in his book "Natural Remedies," individuals will find health and hope to combat and overcome all diseases.

Diego Mesa wasn't drinking a lot of water, he did not eat any vegetables, there was no fruit in his diet, and he had too much stress. This ran his immune system down to zero. He was later diagnosed with terminal cancer (stage 4 kidney cancer) and was given a 50% chance of living one year. After going through conventional treatment, and removing his kidney, Diego decided to believe God for a miracle. According to Diego, it is important to believe God, but also act towards what one believes in. Diego started to quote scriptures about health and healing on his body along with a good diet and now, 14 years later, he is cancer free because God healed him.

In his new book, "Healthy Brain Zone," Dr. Don Colbert gives insights between the connection of the brain and the gut, and the impact of consuming a healthy diet. Two key things that invite Alzheimer's into our brains include inflammation and sugar. Therefore, Dr. Don Colbert teaches individuals what foods to eat that will reverse insulin resistance which is the root cause of most Alzheimer's.

Though the waiting process maybe difficult, it important for individuals to trust God even when they cannot see it. Just because an individual is not healed instantly, doesn't mean God can't heal them. Sometimes the process helps individuals mature in their walk with God. It is important for individuals to remain steadfast and remember God's promises to them even if the promise is not fulfilled right away.

The suicide rate for young people between the ages of 14 and 19 has jumped 70% in the past 10 years. 157,000 young people are hospitalized each year for self-harm. Many feel that this coincides with the launch and popularity of many of the social media apps and platforms. Most young people don't realize that social media sites are not accurate representations of the authentic lives of those using them. Meet young people who tell their stories of how they attempted to end their lives but lived to tell about it!

Jekalyn Carr speaks on the power of words and the influence it has on one's life and career. Jekalyn shares with viewers practical strategies of using God's word to obtain a winning mindset. She explains that this mindset, she has developed, has allowed her to achieve a lot of success by the age of 20 and encourages many young people to do the same. A lot of negativity towards the younger generation has been spoken over them, Jekalyn tells the younger generation, "You don't have to accept what the devil has to offer. It does not matter what has been spoken over you...you have the power to declare whatever you want to see. It doesn't matter how young you are, where you come from, what your history looks like. It doesn't matter if you come from a stable or unstable home. If greatness is upon your life, God can use you to do what He wants you to do and He can take you as far as you would allow Him to do it."

This created stressful mind games in him. When he realized that the real warfare was in his head, Kyle started to apply a two-method approach to silence the enemy: 1. Take captive those thoughts, feeling words, open the bible, find a scripture about what you are feeling and speak it out loud and in your mind. 2. Teach your thoughts according to truth (proactivity is speaking truth even when you're not under attack). Read, reflect, rephrase and repeat it. This will reprogram your mind to think positively instead of believing the lies from the enemy.
