PSA Quarterly List

Station Call Letters KSMY For quarter ending: September 27, 2019

Community issue:

- 1. Text and Driving Prevention
- 2. Autism Awareness
- 3. Teen Vaccines
- 4. Colon Cancer
- 5. Healthy Beverages
- 6. Foundation Fighting Blindness
- 7. AL-Anon Family Groups
- 8. Bedtime Routine
- 9. Goodwill
- 10. Hunger Prevention
- 11. Save Your Lungs
- 12. AAP Sleepless With Baby

Responsive programming:

- (1)Public service announcement, July 1, 2019- July 5, 2019, various times: This PSA informs the community how texting and driving is dangerous. Americans are highly aware of and concerned about the issue. More than nine in ten Americans believe sending a texts while driving is very dangerous. There have been many efforts to educate and convey the potential consequences of texting and driving using scare tactics or preachy messaging. A message brought by Ad Council.
- (2) Public service announcement July 8, 2019- July 12, 2019, various times: This PSA informs the community how the number of children diagnosed with autism has increased from 1 in 150 in 2002 to 1 in 59 in 2018. For children with autism, early screening and intervention can lead to a lifetime of difference. The new PSAs work to inform parents of the signs of autism and encourage them to get their children screened by highlighting the positive outcomes following a diagnosis. A message brought by the Ad Council.
- (3) Public service announcement July 15, 2019- July 19, 2019, various times: This PSA informs the community how many parents tend to think of vaccines as something needed

for infants and young children, but less important later in life. In fact, teenagers and young adults often get a number of vaccine-preventable diseases, measles, and meningitis. They need protection against infectious illnesses, as well. Teenagers should continue to see their pediatricians or other physicians on a regular basis. Message brought by the Ad Council.

- (4) Public service announcement, July 22, 2019- August 2, 2019, various times: This PSA informs the community how colon cancer is a cancer of the large intestine (colon), which is the final part of your digestive tract. Most cases of colon cancer begin as small, noncancerous clumps of cells called Adenomatous polyps. Over time some of these polyps can become colon cancers. Colorectal cancer can be detected early with a proper screening. Is recommend for adults between 50 and 75 years to get screened for colorectal cancer.
- (5) Public service announcement, August 5, 2019- August 9, 2019, various times: This PSA informs the community how sugary drinks are leading sources of added sugars in the American diet. Drinking sugary drinks on a regular basis can lead to weight gain, tooth decay, cavities, increase the risk of developing type 2 diabetes, heart disease, stroke, and related cancers. Additionally, drinking sugary beverages is associated with developing kidney disease, non-alcoholic fatty liver disease, and gout, a type of arthritis. Limiting sugary drink intake can help you maintain a healthy weight and enjoy a healthier diet.
- (6) Public service announcement, August 12, 2019- August 16, 2019, various times: This PSA informs the community how the National Federation of the Blind helps blind and low vision children and adults get the education and skills they need, including reading, writing Braille, and using a white cane. They have been giving out free white canes to blind people who requested them for ten years now, with over 64,000 canes shipped over the country. The National Federation of the Blind can connect blind and low vision people in the community with program and services to help them live the lives they want. For more information visit https://digitalmedia.vnr.com
- (7) Public service announcement, August 19, 2019- August 23, 2019, various times: This PSA informs the community how alcohol is the cause of family trouble for over one-third of Americans according to the latest Gallup Consumption Habits poll. Thirty three percent report alcohol related incidents have interfered with their life. Al-Anon Family Groups in the community offer hope and help to families and friends who have been affected by loved one's dirking. 40% of Al-Anon members who first came to meetings because a friend or relative had a drug problem.
- (8) Public service announcement, August 26, 2019- August 30, 2019, various times: This PSA informs the community how a bedtime routine includes all of the things that you do with your baby or older child just before and up to the time that you put him to bed, such as taking a bath, the last diaper change, and putting on their pajamas. There is no absolute right way to set up a bedtime routine. Some kids like to hear a bedtime story, others may

want to talk about their day, and some may just want to say their prayers and go to sleep. As long as your child falls asleep easily and sleeps all night, then your bedtime routine is likely working well.

- (9) Public service announcement, September 2, 2019- September 6, 2019, various times: This PSA informs the community how 2 million people collectively engaged in face to face Goodwill services to build career and financial assets, and advance in their careers. Their donations to Goodwill fund job placement and training for people in the community.
- (10). Public service announcement, September 9, 2019- September 13, 2019, various times: This PSA informs the community how 1 in 5 in America nearly 16 million children struggle with hunger. At the same time, billions of pounds of surplus food go to waste each year. Feeding America is a nationwide network of 200 food banks that leads the fight against hunger in the United States, and in their community. The Feeding America Network helps provide food to more than 46 million people through over 60,000 food pantries and meal programs across America.
- (11) Public service announcement, September 16, 2019- September 20, 2019, various times: This PSA informs the community how every 3.4 minutes, someone dies from lung cancer—the nation's #1 cancer killer of men and women. Lung cancer screening, a low-dose CT scan, saves lives; screening is key to early detection—when more treatment options are available and the chances of survival are higher. Approximately 8 million people are at risk for lung cancer, but if everyone at high risk were screened, more than 25,000 lives would be saved. The new PSAs from the American Lung Association urge former smokers to visit SavedbytheScan.org or speak with their doctor about getting screened. Help people get "Saved By The Scan"
- (12) Public service announcement, September 23, 2019- September 27, 2019, various times: This PSA informs the community how in an effort to reduce the risk of all sleep related infant deaths, the American Academy of Pediatrics (AAP) updated policy statement and technical report includes new evidence that supports skin to skin care for newborn infants. If the baby falls asleep in a car seat, stroller, swing, infant carrier, or sling they should move them to a firm sleep surface on his or her back as soon as possible..

Dear PSA Director:

<u>Stand Up To Cancer</u> (SU2C), American Airlines (AA) and SU2C Ambassador, Tim McGraw, have joined forces in the fight against cancer with a new inspiring initiative and public service announcement (PSA) campaign, entitled "Life's Journeys."

This new campaign features Tim McGraw, along with AA team members, who have also been personally affected by cancer, either as a survivor or a co-survivor caring for a loved one fighting the disease. "Every family in America has a cancer story, my own family included. Too many of us have lost our parents, children, spouses and friends to this terrible disease," McGraw said. "I've been so touched by the stories of the American Airlines team members I've met over the past month and I'm honored to lend my voice to this campaign to help create a world where all cancer patients can become long-term survivors and have more time with the people they love."

The new broadcast PSA powerfully speaks to how there are two types of journeys in life: those we choose to take and those that life takes us on...each creating moments we will never forget and those we must overcome. In the PSA, Tim McGraw encourages everyone to stand up with him to help cancer patients become long-term survivors.

Please place these :30 PSAs in rotation and air them as soon and as often as possible from October 1, 2019 – December 31, 2019 (3 months). By airing the PSAs, you will Stand Up with us in the fight against cancer and help make every person diagnosed with cancer a long-term survivor.

Please contact our team at <u>psa@boombroadcast.com</u> or at (609) 748-7411 if you have any questions on the format or delivery of the PSAs.

Please visit <u>www.StandUpToCancer.org</u> to learn more about the campaign, and follow us on @SU2C across Facebook, Instagram, and Twitter for the latest updates.

Please also feel free to contact me via phone (424) 283-3620 or email at mslutzky@su2c.org.

Sincerely,

Maurine Slutzky

SVP of Media Development, Stand Up To Cancer

Follow-Up for usage information

This Public Service Announcement was recently sent to your station. If you have time please fill out the enclosed reply card and let us know how much air time your station has given to this PSA. If your station needs another copy please visit our download site: radio.tvaccessspotsource.com/alanon or e-mail erin@tvaccess.com and she would be happy to mail you a hard copy.

Thank You

Dear Station Manager:

Broadcasting an Al-Anon: 60,:30 or:15 PSA spot on your station can change people's lives!

Alcohol is a cause of family trouble for over one-third of Americans, according to the latest Gallup Consumption Habits poll. Thirty-three percent report alcohol-related incidents have interfered with their family life.

Al-Anon Family Groups in your community offer hope and help to families and friends who have been affected by a loved one's drinking, including the 40 percent of Al-Anon members who first came to meetings because a friend or relative had a drug problem.

It is not necessary for anyone to suffer in silence and isolation. They just need to know where to find help.

Thank you for your consideration.

Sincerely,

Vali M. Fayen

Executive Director

AlAnon Family Group Headquarters, Inc.

| ADVERTISING POLICY: All billis to Advertiser shall be due and payable when rendered. Balances not pald after 30 days will incur a service charge of 1.5% per month. Advertiser agrees to pay all collection costs, including, but not lincur a service charge of 1.5% per month. Advertiser agrees to pay all collection costs, including, but not lincur a service charge of 1.5% per month. Advertiser agrees to pay all collection costs, including, but not lincur a service charge of 1.5% per month. Advertiser and advertising content is subject to approval by LAZER BROADCASTING CORPORATION (hereinafter "LAZER"). Although LAZER willil try to accommodate "last minute" copy changes, it is hat LAZER is not bound to effect copy changes without receiving 2 working days prior notice. If for any reason LAZER falls to broadcast Advertiser's programs or announcements, advertiser may elect to accept "make-goods" or account. Advertiser shall have no other claim against LAZER for broadcast fallures regardless of cause. Advertiser shall hold LAZER harmless against all liability for slander, libel, unfair competition or trade practices, false advert infringement of trademarks, trade names and copyrights resulting from Advertiser's broadcasts. Unless otherwise provided herein, this agreement may be terminated by either party by giving the other party 14 days prior written if Advertiser so terminated, he will pay LAZER the rate earned in accordance with the rate card on which this agreement is based (short rate), rather than the rate contracted for. This contract shall not be binding until accepted authorized representative (sales manager) of LAZER. Under FCC regulations, Lazer Broadcasting Corporation cannot discriminate in advertising arrangements on the basis of race or ethnicity. Any provision in any advertising agree | | | | | | | | | | | Although ams or a liability for termination the rate and | th LAZER nnounce or slande sted by e e contra the basis | t will try ements, er, libel, either pa cted for | to accor Advertis unfair co rty by gi This cor | nmodate er may e mpetition ving the ntract sh | e "last i lect to in or tr other p all not l | ninute" co accept "n ade practi arty 14 da pe binding | opy changes, It is agreed nake-goods" or credit his ces, false advertising, ays prior written notice, guntil accepted by an |

Have a nice day!

Nancy Lima / Office Manager Lazer Broadcasting Corporation Office: (909) 384-9750

Dear Public Service Director,

According to the Centers for Disease Control and Prevention (CDC), last year, more than 3.6 million U.S. youth, including 1 in 5 high school students and 1 in 20 middle school students, used electronic cigarettes, also known as "e-cigarettes." Between 2017 and 2018, e-cigarette use increased 78% among high school students and nearly 50% among middle school students. This rapid increase led the U.S. Surgeon General to call the use of these products by youth an epidemic in the United States. In adolescents, exposure to nicotine can harm brain development, which continues until about age 25.

CDC's Office on Smoking and Health has produced the enclosed radio public service announcement (PSA) as part of an initiative to raise awareness about the increase in youth e-cigarette use. The goal is to alert influential adults – including parents, educators, coaches, and healthcare providers – about the risks of e-cigarette use among youth.

This is an urgent public health issue for your station and its listeners because nicotine exposure during adolescence can impact learning, memory, and attention, and e-cigarette use among U.S. youth is skyrocketing. Youth who use e-cigarettes also may be more likely to progress to regular cigarettes and be at increased risk for future addiction to nicotine and other drugs.

Please help us raise awareness of the dangers of youth e-cigarette use by running this PSA frequently. For more information about e-cigarettes and risks among youth, please visit: www.CDC.gov/e-cigarettes.

Additional campaign information is available here:

www.causewaypsa.com/EPK/65009 CDC Radio

www.causewaypsa.com/CDC OSH/

Your usage of our PSAs is very important to us. Please use this website to provide us with your PSA airing information: http://radio2.causewaypsa.com/?p=D138764.

Thank you for your time and support.

Sincerely,

Brian King, PhD, MPH
Deputy Director for Research Translation
Office on Smoking and Health
National Center for Chronic Disease Prevention and Health Promotion
Centers for Disease Control and Prevention

Follow-Up for usage information.

This Public Service Announcement was recently sent to your station. If you have time please fill out the enclosed reply card and let us know how much air time your station has given to this PSA.

If your station needs another copy please visit our download site:

Radio.tvaccessspotsource.com/american-association-oral-and-maxillofacial-surgeons or e-mail Erin@tvaccess.com and she would be happy to mail you a hard copy.

Thank you

Dear Public Service Advertising Director,

We are providing you three public service announcements to help educate the public about the importance of wisdom teeth management.

Wisdom Teeth

Third molars, known as wisdom teeth, are the last teeth to develop and enter the mouth. They typically enter the mouth between the ages of 17 to 25.

Nine out of 10 people have at least one impacted wisdom tooth. An impacted tooth is when a tooth is unable to break through the gums, or there is not enough room for the tooth. An impacted tooth is a serious issue. Complications can arise, including damage to adjacent teeth, infection and the formation of cysts.

It is less complicated to remove wisdom teeth when a patient is younger because the roots have not yet completely formed, surrounding bone is softer and there is less chance of damaging nearby nerves and other structures.

Not all wisdom teeth need to be removed, but they do need to be monitored. Healthy, properly positioned wisdom teeth require an annual checkup, periodic X-rays to monitor for changes and regular, professional cleanings.

The American Association of Oral and Maxillofacial Surgeons is committed to educating the public about the risk factors and the importance of wisdom teeth management.

Pain or no pain, your wisdom teeth should be checked annually.

By featuring the enclosed 15-second, 30-second and 60-second public service announcements in your normal rotation, you are helping us educate the public about the risk factors associated with wisdom teeth and the importance of an annual examination.

Your support is greatly appreciated. Sincerely,

Follow-Up for usage information.

This Public Service Announcement was recently sent to your station. If you have time please fill out the enclosed reply card and let us know how much air time your station has given to this PSA. If your station needs another copy please visit our download site: radio.tvaccessspotsource.com/american-lung-association or e-mail Erin@tvaccess.com and she would be happy to mail you a hard copy.

Thank you

+ AMERICAN LUNG ASSOCIATION.

Dear PSA Director:

Nearly 26 million Americans have asthma, including more than 7 million children. The chronic lung disease causes millions of lost school and workdays every year and is the third leading cause of hospitalization among children. While there is no cure for asthma, the good news is it can be managed and treated and the American Lung Association is committed to supporting those affected by asthma handle the lung disease and live well.

As the Lung Association is the leading organization working to save lives by improving lung health and preventing lung disease, through research, education and advocacy. Our work is focused on five strategic imperatives: to defeat lung cancer; to improve the air we breathe, to reduce the burden of lung disease on individuals and their families, to eliminate tobacco use and tobacco-related diseases, and to accelerate fundraising and enhance organizational effectiveness to support the urgency of our mission.

Our two 0:30 and 0:15 second Spanish PSAs covers our free online course, Asthma Basics in Spanish. This free, one-hour interactive online learning module is designed to help people learn more about asthma. As the Hispanic population continues to grow and disperse throughout the country, the urgency of addressing their burden of asthma grows with it. While there is much variation among Hispanic subgroups, depending on from where they originate. Puerto Ricans are hit especially hard by asthma, being more then twice as likely as non-Hispanic whites to be diagnosed with the disease.

Thank you so much for considering our Spanish PSA covering Asthma Basics. We look forward to working with you to spread the word about this free course and hopefully help many breathe easier.

Best,

Harold Wimmer

National President and CEO

Harold Wimmer

American Lung Association
