**"Here's the Thing" with Alec Baldwin** - When you put two creative, well-known personalities together in conversation, it's hard to stop listening. In his new 5-part radio series, **Here's the Thing**, award-winning actor Alec Baldwin gives you unique entrée into the lives of some of today's most exciting performers. Baldwin sidesteps the predictable by taking listeners inside the dressing rooms, apartments, and offices of some of the leading creative personalities of our time, including David Letterman, Billy Joel, Chris Rock, Kristin Wiig, and Erica Jong. (The 5 episodes will air on two Sunday nights this month.)

Sunday, December 16, 8:00 PM: **Billy Joel** - Alec sits down with Billy Joel at a piano as Joel details the decisions -- musical and personal -- that helped shape his music and his career.

Sunday, December 16, 9:00 PM: **Kristen Wiig and Dick Cavett** - Alec talks with Kristen Wiig, a breakout Saturday Night Live cast member star who says she loves performing, but admits "there's also a big part of me that's just like 'Don't look at me.'" And Alec visits talk show legend Dick Cavett at his home, Tick Hall, in Montauk, Long Island. Over iced tea, Cavett shares memories from five decades in entertainment.

Sunday, December 30, 8:00 PM: **Herb Alpert and Chris Rock** - Alec goes backstage with comic actor Chris Rock after a matinee of his show to hear what it was like for Rock to be in his first play. Then Alec talks with Herb Alpert, legendary trumpeter and music producer. In 1966, Alpert's band, The Tijuana Brass, sold over 13 million records, outselling The Beatles.

Sunday, December 30, 9:00 PM: **Lorne Michaels and Erica and Molly Jong** - Alec visits Lorne Michaels in his office at Rockefeller Center -- the same office he's had since 1975, when he created Saturday Night Live. Alec also talks with writer Erica Jong and her daughter Molly Jong-Fast as they spar about sex, the legacy of the feminist movement and the impact of divorce on children.

Sunday, December 30, 10:00 PM: **David Letterman and Michael Douglas** - Alec talks with late-night legend David Letterman. Letterman admits that for a good portion of the past thirty years, he didn't do anything else. Things have changed now; he has no patience for meetings and avoids making decisions on the show, preferring to save that energy to explore the world with his 8-year old son. Visiting Michael Douglas at his New York apartment, the two dive into what makes a great director a smart producer, and why playing the villain is the much more satisfying part.

Miami University alum Bob Chase is the publisher of a new book that takes readers into the world of one of the most popular authors ever, the magical Dr. Seuss. Dr. Seuss: The Cat Behind the Hat, was written by Caroline Smith and is a collector's item for the Seuss and Geisel lovers. As the publisher tells Barbara Gray, Theodore Geisel not only had his beloved children's books, he was a surrealist painter of a collection now referred to as "The Secret Art of Dr. Seuss." This book includes highlights of those works that Geisel referred to as his Midnight Collection, which he mostly kept to himself to avoid criticism, but wanted released after his death. New York Times bestselling author **Jon Katz** has a way of writing about people and their dogs like few can. His **The Dogs of Bedlam Farm** proved that. This time, instead of one long tale, he's written 16 short stories about this unique relationship in **Dancing Dogs: Stories**, and he's on the phone with Mark Perzel to share his continuing fascination with the bond between men, women and children and their dogs.

Now that the kids are off for a couple of weeks, and you're done with opening presents and spending money on presents, what will you do until school starts again? How about a trip to the library? And not just to check out books, but to enjoy a couple of exhibitions that even adults will enjoy. Mark Perzel talks with **Patricia Van Skalk**, manager in the Genealogy & Local History Department, and **Kate Lawrence**, program and exhibits coordinator with **Public Library of Cincinnati and Hamilton County**, about two exhibits on **Wonderland of Fairytales in the Peter G. Thomson Collection**.

### The Big Story

### AROUND CINCINNATI (7:00 p.m. Sunday):

- This year marks the 8<sup>th</sup> year for WXXU's **Around Cincinnati Christmas Special**, this year airing on Sunday, December 23 from 7:00-9:00 pm. As in years past, producer Lee Hay fills this show with plenty of music and storytelling, just in time for that last day of shopping or preparing for your family's celebration. Here are some of the highlights from the 2012 **Around Cincinnati Christmas Special**:
  - The annual reading of Clement Moore's Christmas favorite, "Twas the Night before Christmas," with this year's special guest, local musician and longtime member of the cast of the Bob Braun Show, Rob Reider.
  - A reading by our own Jim Stump of the new holiday classic, "Santa in Cincinnati," written by Judi Barrett, who wrote "Cloudy with a Chance of Meatballs."
  - Local author Jiny Powers Beren reads a poem by Fredrick Thomas, "Christmas Eve in Clifton," from her book **Cincinnati Christmas**.
  - Six pieces from the locally produced "Ring III: A Cincinnati Keyboard Christmas" will be featured including performances by Linford Detwiler, Bob Nave, Phil DeGreg and others.
  - And all throughout the two hours, listeners will enjoy Christmas music from some of Cincinnati's best singers and musicians, from the past to the present, including:
    - Nancy James
    - Rosemary Clooney
    - Zak Morgan
    - Cincinnati May Festival
    - Over the Rhine

**Three New Documentaries about the state of higher education from American Radio Works (Thursdays at 7:00PM):**

October 4 - "Grit, Luck and Money: Preparing Kids for College and Getting Them Through" - More people are attending college than ever before, but many aren't finishing. Among low-income students, only nine percent complete a bachelor's degree by age 24. Why are so many students quitting college? What leads a few to beat the odds? Hear from young people trying to enter the ranks of the middle class, teachers trying to increase their chances, and researchers investigating the nature of persistence.

October 11 - "The Rise of Phoenix: For-Profit Universities Shake Up the Academy" - The rapid rise of for-profit colleges has provoked heated debate and opened new conversations about the costs, quality and purpose of higher learning. This documentary examines the history and influence of the for-profit University of Phoenix, exploring how it and other for-profits are shaping the future of college education.

October 18 - "Keyboard College: How Technology is Revolutionizing Higher Education" - Technology is changing the way many Americans go to college. From online learning to simulation programs to smart-machine mentors, 21st-century students will be taught in fundamentally new ways. This documentary asks whether these innovations can help more people get access to higher education and decrease the cost of college without sacrificing learning.
