2nd Quarter 2017

1. Education

Calvary Radio believes that a good biblical education is the foundation for spiritual success. Education is important because the more knowledgeable we are in the word of God the better equipped we are to stand firm in the confidence of his truth. We also believe that, in addition to studying God's word, it is important that our children are getting a good education in schools and that our undergraduate and graduate students are being taught unbiased truth in their learning institutions. So we encourage people to stand up for truth and fight for good teachers in educational systems.

2. The Economy, Employment & Personal Finance

Due to the current economic recession, families in northwest Indiana are experiencing a higher difficulty in being able to acquire a mortgage, find employment and afford health care. We at Calvary Radio try to provide programming that encourages our listeners to make wise financial decisions through good financial stewardship during these uncertain times and to put their trust in God knowing that he provides for our needs.

3. Family & Marriage

Calvary Radio provides programming for all types of people from all types of families understanding that no family situation is perfect. We desire to provide programming that addresses all types of issues for struggling families. But our solution to these issues is found in Biblical principles and spiritual wisdom not just in psychologists and self-help books. We strongly promote a family first structure of living with a high value put on Biblical marriage.

4. Children & Youth

Seeing as how children are our future, Calvary Radio broadcasts various programs geared specifically to certain age groups in the hopes that kids will be challenged to grow in their spiritual lives and become good citizens as they grow older and mature in their faith and relationships with people. We provide Children's programming on Saturday Mornings and Youth programming on Monday evenings and weekends. Hoping to encourage youth to take their faith seriously and not succumb to peer pressure that may advise them to do otherwise.

5. Spiritual Growth & Practical Christian Living

Spiritual growth is one of Calvary Radio's main goals. We try and encourage spiritual growth in our listeners by broadcasting programming with sound Biblical teachers and challenging messages as well as praise and worship music to keep listeners encouraged and edified throughout their week. We strongly urge our listeners to seek to grow in their faith and not be content with a inactive relationship with God.

6. Religious Freedom, Oppression and Terrorism

The signal of WHLP and its translators covers the Chicagoland area, where terrorism is a bigger threat than elsewhere in the US so we at Calvary Radio are doing our best to educate people on the safety level of our area while reminding our listeners that God is our only source for true safety. And while religious and constitutional freedoms are often an issue in schools and are part of America's constant struggle with taking God out of the schools. Calvary Radio brings programming that addresses the true heart issues of fear and security.

7. Public Health

With health care costs on the rise and insurance prices increasing, families in the area often have to live without insurance and the uncertainty of what will happen to them if health problems occur. So we air programming that deals with ways to acquire health insurance and how to maintain good health if health care is unavailable to you. Centering on the fact that our bodies are God's temple and we should do our best to take care of them but understanding that they're also temporary and God has a more perfect plan for us waiting in Heaven someday.

8. Public Safety

Whether our listeners have to deal with icy roads, blazing fires or windy weather, we want them to be well equipped for anything that could come their way. So we provide programming to deal with some of the safety issues in hopes that it may just save a life one day. That's why it's important to us that listeners be aware of safety hazards within their homes, cars and workplaces.

Calvary Radio is committed to truth in radio and, in keeping with that commitment, our programming consists mostly of sound biblical teaching programs with a primary focus on the truth of God's word and its instruction to us.

Along with those teachers we also broadcast Jay Sekulow Live, a daily radio outreach program of the American Center for Law and Justice. Hosted by ACLJ Chief Counsel Jay Sekulow, this live call-in program focuses on the legal and legislative battles underway across America.

The following programs, however, we receive no financial reimbursement for broadcasting and are strictly for the purpose of inciting community interaction, encouraging education and discussing issues that relate to the city and county

The Following Programs for this Quarter Include

: 4/2/2017

Eagles Soar Above the Storms pt 2

1  513

Problems can be stumbling blocks or stepping-stones depending on how you handle them. Scripture says those who trust in the Lord will soar on wings like eagles. The majestic eagle is fearless as he flies into the face of a storm. Just as stronger winds cause the eagle to fly higher, so adversity strengthens Godly people. Trusting in God in the storms of life produces Godly character. **Avery Willis**, author of [Learning to Soar - How to Grow Through Transitions and Trials](#), says adversity may cause us to develop greater faith and maturity. You can trust God, just look at the vast universe, to see how awesome God is.

4/9/2017

Arisen pt 1

 1514

The greatest event in history is the death and Resurrection of its Creator- Jesus Christ! The greatest words ever spoken are "He is RISEN!" Seeing the Resurrected Jesus Christ transformed the apostles from fearful to bold courageous men who changed the world. Christ is still transforming people by giving them a glimpse of heaven. **Steven Musick**, author of [Life After Heaven - How My Time in Heaven Can Transform Your Life on Earth](#), vividly describes how his body died, but his spirit went to heaven to see, touch and talk with Jesus Christ, but Christ sent him back to tell others about the reality of heaven.

4/16/2017

Arisen pt 2

 1515

Is heaven a real, *literal place* or just an ethereal, *vague concept*? What happens after you die? **Captain Dale Black**, author of [A Pilot's True Story - Flight to Heaven, A Plane Crash, A Lone Survivor, A Journey to Heaven and Back](#), vividly describes his horrific plane crash and his wondrous experience in an incredibly awesome place -Heaven. What do *angels* look like? Jesus promised *mansions* awaiting God's children. What are they like? Dale Black describes Heaven's music and the brilliant colors in grass, flowers, and water. But what impressed him was God's love, filling all of heaven. Dale Black's story is life changing.

4/23/2017

Stealth Invasion pt 1

 1516

America was the great melting pot as migrants came here to adapt to our language and culture. But **Leo Hohmann**, author of [Stealth Invasion - Muslim Conquest Through Immigration](#), says Muslims are legally invading this country, since they have no intention of assimilating but remaining separate to change America through high birthrates and conversion into Islam even using our public schools. Sharia Law is tyrannical and would eliminate all our freedoms! Muslim Student Associations have more chapters than the Democratic and Republican parties combined. Why is Islam being taught in our public schools?

4/30/2017

Stealth Invasion pt 2

 1517

Leo Hohmann, author of [Stealth Invasion - Muslim Conquest Through Immigration](#) says, "Legal immigration of Muslims, who don't assimilate, is an invasion that will change America by changing its populace." Islam is tyrannical controlling all

aspects of life for Muslims and non-Muslims. Lebanon was a melting pot until Muslims took over. Then it became a living hell for Christians. [Brigitte Gabriel](#), author of [Because They Hate - A Survivor of Islamic Terror Warns America](#), tells how horrible it was to try to live without basic necessities of food and water. Muslims slaughtered Christians, because they were infidels.

5/7/2017

Universities Produce Liberals part 1

1518

Top American universities are *at war* with Western Civilization, creating contempt for our culture in the minds of students. The influence of universities on our culture is profound. [Jerry Martin](#), *President- American Council of Trustees and Alumni*, quotes anti-American comments made by professors after 9/11, such as "The only heroes are those who find ways to defeat our military." Top universities offer pro-Islamic, Marxist and even *pornographic* courses, but nothing about *American* History. Anti-American universities have created generations that are not only ignorant but also opposed to our basic foundations.

5/14/2017

Universities Produce Liberals part 2

1519

Universities have become spawning grounds for Marxists, which mass-produce traitors to our founding principals! Our nation established universities to train ministers of the gospel. Have they now become our enemies? Professor [Robert Lopez](#), author of [Wackos, Thugs and Perverts](#), was forced out of Cal State Northridge, says, "Higher ed is sick and dangerous. Cut their funding or live with the costly damage to our nation's soul as they continue to poison generations." When a university promotes only one side, it's not an education, its an indoctrination. The homosexual agenda has become their agenda

5/21/2017

Psychology As Religion

1520

Schools used to teach values- right from wrong. But now there are no absolutes, that's considered too religious. It's up to each person to decide for themselves. How did this happen? Psychologist [Dr Bill Coulson](#), along with Carl Rogers, introduced an experiment in the schools that led to a cultural paradigm shift that changed the teacher to a facilitator and switched absolutes for relative values. Dr Coulson says this has led to a disaster for our culture! Dr Coulson explains how his psychological experiment led to "situation ethics," inventive spelling, illiteracy, drug addiction, immorality, smoking, etc.

5/27/2017

Courage

1521

Freedom is not free but purchased at great cost. Memorial Day is a day to remember the sacrifices that paid for our freedoms. [Gary Horton](#), a motivational school assembly speaker, was an Army Ranger who fought for our freedoms, yet he's not given the freedom to speak about his Christian faith in public schools. Schools have re-written our history, banned the flag, and banned the motto and the pledge. Christians have accepted the lie that we must deny our faith in public and deny the basis of where our freedoms came from- Biblical Christianity. Without this understanding, our freedoms are in grave jeopardy.

6/4/2017

Greater Faith

1522

Without trials we remain spiritual babies. Trials are designed by God to develop our faith. [Dr Tony Nelson](#), author of [Crazy Life - Navigating Through Life's Disruptions Without Losing Your Faith](#), was fired from pastoring his church for 22 years. Tony Nelson says Job said, "Though He slay me, yet will I hope in Him." Abraham was told to kill his son yet trusted God. Paul wasn't healed yet said, "I delight in weaknesses, hardships, persecutions... For when I am weak, then I am strong." The apostles questioned Jesus sleeping in the boat during the storm and asked Him, "Don't you care if we drown?"

6/11/2017

A Better Way To Educate

1523

Children are made by God to be voracious learners, until adults quench that desire. 17 year-old Eddie Zhong started his own successful business says schools can stunt *creative* thinking. What do you want your child to become and to believe? [Israel Wayne](#), author of [Homeschooling From A Biblical Worldview](#), gives scriptural mandates for parents to consider. Public schools do not train young minds to think critically and debate both

sides of issues. They only get one side. What is a good education if it leaves God out? Secular schools make secular students. Education is more than just academics. It's discipleship.

6/18/2017

Nuclear Nightmare

1524

No generation has witnessed more fulfilled prophecy, since Christ, as this present generation. Yet many more prophecies are on the threshold of fulfillment. Iranian leaders believe the only way to bring the Caliphate into world dominion is to destroy Israel. [Joel Rosenberg](#), author of [Damascus Countdown](#), predicted 9/11 nine months before it happened, now suggests Israel will launch a preemptive strike against Iran, but if they fail to get all the nuclear warheads, retaliation from the Islamic world would be *overwhelming*. He says, "An atomic Iran could do in 6 minutes what it took Hitler 6 years to do, kill 6 million Jews."

6/25/2017

The Truth About Sharia

1525

A university student said she wants Islamic Sharia Law *imposed* on this country. Why would anyone want this cruel, barbaric, 7th century, law imposed on this nation? Is *Jihad* simply an *inner struggle* to overcome evil? [Nonie Darwish](#), the author of [Now They Call Me Infidel - Why I Renounced Jihad for America](#), says radical Muslims have come to this nation to bring in Sharai Law. Islam isn't just a peaceful religion but a political, social, economic way of life. How are Minarets different from Church steeples? Minarets, called *terror towers*, represent *persecution* for Christians in Muslim lands

Issue/s Addressed: Public Safety: National highway Transportation Safety Administration

During daylight hours across America, approximately 660,000 drivers are using cell phones or manipulating electronic devices while driving... and it's been determined that every time a driver takes his or her eyes off the road to text, at driving 55mph, will travel equivalent of the length of a football field blindfolded. There are lots of distractions to choose from as we drive, but texting has been identified as one of the deadliest... given that text messaging is so pervasive and

requires not only visual, but manual and cognitive attention from the driver. To discuss the issue of distracted driving, and how it has changed the culture of the roads, we invited David J. Friedman, Deputy Administrator of the National Highway Transportation and Safety Administration to join us for an interview, as well as featured a variety of testimonials from family members who lost loved ones to distracted driving.

It's their hope, as well as ours, that by providing alternatives to abortion with acceptance and compassion, as well as the physical, emotional and spiritual support needed by coming alongside those experiencing an unplanned pregnancy, more will be abundantly blessed as they welcome new life in into this world to the praise and glory of God in 2015 and for years to come. Guest: Karen Hayter

Date: 04/29, 04/30/2017

Issues Addressed: Spiritual Growth, Christian Living: KCAN

Every year, April is identified as Child Abuse Prevention Monty, and while the campaign is coming to a close, the need for awareness and education continues to be on the hearts and minds of many through our communities. It's been reported by Kalamazoo County's Child Protective services that over 6,000 calls of suspected child maltreatment were received in 2014, and nearly 50% of those confirmed victims of abuse and neglect were under the age of six. It's also reported that

1.5 infants deaths per 1,000 births are due to unsafe sleeping environments; a rate that continues to be higher than the rate for the entire State of Michigan.

To discuss the issue of child abuse prevention, we invited Karen Hayter, Executive Director of KCAN to join us for an interview. To learn more about this issue in the Kalamazoo area, go online to www.kalamazooocan.com

Guest: Kristin Rucinski

Date: 05/06, 05/07/17

Issue Addressed: Family and Public Safety: The road Home

When a family is living on the streets, the road home changes every night... which is why we are grateful for individuals, churches, and organizations which not only recognize the need, but open their arms... and doors to struggling families. Due to a lack of affordable housing and a number of other factors, homelessness persists throughout our communities, but thanks to generous organizations like "The Road Home", the affordable transitional housing that these families need to take that first step up to secure permanent housing is being made available in Dane County, Wisconsin.

To share how The Road Home Dane County provides opportunities for homeless children and their families to achieve their self-determined goals through affordable, stable housing, we invited Executive Director, Kristin Rucinski to join us to discuss how we can help these families get back on their feet again. To learn more about this organization, go online to www.trhome.org.

True North instructs their students through an eight-week program covering the following character qualities: relationship building; teamwork and leadership; respect; patience, perseverance and strength; focus; communication; critical thinking, decision making, discernment, and conflict resolution; and trust. Byproducts of these character qualities are values such as honesty, gaining control, confidence, empathy, compassion, love, gratitude, forgiveness, grace, humility, contentment and care. Individual lesson plans are uniquely designed based on the needs of each young person. Each lesson is planned to connect the horse and student. It is their desire to bring hope to those in need through the use of the animals and trained counselors in their field. Guest: Mary Considine

Date: 5/27, 5/28/17

Issue/s Addressed: Family and Public Health: Fisher house Foundation

According to the Department of Veteran Affairs, it's estimated that upwards of 20 percent of veterans from the wars in Iraq and Afghanistan are currently confronting PTSD and traumatic brain injury; a difficult reality to face for our servicemen and women who have put their lives on the line on behalf of God and country. In hopes of addressing the consequences of War in a very tangible way, the Fisher House Foundation has been there to provide temporary lodging for families of military vets across the country, and abroad... and is now celebrating its 25th year of service in helping our wounded warriors get the medical attention they need by providing a special network of comfort homes where families can stay at no cost while their loved one receives treatment. It was our pleasure to introduce Mary Considine, Chief of Staff for the Fisher House Foundation to the program. Mary joined the Fisher House Foundation in 2004, after having served as a volunteer for several years, and has assisted with the growth of the organization from a staff of only three, to diverse and dedicated nonprofit team which provides support for over 25,000 military and Veterans' families every year. Guest: Beth Mosher

Date: 06/03, 06/04/2017

Issue/s Addressed: Public Education and Safety: AAA Teen Texting Program

According to a new report released by the AAA Foundation for Traffic Safety, in 2013 alone, over 370,000 people were injured and nearly 3,000 were killed in crashes that involved a teen driver. The results come just as the “100 Deadliest Days” of summer begin; the period between Memorial Day and Labor Day when teen crash fatalities historically climb. Peter Kissinger, President and CEO of the AAA Foundation for Traffic Safety states that “Teen crash rates are higher than any other age group; this data confirms that the impact of their crashes extend well beyond the teen who is behind the wheel... and since teens drive more during the summer than any other season, this insight is a timely reminder to everyone— *drivers, pedestrians and bicyclists* – to be mindful when sharing the roads with young drivers.” To discuss these finding and draw more attention to this issue, we invited Beth Mosher, Director of Public Affairs to the program. For more information about the relationship between teen driving and texting accidents and fatalities, go online to www.TeenDriving.AAA.com

Guest: Heather Feltman

Date: 06/10, 06/11/17

Issue/s Addressed: Children and Family: Adoptions Unlimited

The journey we each take in life is unique, yet there are common threads that keep us intact, some of which come in the form of encouragement, understanding, guidance, and wisdom; the qualities of which a Christian home, by God’s grace, strives to provide. For children who are wards of the state, becoming a part of a “forever family” is something that many can only hope to imagine... and long to somehow come to know in a personal way: Could you be one of those forever families? To learn more about the gift of adoption, we invited, Heather Feltman, Executive Director at Adoptions Unlimited, to join us. The EFCA is a non-profit Christ-centered agency, offering a variety of services to children, families, and individuals throughout the Upper Midwest region. For more information about adoption with Adoptions Unlimited, go online to www.adoptionsunlimitedinc.org

She answers some of the most common questions she hears regarding adoption, particularly with regard to foster care at the EFCA. The previous week we spoke with Heather Feltman, Executive Director at Adoptions Unlimited, who touched on the subject of the orientation and home studies that are necessary to prepare for adoption, and followed- up with Kate to walk us through what listeners need to know about this important preparatory process, as well as a general understanding about “healthy boundaries” look like in real life adoption stories.
