

WFNY TV 48 Second Quarter

2013

Johnstown Common Council Meetings Covered

WFNY videotapes The Gloversville and Johnstown Common Council Meetings and we air these on Wednesdays beginning at 6pm each week. Most people do not have the time to get to these meetings so we bring them to their homes. So many local issues as well as state and federal issues are discussed. Right now a huge issue is child safety, in the classroom. This affects everyone. After recent snowstorms, public safety issues are discussed. Every month seems to be financial doom and gloom, and these issues are discussed.

Gloversville and Johnstown School Board Meetings Covered

WFNY video tapes and airs the Gloversville and Johnstown School Board Meetings and we air them each week on Tuesdays beginning at 6pm. So many local issues are discussed as well as information for the students. Gloversville has begun to have meetings at different parts of the district to show off parts of the facilities. Issues discussed each month range from education to transportation, to financial. The districts also feature good students and accomplishments as well as discuss many bad issues in struggling times.

Nathan Littauer Hospital Program

We have offered Nathan Littauer Hospital air time to discuss the so many medical issues as well as financial, facility, educational, and so much more. The issue for quarter four was ticks and Lyme disease. So many people and animals have been bitten by ticks that it is alarming. The programming was to teach and reassure folks of how to avoid and handle the situation, among other topics discussed. We also did a program on the updated Food Service department and interviewed Fealthlink on the class being held for adult falls.

Gloversville Police Department Self Defense Class

This program still airs and contains so much current information. Two members of our police force took the time to do a two hour self defense class that goes beyond physical protection. This program was able to teach how to avoid and how to get yourself out of a bad situation. This was taught so well that it will be hard to replace. We still have crime, and lots of it. This program shows just how far you can legally protect yourself.

Tour Of The Erie Canal

This historic program was shot on our backyard on the Erie Canal. This magnificent waterway contributes so much that we still take it for granted. There is transportation, economy, recreation, and so much more from this wonderful local resource. This asset brings people to our area. The program gave some history and well as insight into what The State Of New York might be doing to maintain and

enhance the Erie Canal.

E.M.S. and You

The Ambulance Service Of Fulton County has partnered with us over 29 years to develop this program. It is allowing the ambulance service to discuss its problems from medical to financial, but also gives them the chance to teach people. When should you call for assistance, how to do it effectively, and yes, there is a charge and why. We talk about the continuing education and more. We also did a tour of one of the ambulances at the base and talked to some of the personnel.

Parade Coverage

So many people have enjoyed our covering area parades. We provide video coverage as well as commentary. This quarter, we covered the Memorial day parade in both Gloversville and Johnstown.

Our Graduation Coverage

We did again cover school events. We taped and will be airing the Gloversville and Johnstown High School Graduations.

Introduction Of Fulmont to the Community

We did a fifty minute program on the services provided by this agency. It serves all of Fulton and Montgomery Counties. We had the chance to meet folks that have been with the agency for 30 years. They provide so many local services to those in need.

Bad Local Emergencies

Our Emergency Alert System has been working overtime with so many weather emergencies from severe thunderstorms to flooding and flash flooding. We do not delay on airing these messages.
