**Subject:** RE: KOTS-AM and KDEM-FM

Dear Ms. Hurt,

In light of the station's small staff size, although it is not exempt from responding to the audit, it is not required to respond to the entire letter. As explained in paragraph 2 of the audit letter (included in the below link), small stations still must respond but only to provide us a list of full-time staff by title and hours assigned, which you have already done in your below e-mail, and answer only one question, which is whether there have been any discrimination complaints filed against the station during the current license term. If you provide that one bit of additional information and post the entire response to your online public file, as you indicated below, that will constitute an entire response. Thank you for your inquiry.

KOTS 1230AM and KDEM 94.3FM

Mr. Pulley:

We operate under Luna County Broadcasting Company, a partnership. We have only one full time employee and she is the station manager. We have two disk jockeys. One works approximately 15 hours per week and one works approximately 10 hours per week. We feel we are exempt from filing. Please let us know if we need to do anything further. This email will be posted to our public file.

Sincerely,  
Tamara G Hurt, Partner
