

Description of Issue	Program/Segment	Date	Time	Duration	Narration of Type and Description of Program/Segment
1. Community: Crime	Inside America	7/11/2022	10:00 – 10:20 a.m.	20 min.	Although the crime rate has been increasing in recent years, the rate of arrests has been declining. This can be attributed to an increase in recidivism amongst convicted criminals, and the difficult economic times brought about by inflation. The community is expressing a general anxiety and a dissatisfaction with policing.
2. Community: Crime	Morning Focus	7/18/2022	9:30 – 9:50 a.m.	20 min.	The LAPD has issued a warning to the community following a recent string of "follow home robberies", where the perpetrator follows their victim home and then commits the robbery. Additionally, across Los Angeles, residents wearing expensive watches and/or carrying luxury purses are being targeted in broad daylight. Therefore, the LAPD is urging vigilance and being aware of one's surroundings, especially restaurants, shops, malls, and clubs.
3. Environmental Issues	Into the News	7/22/2022	2:00 – 2:20 p.m.	20 min.	Europe is suffering from a devastating heat wave, especially in Portugal and Spain on the Iberian Peninsula. Across Western Europe, from France to the Baltic states, the heat and drought have caused widespread wildfires that have displaced thousands of people. The United States, especially California, is likewise struggling with persistent heat waves driving temperatures up to 120 degrees Fahrenheit.
4. Community Health: Covid-19 Pandemic	Inside America	8/5/2022	10:00 – 10:20 a.m.	20 min.	During the initial stages of the Covid-19 Pandemic, California was found to have delayed or inappropriately denied unemployment benefits to millions of residents. This was attributed to a state policy that prioritized companies over workers in receiving money. In response, a legislative analyst audit assessed that the CA UI was wrong in making its determinations.
5. Economy	Into the News	8/10/2022	2:00 – 2:20 p.m.	20 min.	The Consumer Price Index (CPI) hit 8.5% in July, which was lower than Wall Street estimates. This lower than projected CPI is reflected in variations in the top three indices in the market. There is concern as to whether or not the Fed will continue with its interest rate hikes.
6. Global Economy	Press Handbook	8/27/2022	10:00 – 10:20 a.m.	20 min.	Attention is being drawn to the argument in favor of imposing a windfall tax on the global grain companies that are reaping record profits because of inflation. The United Kingdom, which is suffering from the highest inflation rate in Western Europe at greater than 10%, has taken the drastic measure of eliminating shelf-life recommendations in order to minimize the amount of food being discarded.
7. Community: Housing	Into the News	9/1/2022	2:00 – 2:20 p.m.	20 min.	The housing market in the U.S., which has been booming for years, has been slowing noticeably in recent months. As demand dwindles, the growth in house prices has slowed considerably. Goldman Sachs expects that with the fear of recession increasing along with the rise in mortgage rates, the housing market could face turmoil in 2023.
8. Green Energy	Press Handbook	9/10/2022	10:00 – 10:20 a.m.	20 min.	California, which has the nation's most proactive Green policies, has decided to ban the sale of new gasoline-fueled vehicles altogether by 2035. As all kinds of natural disasters continue--heat waves, droughts, floods--this is a natural step to end the dependence on fossil fuel vehicles and move into a new era of eco-fueled, especially electric, vehicles. However, it has been pointed out that solutions to the challenges of the comparatively high cost of electric vehicles, sufficient power grid supply, and battery storage must be a priority.
9. Climate	Morning Focus	9/14/2022	9:30 – 9:50 a.m.	20 min.	In California, the weather phenomenon known as La Nina is very likely to continue into this fall. As a result, autumn is likely to be hotter and drier than in previous years. This La Nina is expected to continue for three more years in the Northern Hemisphere.
