

QUARTERLY REPORT #1 for 2020

FOR PERIOD COVERING

Jan 1, 2020 to March. 31, 2020 (Filed 3.6.20 by Wendy Osher)

While news happened in the first two months of this quarter, there was a major shift in coverage in the month of March to deal with the COVID-19 pandemic and its impacts globally, nationally and the changes happening right here at home. In a matter of days travel restrictions were implemented, our number one industry (tourism) was brought to a virtual halt, employment plummeted and the economy is quickly feeling the impacts across all sectors. Many companies are dealing with a major shift in the way they do business, having to layoff large portions of their workforce and tailor their businesses to the changing times ahead. This edition is focused on that effort to reset and plan for a way forward even though the peak impacts are still weeks into the future. The edition focuses on March 9-31, 2020. It includes daily recap messages on all six Maui radio stations, live streaming of press conferences, tailored segments dealing with health care, special interviews with government and health care leaders, and special editions to help businesses find a way forward.

THE FOLLOWING IS A SELECTION OF THE TOP STORIES COVERED BY PACIFIC MEDIA GROUP ON THE GIVEN DAYS: It gives a glimpse into the various topics covered in daily news casts, special reports and expanded coverage online with cross promotion on our various platforms.

<u>Date</u>	Subject matter	Description
<u>2020/03/31</u>	New Loan Program Offered to Hawai'i's Small Businesses	"This new loan program will help Hawai'i small businesses meet their payroll and provide people with paychecks for up to eight weeks."

<p>Published <u>2020/03/18</u></p>	<p>All 16 Hawai'i Coronavirus Cases are Travel Related</p>	<p>As of March 18, 2020, noon, there is a total of 16 confirmed or presumptive positive cases of COVID-19 in Hawai'i. New positive results were announced today for two O'ahu residents who traveled outside Hawai'i. The Department of Health (DOH) is monitoring these individuals and supervising their isolation as well as the self-quarantine of their family members. One of the O'ahu cases announced this past Monday, March 16, was a Kualoa tour operator who had not traveled, but was exposed to travelers daily. Three family members from the individual's household were tested with negative results. All cases who tested positive in Hawai'i are travel related. Although the Governor said Hawaii was on the "edge of community-spread" over the weekend, state Health Officials today say "There is no evidence of community spread in Hawai'i at this time."</p>
