Cuando los padres se enteran de que cada año

20.000 niños menores de 5 años de edad son hospitalizados por

causa de la influenza, dejan lo que están haciendo y llevan a sus

hijos a vacunarlos contra la gripe.

Si tiene hijos de 6 meses a 5 años de edad o hijos con una enfermedad crónica

como el asma, vacínelos ahora y vacínese usted también.

Llame a su médico hoy.

Un mensaje del Departamento de Salud y Servicios Humanos de los Estados Unidos.

Hazlo por Ellos :30 ASP

Niños: ¡Abuelitos!

Mamá: Papá, los doctores están recomendando que las personas de 65 años

o más se pongan la vacuna contra el virus de la influenza que produce la gripe.

Abuelo: Con esa vacuna te puedes enfermar.

Mamá: No, papá... Pero dice el doctor que la

gripe puede ser peligrosa y puede empeorar condiciones como el asma, la diabetes, la bronquitis crónica y enfermedades del corazón.

Chico: Si quieres, yo voy con ustedes para que no les de miedo la vacuna.

Anncr: Protéjase. Proteja a sus seres queridos. Vacúnese contra la gripe. Para más información,

llame a los CDC al 1-800-232-4636 o hable con su médico.
