

The attached document was timely prepared by the January 10, 2019, deadline.

As a result of the federal government shutdown that started on December 22, 2018, the FCC's online public file (OPIF) system was inaccessible and non-functioning from January 3, 2019, until January 27, 2019.

Consequently, the attached document was not uploaded until after the January 10 quarterly filing deadline, after the federal government re-opened and the FCC's OPIF system was put back into service.

The following is a list of some of the more significant community issues addressed by this/these station(s) for the quarter specified. This listing is by no means complete, nor is the order in which these issues appear, intended to imply any degree of priority or significance of the issues.
