Hello, Koko!

I'm happy to hear from you my friend! I want to share with you that I've had so many callers that have heard the PSA through your generosity in continuing to air it. I think of you each time someone shares that with me.

Thank you, Koko. Your support has touched more lives than you know. It was a distinct pleasure taping the interview with you. Perhaps we can do an updated version in the future.

Best wishes, always,

As Valentines Day approaches, the SC DSS South Carolina Parenting Opportunity Program (SCPOP), is requesting your assistance by joining our efforts to reach single fathers. Attached is a short PSA, presenting a message about the importance of fatherhood, for our Program. We are respectfully requesting your station run the PSA through February 17, 2014. 48% of children born in South Carolina are born to unmarried parents. Please help us carry our important message about the benefits of establishing paternity and adding the father's name to his child's birth certificate to the single fathers and mothers in our State. What a difference a Dad makes! Questions, comments or concerns? Please contact me. If possible, please send us a short reply if your station will air the PSA. Thank you, kindly, Mr. Litton, for your consideration of our request again. Bebe Lane

This has to be the most poorly executed format change in history. There clearly was no planning whatsoever. Just a complete embarrassment. You should have sorted everything out before changing the format. This just proves you don't know what's best for radio. It's time to tuck your tails and head back to the Pacific Northwest!

Fox 102.3 you suck as a radio station!! Why wasn't Fox 102.3 updated NOT to include John Boy & Billy? Where am I going to hear new Seethed, Five Finger Death Punch, Three Days Grace? L&L Broadcasting, we want the OLD 93.5 back!! Do you realize that there is NO other ALTERNATIVE radio here in Columbia (99.3 doesn't count..its more artsy fartsy than alternative). & don't get me started on the new 93.5 Q.....it sucks worse than 102.3. Seriously, if I wanted to listen to the music the new Q plays, I could listen to that crap on 104.7, which I wouldn't because I love ALTERNATIVE music!!!!

Well, I got a response from Mike Hartel today! He does not care that L&L Broadcasting, LLC has lost a listener. The focus group for 102.3 found that they needed more diversity on 102.3 so they removed 93.5 to save money.

Like · March 26 at 7:11pm

John Smith Well, if you hear from Mike Barrel again, tell him they've lost a lot more than one. I figure that the long range plan was to get rid of the classic side, all along. The "Fox" brand is worth more than a Q brand. 6 months down the line it'll be an alternative station.
just my thoughts.

Adding my 2 cents to the complaints...I had both 93.5 & 102.3 as presets on my radio - for different reasons. 93.5 was when I wanted newer, harder rock - 102.3 for when I felt like listening to some old school rock. This supposed "blend" that you think you have going on...It's not working for me! (Or anyone else, judging by the posts on here!) Since I don't have any other options for rock on the radio, I guess I'll be playing the Ipod a lot more, or looking into a Sirius subscription! Thanks for screwing up two good radio stations!

Hey Guys, Been listening to your station for decades. I remember when your station was on St. Andrews Road back around 87 and we were happy to get a rock station to preceed Z96. It's about the DJ's as much as the music. No DJ persona , No one listens from day to day. My buddy Mike Scott was a dear friend and his personality as well as KoKo & Weird Beard is what makes people come back and listen again tomorrow. If you take that away, why would anyone care to listen? It's kinda like when you watch a football game with no comentary, BORING ! Bring back Weird & KoKo

John Smith L&L Broadcasting, ("Live and Local"). Looks like the "Live" aspect is gone. No Koko, no Beard? I guess the "Local" aspect is the traffic updates during the drive time hours. The change from "Classic" rock to "Mainstream" rock signals the death of this station. Listeners from 93.5 should take heart as more and more mainstream tracks are pushed into the playlists.

I LOVE the new format of 102.3!! Finally, a decent rock station in Columbia!! Come on people. how many times can you listen to the same old Led Zeppelin, Rolling Stones, Aerosmith, Pink Floyd, Lynard Skynard, etc songs. If that's all you want to listen to, play your CD's!!! This station is finally playing a great mix of rock music, both the old classics as well as the newer songs. I switched back and forth between 93.5 and 102. I must say I'm pretty disappointed in 93.5 but EXTREMELY pleased with the new 102. I will say however, I do miss Weird Beard in the afternoons. he was entertaining, provided lots of trivia and made me laugh. But he could still do that with the new format, maybe for just a couple of hours. I am probably the only 65 year old granny that still enjoys rock music! Please don't change the new format!!

Yalls station sucked before and now it sucks even more. You are not fooling any one in columbia. You say you are mixing 93.5s music in with 102.3s music , but that has not been the case so far as i have seen, you are still playing the same ol boring crap you did before, with the edition of maybe one decent song from 93.5s playlist. The sad part is , is that yall have the city of columbia by the balls because we dont have much to choose from as far as radio stations go around here , so were screwed , or are we. This is why your station has been taken off the presets on my radio , im sure not only my comments and concerns about this f d up situation of no decent true rock station in columbia but the countless others of whom i have read and totally agree with , will most certainly fall on deaf rich ass executive ears.

I listened to the Fox a lot overnight on my job and basically it's four parts classic rock and one part some random 90s song, usually the Foo Fighters or Pearl Jam. I liked both stations, but listened to 93.5 more. Most people who listened to 93.5 religiously aren't going to sit through "Free Bird," "Stairway to Heaven" and "Bohemian Rhapsody" four times a day each. It kills me that the people who made this decision aren't smart enough to get that,

I've be cumbersome to listening to this station, used to loving it, except for all of the queen. thanks for at least reducing that. Still monitoring what's being played. You don't have a lot of fans after changing formats. the signal strength is also lacking. used to be 50 k watts. What happened?

The merger is no good so far. The only station in Columbia that I used to listen to was 93.5. I thoroughly dislike the mix on 102.3, and am considering swearing off broadcast altogether and just upgrading to MP3 in the car.

Please bring back 93.5.

John Smith Be patient, listeners from 93.5. The "Fox" tag is too valuable for L&L to loose. It wont be long before Fox 102 will be playing everything you miss from the old 93.5. Looks like L&L just wanted to add another "Urban" station to the Columbia market.

Let me get this straight...y'all took a rock station with over 9,000 facebook fans (not including those of us who have separately liked pages like The S&M Morning show) to merge into a station that has 899 followers. Hate to break it to you, but the 9000 aren't coming over. We're going XM or Pandora until our station is back! I already miss Laura and Ruthie!

I hope someone picks up where 93.5 left off. Remember too this radio froup that ended Espn radio to have it back a year later.

I've tried listening to this terrible mash up of new and old rock and I hate it. I listen to classic rock every now and then but being forced to listen to both when wanting to listen to one is crap. No warning. No hey Columbia what do you think about what's going on with these two stations that have been around for decades. Just rip one off the air and crossbreed it with another one for a cross eyed effed up station. Even the DJs don't know what to do. Playing Nickleback? Nobody likes Nickleback.
