

**MUST-CARRY/RETRANSMISSION CONSENT ELECTION
PUBLIC INSPECTION FILE STATEMENT**

KOXI-CA does not have must-carry rights on any multi-channel video program distributor, or cable because there are full-power television stations licensed to Camas, Washington, and on satellite because no Class A station has must-carry rights on satellite systems.

Therefore, the station is classified as a retransmission consent station by default and need not, and has not, made a status election.
