In re: KYRK, FCC Facility #40798
Request for extension of time to operate without EAS encoder/decoder

Dear Ms. Dortch:

In accordance with Section 73.3549 of the Commission's rules, Pacific Broadcasting of Missouri, LLC, ("Pacific") licensee of radio station KYRK, Taft, Texas, ("Station") hereby makes request to operate until August 31, 2011 without the required EAS encoder/decoder.

Pacific ordered the required equipment, with the newly mandated CAP functionality, prior to returning to the air on July 11, 2011 and was notified at that time that the equipment was backordered and would not be shipped until early August. Pacific received the equipment last week (the week of August 1st) and has scheduled its installation for the week of August 15th. To insure adequate time to test and program the encoder, Pacific requests the additional two weeks before declaring the equipment fully operational.

If there are any questions regarding this request, please contact the undersigned at 314-406-0601, or by e-mail to jgwithers@earthlink.net.

Respectfully submitted,

James G. Withers, Member and Technical Manager
Pacific Broadcasting of Missouri, LLC
