Jorge L. Arrendondo
SVP of Operations – KPDF-CD HC2 Network, Inc.
1701 N. Market Street,
Suite 500
Dallas, TX 75202

April 21, 2018

Dear Jorge,

The letters announcing the intention of KPDF to begin broadcasting from its new channel were mailed on April 18th, 2018 to 856 medical facilities within a 50-mile radius of the transmitter site.

Enclosed is a copy of the Medical Notification Letter, a list of the addresses, and proof of mailing stamped by the US Post Office in Orlando, Florida.

Shortly, you will receive a package containing the undeliverable letters returned by the USPS. The average return rate is generally eight to ten percent and letters are typically returned due to: the facility relocating and forwarding has expired, the name was changed, the facility refused to accept the letter, or the operation merged or was acquired by another company.

The returned letters along with the total list of facilities notified and the proof of mailing will be evidence of your sincere attempt and good faith effort to identify and notify health care operations in your coverage area. Please place these documents in your Public File.

In closing, it has been a pleasure to serve you and your station, and I look forward to helping you with any other notification needs as they arise in the future.

Sincerely,

Lisa Sockett
COO – RF Notifications

NOTICE OF CHANNEL AND BROADCAST FREQUENCY CHANGE OF KPDF

THIS LETTER CONCERNS TELEMETRY OPERATION. THE RESPONSIBLE PARTY FOR OVERSEEING AND/OR MAINTAINING CLINICAL OR BIOMEDICAL ENGINEERING EQUIPMENT AT THIS FACILITY MUST RECEIVE THIS LETTER.

Dear Administrator or Biomedical Engineer,

KPDF has retained RF Notifications, a broadcast TV consultant, to notify you of the impending change of the Station's digital television channel in your area.

We are notifying you of this channel change because patients at your facility may use biomedical telemetry devices that operate in the television broadcast band and may be affected when this change takes place.

On or about September 1 2018 KPDF will be changing their DTV broadcast transmission to UHF channel 22.

Certain biomedical telemetry devices have been allowed to use unoccupied TV channels in their area on a **secondary basis**, according to the rules of the Federal Communications Commission (codified at 47 CFR 15.242 (a)(1)). If interference to or from these devices arises with regard to the TV broadcast service, the devices must cease operation on that channel. It is the responsibility of the medical facility or operator of the device to identify and retune its equipment to an alternative non-interfering channel.

The purpose of this letter is to provide you information and give you reasonable opportunity to resolve any issues. It will be important for you to discuss these changes with your technology supplier, especially if there is a possibility, biomedical devices used in your facility are likely to malfunction when KPDF changes TV channel operations. **If you plan to replace your biomedical equipment, we urge that you purchase equipment designed to operate in the frequencies set aside for medical use.**

The contact information for the broadcast executive in charge of the TV station, along with the commencement date, TV channel and frequency band for each station are listed on the attached page(s). Please contact the individual listed on the attached page who is associated with the specific channel, if you wish for more information or want to report anticipated or actual interference problems.

Kind Regards,

Lisa Sockett, COO

RF Notifications

Relevant Technical Information

This notice is being sent to announce that KPDF will change its DTV broadcast transmission to UHF channel 22 as described below.

In order to prevent interruption in patient care, please review the following pertinent information for the new facilities and compare to your telemetry equipment immediately. This is the only notice you will receive.

KPDF-TV

Virtual Channel 41 (the channel position on the viewers' TV receiver)

DTV Channel 22 (the actual broadcast frequency)

RF Band: 518-524 MHz

Scheduled on-air date: 9/1/2018

Effective Radiated Power: 12.6 kW

Antenna Location: 33-20-00.07 N
112-3-47.43 W

Antenna Height Above Ground 21.8 meters

(center of radiation) Above Mean Sea Level 829.3 meters

Above Average Terrain 460 meters
