Air Week	04/07 – 04/13/2019	Studio Production	Jason Dickey
Time	Segment		
2:02	SEGMENT 1: EXAMINING “MEDICARE FOR ALL”		
<p>Synopsis: Two Congressional plans, one from each side of the political spectrum, are competing to blow up the current healthcare system. Here experts examine one of them—the left’s bid to replace private insurers with a government-run single-payer plan labeled “Medicare for All.” Alternatives may include bolstering the Affordable Care Act, or getting rid of it completely.</p>			
<p>Host: Reed Pence. Guests: Dr. Paul Ginsburg, Director, USC-Brookings Schaeffer Initiative for Health Policy; Deborah Burger, RN, President, National Nurses United; Dr. Ken Thorpe, Prof. of Health Policy, Emory Univ.; Lauren Crawford Shaver, Exec. Dir., Partnership for America’s Health Care Future</p>

Time	Segment		
1:57	SEGMENT 1: HIGH DRUG PRICES LEAD TO DRUG MISUSE		
Synopsis: Millions of Americans cannot afford the medications they've been prescribed. Many skip doses, split pills or don't fill prescriptions at all as a result, with sometimes even fatal consequences. But doctors are often unable to consider cost very well in prescribing, as the same drug often costs patients vastly different amounts due to insurance differences. Experts discuss the problem and what patients can do to save.			
Host: Reed Pence. Guests: David Mitchell, cancer patient, founder and President, Patients for Affordable Drugs; Dr. Stacie Dusetzina, Assoc. Prof. of Health Policy, Vanderbilt Univ.

Time	Segment		
2:05	SEGMENT 1: CANCER SUPPRESSION: LESSONS FROM PACHYDERMS		
Synopsis: DNA mutations happen all the time in the body, but the immune system usually detects and deals with them. When the system fails, cancer results. Yet some animals, such as elephants, almost never get cancer, and scientists have learned that the elephant DNA repair system is 20 times more powerful than the human system. Experts explain how they hope to tap this knowledge.			
Host: Reed Pence. Guests: Dr. Joshua Schiffman, Prof. of Pediatrics, Univ. of Utah and investigator, Huntsman Cancer Institute; Dr. Vincent Lynch, Asst. Prof. of Human Genetics and Organismal Biology, Univ. of Chicago

1:57	SEGMENT 1: WEIGHT LOSS SURGERY FOR TEENAGERS		
Synopsis: The proportion of severely obese teenagers continues to rise. Doctors increasingly understand that only weight loss surgery is likely to help them lose weight and avoid health consequences of obesity. But teens are often held back until they're so heavy that even bariatric surgery isn't enough to return them to normal weight. Experts discuss.			
Host: Reed Pence. Guests: Dr. Thomas Inge, Chief of Pediatric Surgery, Children's Hospital Colorado and Prof. of Surgery, Univ. of Colorado Denver; Dr. Fatima Cody Stanford, obesity medicine physician, Massachusetts General Hospital and Harvard Medical School; Dr. Meg Zeller, Prof. of Pediatrics, Cincinnati Children's Hospital Medical Center

2:02	SEGMENT 1: WHY PARENTS DON'T VACCINATE		
<p>Synopsis: Measles had been declared eliminated in 2000, but has come roaring back because of the increasing number of people who have not been vaccinated. Parents may have legitimate fears of side effects, but claims vaccines are unsafe are not true. Experts discuss the complicated psychological reasons vaccine refusal exists despite this, and what may help change minds to promote public health.</p>			
<p>Host: Reed Pence. Guests: Dr. Julie Bettinger, Assoc. Prof. of Pediatrics, Vaccine Evaluation Center, Univ. of British Columbia; Dr. Mark Navin, Assoc. Prof. of Philosophy, Oakland Univ.; Kristen O'Meara, parent and former vaccine opponent; Avnika Amin, Rollins School of Public Health, Emory Univ.</p>

2:04	SEGMENT 1: LUNG CANCER AND ITS STIGMA		
Synopsis: Most forms of cancer have a built-in constituency of patients, loved ones, and concerned others. Lung cancer patients, instead, are often blamed for their own disease because of its frequent connection with smoking. Patients are often isolated, and research dollars lag behind other, less common cancer killers.			
Host: Reed Pence. Guests: Donna Fernandez, lung cancer patient; Carly Ornstein, National Director of Lung Cancer Education, American Lung Assn.			
Compliance issues covered: health care; public health; discrimination

2:01	SEGMENT 1: GENERIC DRUG SAFETY		
Synopsis: Since the 1980's, almost all production of generic drugs has moved overseas, where FDA inspectors have a much tougher time making sure they're following rules for safety. An investigative journalist describes the ways she's found that many drug makers cut corners, putting safety at risk, and details what consumers can do to protect themselves.			
Host: Reed Pence. Guest: Katherine Eban, author, <i>Bottle of Lies: The Inside Story of the Generic Drug Boom</i>

2:04	SEGMENT 1: CBD—THE TRUTH ABOUT THE LATEST HEALTH CRAZE		
Synopsis: Suddenly, cannabis-related, hemp-derived CBD is almost everywhere. CBD’s FDA status is murky, and we know very little about its benefits, thanks in part to its former place on DEA Schedule 1. How much has been proven about its supposed health qualities? What are the risks? Experts discuss in depth.			
Host: Reed Pence. Guests: Joanne, Florida RN and CBD user; Dr. Yasmin Hurd, Director, Addiction Institute, Icahn School of Medicine at Mt. Sinai, New York; Don Ballou, founder and CEO, CBD Essence Products; Dr. Tim Welty, Director, Research, Innovation and International Programs, College of Pharmacy and Health Sciences, Drake Univ.

15:57	SEGMENT 2: GENETIC AND GENOMIC TESTING		
Synopsis: When most of us think of genetic testing for health, we imagine tests to detect whether we’ve inherited genes that predispose us for cancer or other serious disease. But another kind of gene testing—genomic testing of tumor cells for their susceptibility to targeted treatments—is giving thousands of people hope of survival they’ve never had before. Experts discuss both genetic and genomic testing.
