

**October-December 2023 Quarterly Issues and Program Reports for WMKY,
Morehead State Public Radio**

The top issues covered by WMKY News during the last three months include a total of 318 stories with sound. By category, those story totals include:

Agriculture - 0	Human Services - 36
Arts/Culture - 27	Legal/Courts - 6
Economic - 19	Minority/Women - 3
Education - 45	Police/Fire - 17
Environment - 15	Transportation - 17
Government - 47	War/Terror - 2
Health - 46	Weather/Climate - 12
Housing - 3	Sports - 23

The above totals include all aired content with associated sound produced in the WMKY Newsroom. Please see below for a breakdown of stories that were produced for distribution on wmky.org. Lingering technology issues from the cyberattack Morehead State University experienced at the end of July continued to disrupt on air newscast through the month of October. As such, during that time, all news stories were produced for wmky.org only. Starting November 6, 2023, on-air newscasts returned to WMKY.

The relaunch of newscasts coincided with the November 7 election. As such, we began our on-air coverage by building on the election stories we produced for wmky.org in the preceding months (reflected in the table below). Health and Human Services stories began to increase as winter took hold. These stories will continue to be important through the remaining cold months. Education, both K-12 and post-secondary were of interest in the last quarter, as KCTCS and the KBE underwent leadership changes preceding the 2024 regular legislative session. Local impacts from developments out of Frankfort will be top of mind in the next months.

Samantha Morrill

WMKY News Director
