January-March 2023 Quarterly Issues and Program Reports for WMKY, Morehead State Public Radio

The top issues covered by WMKY News during the last three months include a total of 1100 stories with sound. By category, those stories include:

Arts/Culture: 149

Government: 128

Education: 77

Economics: 54

Health: 194

Police and Fire: 62

Legal/ Courts: 206

Human Services: 80

Environment: 33

Transportation: 9

Agriculture: 7

Weather/ climate: 47

Housing: 13

Minority/ Women: 27

War: 5

This quarter's numbers reflect the 2023 legislative session, successful sports seasons, and new and ongoing legal battles dealing with political divisiveness at the state and national levels. An ongoing concern with health has been exacerbated by warmer than average temperatures and subsequent allergy issues.

Partisan politics continue to be in the spotlight in state government because of divisive rhetoric related to health, equality, and education. Arts and Culture stories continue to be our largest category since it encompasses sports, a vibrant local music scene, and many local events.

Weather related stories remained high for inclement weather coverage which is important to the region. Human service stories have also increased as mitigation and recovery stories have been filed.

Issues to be of importance to WMKY News in the next quarter will be government, as the short legislative session ended and many bills passed have already been threatened with legal action. We expect Arts and culture stories to remain steady, with continued emphasis on health, education, and human services.

Leeann Akers

News Director, WMKY
