**PUBLIC NOTICE**  
Michigan Department of Health and Human Services  
Healthy Michigan Plan §1115 Demonstration Extension Application Amendment

The Michigan Department of Health and Human Services (MDHHS) is hereby providing notice that it will be holding a public hearing and comment period seeking public input on the submission of its demonstration extension application amendment to the Centers for Medicare & Medicaid Services (CMS) in compliance with Michigan Public Act 208 of 2018. MDHHS is seeking to amend its Medicaid Expansion §1115 Demonstration extension application, known as the Healthy Michigan Plan (HMP) which expires December 31, 2018. Approval of this request would allow the MDHHS to continue to provide comprehensive health care coverage while incorporating new innovative approaches and structural incentives to increase beneficiary engagement in healthy behaviors and to promote personal responsibility. Consistent with the HMP Special Terms and Conditions, the following is a description of MDHHS's proposed amendment.

**HMP Demonstration Description and Objectives** - MDHHS began and administered HMP under the §1115 Demonstration Waiver authority on April 1, 2014. Through HMP, MDHHS has extended health care coverage to over 1,000,000 low-income Michigan residents who were previously either uninsured or underinsured. HMP is built upon systemic innovations that improve quality and stabilize health care costs. Other key program elements include: usage of health information technology; structural incentives for healthy behaviors and personal responsibility; encouraging use of high value services; and promoting the overall health and well-being of Michigan residents. MDHHS anticipates a decrease in enrollment may occur as a result of this amendment. The total predicted number is unknown.

**HMP Demonstration Program Overview** - Michigan residents ages 19-64 with incomes at or below 133% of the federal poverty level (FPL), and who do not qualify for or are not enrolled in Medicare or another Medicaid program, are eligible for comprehensive HMP healthcare coverage. Beneficiaries can complete healthy behaviors, which rewards them for conscientious use of health care services. Applicable beneficiary cost-sharing provisions, including copayments and contributions are outlined in the HMP waiver protocols.

**Rescind Marketplace Option Authority** - Pursuant to PA 208 of 2018, MDHHS will not be implementing the Marketplace Option benefit.

**HMP Changes After 48 Months of Eligibility** - As part of this extension application amendment for HMP, MDHHS seeks approval to continue the existing waiver provisions for individuals with an income at or below 100% of the FPL. HMP beneficiaries at or below 100% of the FPL will continue to have eligibility coverage and cost-sharing responsibilities consistent with the process outlined in the HMP waiver protocols.

In addition, the state seeks to amend the HMP waiver eligibility and cost-sharing requirements for individuals with incomes between 100% and 133% of the FPL. To maintain eligibility for HMP, individuals with incomes between 100% and 133% of the FPL who have had 48 months of cumulative eligibility coverage must: (1) Complete or commit to an annual healthy behavior with effort given to making the healthy behaviors in subsequent years incrementally more challenging; and (2) Pay a premium of 5% of their income, not to exceed limits defined in 42 CFR 447.56(f). Beneficiaries who have not met the healthy behavior or cost-sharing requirements will have their eligibility suspended until they come into compliance. The anticipated effective date of the HMP eligibility changes is July 1, 2019.

Medically frail beneficiaries described in 42 CFR 440.315 will be exempt from the 48 months cumulative enrollment suspension of coverage and from the 5% premium provision. Individuals will have the opportunity to self-report his or her medically frail status. Hardship exemptions for paying the increase cost-sharing or from suspension of coverage will be considered by MDHHS.

Individuals who are exempt from premiums and cost-sharing pursuant to 42 CFR 447.56 will be exempt from the 48 months cumulative enrollment requirement (e.g. pregnant women, under age 21, Native Americans).

**HMP Workforce Engagement Requirements** - The purpose of adding workforce engagement requirements to HMP is to assist, encourage, and prepare able-bodied adults for a life of self-sufficiency and independence from government interference. Beneficiaries between the ages of 19 and 62 will be required to participate in an average of 80 hours per month of qualifying activities and self-attest to compliance with, or exemption from, workforce engagement requirements to MDHHS on a monthly basis. A beneficiary is allowed three months of noncompliance within a 12-month reporting period, after which a noncompliant recipient's coverage will be suspended until they comply. If a beneficiary misrepresents their compliance with the workforce engagement requirements as identified in PA 208 of 2018, they shall not be allowed to participate in HMP for a one-year period.

Qualifying Activities include (1) employment, self-employment, or having income consistent with being employed or self-employed (makes at least minimum wage for an average of 80 hours per month); (2) education directly related to employment (i.e., high school equivalency test preparation, postsecondary education); (3) job training directly related to employment; (4) vocation training directly related to employment; (5) unpaid workforce engagement directly related to employment (i.e., internship); (6) tribal employment programs; (7) participation in a substance use disorder treatment (court ordered, prescribed by a licensed medical professional, or a Medicaid-funded Substance Use Disorder (SUD) treatment); (8) community service completed with a non-profit 501(c)(3) or 501(c)(4) organization (can only be used as a qualifying activity for up to 3 months in a 12-month period); and (9) job search directly related to job training.

Exemptions from workforce engagement requirements include (1) a caretaker of a family member under 6 years of age (only one parent at a time can claim this exemption); (2) beneficiaries currently receiving temporary or permanent long-term disability benefits from a private insurer or from the government; (3) full-time student who is not a dependent or whose parent/guardian qualifies for Medicaid; (4) pregnant women; (5) a caretaker of a dependent with a disability who needs full-time care based on a licensed medical professional's
