

A+E TELEVISION NETWORKS, LLC
IP VIDEO PROGRAMMING CAPTIONING CERTIFICATION

A&E Television Networks, LLC (“AETN”) hereby certifies that, subject to any exceptions noted previously and as attached, all of its long-form programming program files delivered during the first quarter of calendar year 2023 for transmission using Internet protocol (“IP”) were captioned in a manner designed to adhere to the amounts, tolerances and exemptions in Sections 79.1 and 79.4 of the rules of the Federal Communications Commission codified at 47 C.F.R. 79.1, 79.4 (the “FCC Rules”), including without limitation, that the program files have captions of at least the same quality as the captions provided for the programming when previously delivered for viewing on television, except for those programs that were accompanied by a notice (each, a “Captioning Exception Notice”) indicating that they were uncaptioned, or that the captions included were not formatted for online distribution, for the reasons stated in the notice.

A+E TELEVISION NETWORKS, LLC
IP VIDEO PROGRAMMING CAPTIONING CERTIFICATION

Provided below is a summary of programming delivered during the above-stated calendar quarter with Captioning Exception Notices because, consistent with the FCC Rules, the material was delivered without captions, or without captions useable for online distribution for the following reasons:

Program/Element: Archived online video programming not previously required to include closed captioning will be available online with closed captioning within the time frames set forth in FCC rules. Programming that includes closed captioning is identified in the metadata, or (if preferred by the distributor) is communicated directly on an ongoing basis, in accordance with the current operational practice for identifying captions within programming.

- aired online after the effective date of the Rules but without captions, because it:
 - is “pre-rule” programming that never appeared online with captions

Subject: [EXTERNAL] A+E Online Closed Captioning Certification Q1 2023

Please see the attached document, certifying that, subject to any exceptions noted in the attached, all long form content delivered to you in the 1st Quarter 2023 by A+E Networks will contain captions per the cited FCC online mandate. In addition to the requested captioning deliverable that AETN has been providing you, AETN can deliver upon request a 'safe harbor' SMPTE Timed Text file of the captions, in compliance with 47 CFR 79.103(b), for every program. If you would like to receive this in addition to your standard deliverables, please contact Ming Xue at Ming.Xue@aenetworks.com.

Thank you for your attention to this matter, and please let us know if you have any questions.
