## COMMUNITY ISSUES PROGRAMMING

The following issues were identified as significant and addressed by WBAY to serve the community and act in the public interest as set forth by the Federal Communications Commission:

- **Children/Education**  
The primary and secondary school education of area children, the high cost of attending college, children's safety in school and in general, and quality of education offered are issues of public concern. We also cover issues that specifically relate to children and teens, including child abuse, underage drinking, and parenting tips.
- **Community**  
We discuss events and stories of special interest happening in our local community, or stories from other communities that we feel would interest or educate local viewers.
- **Crime/Violence/Safety**  
Street crimes, gangs, and the use/sale of illegal drugs are issues of serious concern, along with information on how viewers can maintain their safety.
- **Economy**  
The overall economy of the nation, state, country, and city impacts an individual's ability to manage their current income, making it an overwhelming concern to viewers.
- **Environment**  
Natural, social, and cultural conditions influence the lives of individuals, the community, and the world in which we all live.
- **Government/Political**  
Viewers are concerned about political institutions, laws, customs, and proposed changes, along with national, state, and local leaders' reactions and ideas.
- **Health**  
We inform viewers about medical breakthroughs, costs, health studies, health insurance, and anything else that could harm or help their health.
- **Terrorism/National Security**  
People are more concerned than ever about terrorism - both foreign and domestic - and how to protect themselves, their country, and the world from international issues, political unrest, and terrorist threats.

Listed below are WBAY programs which address these significant community issues:

These locally produced news programs present a mix of news, weather, traffic, and sports. Issue-responsive segments are usually :30-3:00 in duration. Attachment A describes various local public interest news stories which WBAY produced and broadcast this quarter.

To keep viewers further informed about business and/or political matters, WBAY airs the following syndicated programs:

- Investigate TV (thirty minutes each week)
- This Week in AgriBusiness (sixty minutes each week)
- UpFront (thirty minutes each week)

As an affiliate of the ABC Television Network, WBAY also provides national news and public affairs programming. Network efforts this quarter are detailed in Attachment B.

WBAY also airs national and/or regional public service announcements to help keep viewers informed about a variety of topics, such as health, safety, parenting, poverty, helping others, wildlife and conservation, animal rescue, veterans' affairs, consumer scams, and financial matters.

WBAY aired a total of 1,074 local, regional, and national PSAs this quarter. A comprehensive list including PSA titles, spot lengths, frequencies, and times/dates aired is included as Attachment C.

Expressions of gratitude we received for our efforts this quarter are included in Attachment D.

## **SPECIAL INITIATIVES, AWARDS, AND RECOGNITION**

WBAY would also like to highlight the following actions this quarter:

- Action 2 News airs a weekly series called Small Towns with Jeff Alexander, which takes viewers on a journey to remember across Northeast Wisconsin, discovering compelling, inspirational, and heartwarming stories unique to each community. These stories air Thursdays on Action 2 News at Six.
- On February 7, Action 2 News debuted a new monthly series called WBAY Cares with Stacy Engbretson. We shine a spotlight on people and organizations in Northeast Wisconsin that are making a difference in our area and beyond. The stories not only give well-deserved recognition to those who are doing life-changing philanthropy work in our community, they also help raise awareness of community issues, disease prevention, nonprofit organizations, fundraisers and more, inspiring viewers to join the cause. These stories air on Action 2 News at Six the first Tuesday of every month.
- Aspiro is a local nonprofit group helping people with disabilities reach their goals, connect to their community, and achieve their independence. On February 28, their bus fleet was destroyed by an overnight fire, and insurance was going to fall well short of covering damages. WBAY partnered with other local TV stations, radio station groups, and digital out-of-home advertisers to create and air "Media United" PSAs-- competitors coming together to help our neighbors. The PSAs raised awareness of Aspiro's critical need and let people know how to donate; within a couple of weeks,

Aspiro met their \$500,000 goal. Media United then worked together a second time to create PSAs thanking the community.

- On March 1, Action 2 News debuted a new monthly series called Wisconsin Women Making a Difference with Aisha Morales. Each story in this series introduces viewers to different woman who has had an impact on our community. These stories air during Action 2 News This Morning the first Wednesday of each month.
- On March 4 and 5, we produced and aired the 69<sup>th</sup> annual CP Telethon from WBAY's auditorium. The nation's longest-running local telethon raised a record \$1,456,835 for CP, a non-profit organization offering therapy and life skills services.
- On March 8, Action 2 News This Morning anchors Tammy Elliott, Kathryn Bracho, and Aisha Morales took part in the annual Women in Media Build for Greater Green Bay Habitat for Humanity, capping the foundation of a future Habitat home.
- On March 17, WBAY celebrated 70 years of broadcasting. We aired several stories across all newscasts in the weeks leading up to our anniversary, catching up with many well-known former WBAY employees, so viewers can see where they are now. We created a page on wbay.com where viewers could not only watch these stories and view WBAY's historical photo gallery, they could submit their own photos and memories. We shared many of these viewer memories on-air during our newscasts. Additionally, an event at WBAY on March 17 invited WBAY alumni back to celebrate the big day. Green Bay Mayor Eric Genrich attended and declared it "WBAY Day" in the city. Governor Tony Evers also attended and declared it "WBAY Day" in the state of Wisconsin.

Expressions of gratitude we received for our efforts this quarter are included in Attachment D.
