

QUARTERLY ISSUES/PROGRAMS LIST

The following is a listing of some of the significant issues responded to by stations KIFS, Ashland, OR, along with the most significant programming treatment of those issues for the period July 1, 2015 to September 30, 2015. The listing is by no means exhaustive. The order in which the issues appear does not reflect any priority or significance.

Description of Issue	Program/Segment	Date	Time	Duration	Narration of Type & Description of Program/Segment
Public Safety, corrections, law enforcement	Clear Connections	7/5 and 8/23	600	30	Captain Penland of the Jackson County Sheriffs Department discusses the new management arrangements of the Jackson County Jail under Sheriff Corey Falls. Makes the case for about 50% higher jail capacity
Public Health, parental rights	Clear Connections	7/19	600	20	Chris Bridgens with Parents Rights in Education. Discussion involves the discovery that the state of Oregon not only counsels teens for sex changes operations, but actually will pay for them at taxpayer expense, and parents will be allowed no input.
Pubic Safety, Law Enforcement	Clear Connections	7/19	620	10	Lt. Mike Budreau updates the department's plan to deploy vest cams with all patrol officers. Sticking points are how will the videos be archived, and retrievable, and for how long.
Economic Development	Clear Connections	7/26	600	30	Jackson County Commissioner Colleen Roberts talks economic development issues. Adds that she's concerned that the county entangles itself in unwise projects through the grant stream process.
Earthquake preparedness	Clear Connections	8/2 and 9/27	600	15	Dr. Ally Ryan, from the state department of geology discusses the recent spate of Cascadia Subduction zone earthquake articles. She said it's important to prepare your family for the chance of this quake, but that doesn't mean one shouldn't live their lives, or stop visiting the coast due to the danger.
Crime, addiction services, mental health	Clear Connections	8/2 and 9/27	615	15	Medford Police Department's Lt. Budreau delves into the challenges of our strained mental health services. He says the drug problem and crime problems are often tied to mentally ill people "falling through the cracks" of the system.
Healthcare, alternative treatments	Clear Connections	8/9	600	30	Julia Schopick discusses her book "Honest Medicine". Mainstream medicine is keeping proven and inexpensive treatments out of reach to patients who desperately need them. In today's segment we talk about her pushing for the use of alpha lipoic acid to cure certain inflammatory disorders.
Health Care Policy, presidential politics	Clear Connections	8/16	600	20	Dr. Elizabeth Vliet analyzes the recent republican debate on Fox News Channel, and criticizes Donald Trump's apparent admiration for single payer federal health care. Vliet details how, unlike Trump's claim, that single payer in Scotland and Canada has been expensive and horribly ineffective.

Environment, transportation	Clear Connections	8/16	620	10	Automotive journalist Eric Peters at EPAutos.com makes the case that the American car owner is shortchanged by the ethanol mandate. You have lower mileage, and the push for ethanol hurts poor people by artificially boosting the price of food.
Economics, government largesse	Clear Connections	8/30	600	15	Donald Trump announced he's boycotting Oreos after the manufacturer announced plans to ship the cookies and 600 jobs to Mexico. But the real problem here are federal sugar subsidies, not Oreos. (Who can hate Oreos anyway?) Institute for Policy Innovation president Tom Giovanetti discusses the sugar insanity caused by cronyism and meddling in the free market.
Environment, federal government policy	Clear Connections	8/30	615	15	Jillian Melchior, <u>writes</u> in the National Review, reports that last week the Environmental Protection Agency spilled a million gallons of contaminated mine waste into the Animas River in Colorado, causing the water to turn a "yellow, sort of putrid-looking" color. Now, other <u>reports</u> are saying the volume of the spillage is even higher – probably around three million. Jillian says, "When private companies cause such damage, the EPA has the power to bring criminal charges, but who will charge the EPA?" Stuart Sanderson, president of the Colorado Mining Association, is calling the spill "the most significant event" he's seen in his 20-year career.
Education, crime, law enforcement	Clear Connections	9/6	600	10	Lt. Budreau from Medford Police breaks down a major threat of laptops from the connections academy, asking for the public's health in their recovery.
Higher Education, parenting,	Clear Connections	9/6	610	20	In the past getting into college depended on grades and good test scores. Yet today, that is only part of what colleges consider for admissions. Also considered are how many friends, an applicant has on Facebook and their likes on social media. Not just social media but other data is being used by colleges to evaluate a student's potential. So what should students and parents know? What are the key data that colleges are now considering? Shereem Herndon-Brown, CEO of Strategic Admissions Advice, discusses this issue, he works with parents and students on the college admissions process. Herndon-Brown says that most colleges are relying on big data and social media as much as tests and grades when evaluating students. He can offer tips on what parents and students should be doing.
K-12 Education, local school policy	Clear Connections	9/13	600	20	Medford 549C School Superintendent Brian Shumate and School Board Member Michael Campbell are in studio discussing local school issues. Some of what was

					<p>covered</p> <p>Class Size Reduction:</p> <ul style="list-style-type: none"> •We've made a strategic investment to lower class sizes in the elementary schools. •We have hired over 100 new teachers this summer, 16 of those positions were targeted to reduce class sizes. •The additional elementary teaching positions resulted in 38 classroom enrollments being reduced into the targeted class size range. <p>Project Lead the Way</p> <ul style="list-style-type: none"> •Nationally recognized pre-engineering program at Hedrick, McLoughlin and Central. •Students will have the opportunity to tackle real world problems while working in groups to create real world solutions. •Students will experience hands-on, project based learning and get the opportunity to work with cutting edge technology such as creating digital models and 3D printing. •We hope this rigorous training will connect them with high-tech pathways that could lead to high wage, high demand careers in the Engineering field. <p>Medford After-School (MAS) program</p>
Local weather	Clear Connections	9/13	620	10	<p>Editor from the Old Farmer's Almanac discusses the predictions for southern Oregon winter weather. Their methodology indicates a colder, snowier, wetter winter, which (if true) would be welcome, given our area has endured a serious drought over the last year.</p>
Emergency preparedness, transportation, local government	Clear Connections	9/20	600	30	<p>City Councilman Clay Bearnson and City Emergency Manager Larry Masterman talk earthquake and emergency preparedness month, and the potential for the Cascadia subduction zone earthquake, and pushing the need for citizens to prepare themselves. Councilman Bearnson also took calls from listeners concerned about parking policy changes in the city.</p>
