**Guests:** Lisa Morris

Ventura County The mission of the American Cancer Society is to improve the lives of people with cancer and their families through advocacy, research, and patient support, to ensure everyone has an opportunity to prevent, detect, treat, and survive cancer. The American Cancer Society Core Values are at the heart of what we do. These guiding principles have shaped and will shape our past, present, and future. We commit to living these Core Values in all our words, actions, and decisions. Our advocacy later contributed to the passage of the National Cancer Act in 1971, which granted special funds and authority to expand the National Cancer Institute (NCI) and revolutionized the war on cancer. With the development of the NCI, the American Cancer Society also had to adapt to a new role – that of filling in the gaps of the federal government’s focus in areas such as cancer prevention and education. We’re here 24 hours a day, 7 days a week, to help guide you through your cancer experience. Whether you’ve recently been

diagnosed, are currently going through treatment, or are caring for a loved one with cancer, we're here with information, day-to-day help, and emotional support every step of the way.
