Re: Notification of Resumption of Full Power Operation
Washington State University
NCE Station KTNW(TV), Richland, Washington (Facility ID 71023)

Dear Ms. Dortch:

On behalf of Washington State University, licensee of noncommercial educational television Station KTNW(TV), Richland, Washington, we hereby inform the Commission that KTNW has resumed full power, licensed operation following a period of reduced power operation under Special Temporary Authority ("STA").

Washington State University previously notified the Commission in FCC File No. BDSTA-20140606AAL of KTNW's temporary reduced power status due to equipment problems, and requested STA for the reduced power operation to continue for more than 30 days. The Commission granted reduced power STA for KTNW on June 11, 2014. The licensee now notifies the Commission that KTNW has resumed full power operation.

Washington State University is a noncommercial educational licensee and operates KTNW on a noncommercial educational basis. Moreover, the licensee qualifies as a governmental entity. The licensee is therefore exempt from FCC filing fee and regulatory fee requirements for KTNW, pursuant to Sections 1.1116 and 1.1162 of the Commission's rules. Should any questions arise regarding this matter, kindly contact this office.

Very truly yours,

Barry S. Persh
Counsel for Washington State University
