Re: Public Awareness/Quarterly Issues

In the period from January 1, 2016 through March 31, 2016, KJTH/KXTH/KZTH/KTHF/KTHL addressed the following issues of public concern. Numerous public service announcements were made on behalf of various local non-profit organizations and churches. We also passed along public information on severe and inclement weather. On the attached sheets other issues are listed which were broadcast over the program "Focus on the Family". "Focus on the Family" airs each weekday morning at 5:30 a.m. The station also hosted tours to various school, church, and scouting groups. We spoke at Enid Emmanuel School in Enid to about 100 kids, tell them about career opportunities in radio, what the radio industry is all about, and all the things we do at the radio station. We also promoted and participated in the Easter Extravaganza in Blackwell, where we provided fun activities for the children such as Corn Hole, and played our music.

"Why Physician-Assisted Suicide Is a Mistake"	02-10-2016	No Item Code	28 min
Portion Below Containing Fund Appeal			24:28 to 27:22 2 min. 54 sec.

John: Some really challenging, good perspectives from our guests, Dr. Margaret Cottle and Dr. William Toffler on today's "Focus on the Family" with Jim Daly. I'm John Fuller and Jim, this conversation has been so helpful in unpacking and understanding what's at stake when people argue for physician-assisted suicide.

Jim: Well, I couldn't agree more, John and I hope everyone listening will prayerfully consider the information we've shared today and what your response should be to the efforts to legalize physician-assisted suicide in your state. You know, it's easy to dismiss issues like this as just politics, because if it doesn't directly affect you, why bother? But as a fellow pro-life Christian, let me challenge you on that and like I said at the beginning, we believe God created human life and infused it with value, intrinsic value, whether it's the preborn child or those who are approaching those final days and hours of life. God sees every day that we have on this earth as precious.

Today we heard about the grave dangers that physician-assisted suicide poses. As responsible citizens, we need to stand up for what's right in our culture and speak against those ideas and beliefs that will cause irreparable harm to our culture as a whole. And we do it respectfully, always.

So, let me urge you to get involved, to be informed about this issue and to stand with Focus on the Family in helping prevent any effort to legalize doctor prescribed death in your state.

John: Yeah, Jim, in fact, the Colorado House of Representatives could take this matter up this week and so, we urge you to contact your state leaders to let them know what you think of this dangerous bill.

As Jim said, we want to be respectful. We want to be good witnesses for Jesus Christ as we do this and we've made it easy for you to learn more, to kinda walk through the process of communicating well. Visit www.focusonthefamily.com/takeaction to see a sample letter than you can copy and paste into e-mail right away, along with further details and talking points about the matter.

And then please, pass this info along to your friends and neighbors. We've got to be better informed on this. At the website I mentioned, we'll link back to this program so others can hear what we've shared today or get a CD or download a copy of the program and pass that along. You can also suggest they grab the Focus on the Family smartphone app, so they can listen on the go.

Again, stop by www.focusonthefamily.com/takeaction for more or call 800, the letter A and the word FAMILY; 800-232-6459.

Drop-In: Christian Genocide (U.S. Only)			
"God's Grace for Wild Women," Day 1	03-14-2016	1000947	00:00 to 02:09 2 min. 9 sec.
Drop-In: Christian Genocide (U.S. Only)			

Jim Daly: Hello, everyone. This is Jim Daly with Focus on the Family and I'm speaking to you today from Washington, D.C. And there's an important and time-sensitive issue I wanted to bring to your attention. As Americans, we're all too familiar with the Islamic State, otherwise known as ISIS. We see it in the news almost every night. This jihadist militant group based in the Middle East has made clear its intentions to terrorize, kill and destroy anyone who doesn't adhere to the tenets of Islamic fundamentalism.

Christians remain a key target of this group ISIS. The widespread and vicious persecution of believers in Iraq and Syria, is a tragedy of staggering proportions. And we have even reported to you before our work in the Middle East through our office in Cairo and what's being done there. Many people and leaders around the world—Christians and non-Christians, liberals and conservatives alike—are urging the U.S. State Department to classify ISIS's efforts to exterminate Christians in this part of the Middle East as genocide, which I know we would all agree with.

The genocide declaration would help persecuted Christians in a host of ways, from increasing humanitarian aid, to enhancing their ability to receive asylum, to encouraging greater United Nations intervention. Congress has imposed a deadline of this coming Thursday for the State Department to decide. And I would ask you to please join me in praying first and foremost for our courageous brothers and sisters who are facing this kind of life-and-death persecution in Iraq and Syria.

But I also want to ask you to let your voice heard on their behalf. You can start by visiting www.focusonthefamily.com/radio, where you'll find a link to my blog to give you ideas on what you can do. And I hope you will contact the State Department on behalf of our brothers and sisters. This is not something we can be silent about. Won't you do that? I pray so.

End of Drop-In
