Re: Public Awareness/Quarterly Issues

In the period from July 1, 2015 through September 30, 2015, KJTH/KXTH/KZTH/KTHF/KTHL addressed the following issues of public concern. Numerous public service announcements were made on behalf of various local non-profit organizations and churches. We also passed along public information on severe and inclement weather. On the attached sheets other issues are listed which were broadcast over the program "Focus on the Family". "Focus on the Family" airs each weekday morning at 5:30 a.m. The station also hosted tours to various school, church, and scouting groups. In July we hosted free showings of the movie Where Was God to anyone living in and around Ponca City, OK. Where Was God chronicled the devastation brought on by the Moore tornado. The movie has an evangelistic message and ability to challenge attendees to explore what they really believe about God in the midst of tragedy. In August we were a part of an outreach in Enid called Feed the Neighborhood. This event saw 2,000 people attend. Those attending received backpacks of school supplies, free haircuts, shoe vouchers, safety training and more. Also in August, we attended back to school events at OSU in Stillwater and OBU in Shawnee. In September we featured calls from all over the state about area See You at the Pole events.

"Finding Contentment and Happiness as a Wife" Drop-In: Senate Bill S. 1881: Defund Planned Parenthood – with Senator Joni Ernst (U.S. Only) Drop-In: Senate Bill S. 1881: Defund Planned Parenthood - with Senator Joni Ernst (U.S. Only)	07-31-2015	1002744	3:29 min.
--	------------	---------	-----------

Jim Daly: Hey, everyone, this is Jim Daly and before we get to the rest of our program today on "Focus on the Family," I want to let you know how *you* can be a voice for life and possibly stop the funding of Planned Parenthood. Senator Joni Ernst from Iowa joins us by phone and has co-sponsored a bill that would strip Planned Parenthood, which is one of the largest abortion providers in America, from receiving more than half a *billion* dollars a year from *us*, the taxpayers and that's a travesty.

Senator Joni Ernst: Right and what our legislation ensures is that funding for women's health is protected, while redirecting those taxpayer dollars away from Planned Parenthood. So we're trying to make sure those things are covered, but they're done at a community health center, at a community hospital--those that can still receive subsidized healthcare. But what we're saying is that what is done by Planned Parenthood is absolutely vile. It is reprehensible and we can't forget that. We should not be funding with taxpayer dollars an organization that lacks compassion for these mothers and their babies.

Jim: Senator, why is it important for people's voices to be heard? I mean, a lot of us are feeling beleaguered that the political system no longer really represents the values that we stand for as Christians. And we're, I think in some ways, becoming more apathetic, because we're not seeing any of the, you know, victories in this space. Why should we make the effort to call or write our senators?

Joni: It's so very important and the way our society values the most vulnerable in its population is a real strong sign or indication of where we are as a nation. And the footage detailing Planned Parenthood's role in the harvesting of organs--the heart, the liver, the kidneys of our unborn babies--is morally reprehensible and vile. The American people are horrified by this and they're horrified by the lack of compassion shown by Planned Parenthood for these women and babies. So, it is important that people reach out to their legislators and let them know that this is *not acceptable*. We are a nation that is better than this. We must do better for our mothers and our babies.

Jim: Once again, I want to say, life is not a partisan issue and like you said, this is the time to speak up for life for those innocent babies and the moms. So, call your senator and let them know that you support Senate Bill 1881 that defunds Planned Parenthood and puts dollars into clinics that are taking care of women's health issues without participating in abortion. Senator, thanks for being with us and thanks for what you're doing.

Joni: Yes, my pleasure, thanks so much.

John Fuller: Call the Capitol switchboard today. The number is 202-224-3121 and we'll have some details about Planned Parenthood and the contact information for the capitol switchboard at www.focusonthefamily.com/radio.

Drop-In: Defund Planned Parenthood

Jim Daly: Hi, this is Jim Daly with Focus on the Family. No doubt you've seen the videos exposing Planned Parenthood's practice of harvesting fetal baby parts and tissue after abortion. Now you can be a voice for the voiceless and stop Planned Parenthood from receiving federal money. The House is expected to vote on a measure to defund Planned Parenthood tomorrow or Friday. So, please call or e-mail your member of the U.S. House of Representatives immediately and ask the member to support H.R. 3134 called The Defund Planned Parenthood Act of 2015.

And this is not a Democrat or Republican issue. This is a human question. Can we protect together the next generation of children? So, act now. Go to www.focusonthefamily.com/radio for more information. We'll have a link to our action center, where you can e-mail or call your representative in support of H.R. 3134. You can also call your representative's office through the Capital Switchboard at 202-224-3121. That' 202-224-3121. Let your voice be heard for these defenseless children.

End of Drop-In: Defund Planned Parenthood
