Show Details	Yes
Display Estimated Value	Yes
Display Program Revenue Summary	Yes
Include \$0 orders in AUR	No

When pulling both \$0 spots and announcements, an announcement on a contract with a \$0 rate will show as a \$0 spot and not as an announcement. The same spot, however, will show as an announcement on an announcement only report, and as a \$0 spot on a \$0 spot only report.

The AUR's are rounded to the nearest \$, consequently the sum of the individual AUR's in a group may not exactly match the group's AUR.

SSS indicates zero dollar spot is on locked log -S- indicates zero dollar spot on unlocked log

1aa indicates announcement is on locked log -a- indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
Both parts of bookends and piggy backs are combined;
Only the first member of a rotation group is shown, this may differ from what eventually is aired.

In the case of locked logs both parts of bookends and piggybacks are shown, each with their own AIR.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR.

SSS indicates zero dollar spot is on locked log -S- indicates zero dollar spot on unlocked log
1aa indicates announcement is on locked log -a- indicates announcement on unlocked log. Notice that
announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
Both parts of bookends and piggy backs are combined;
Only the first member of a rotation group is shown, this may differ from what eventually is aired.
In the case of locked logs both parts of bookends and piggybacks are shown, each with their own AIR.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR.

SSS Indicates zero dollar spot is unlocked log -S- indicates zero dollar spot on unlocked log
aaa Indicates announcement is on locked log -a- indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.
In the case of unlocked logs:
Both parts of bookends and piggy backs are combined;
Only the first member of a rotation group is shown, this may differ from what eventually is aired.
In the case of booked logs both parts of bookends and piggybacks are shown, each with their own AIR.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR

SSS Indicates zero dollar spot is on locked log -S- indicates zero dollar spot on unlocked log

1aa Indicates announcement is on locked log -a- indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
Both parts of bookends and piggy backs are combined;
Only the first member of a rotation group is shown, this may differ from what eventually is aired.

In the case of locked logs both parts of bookends and piggybacks are shown, each with their own AIR.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR.

SSS indicates zero dollar spot is on locked log -S- indicates zero dollar spot on unlocked log
1aa Indicates announcement is on locked log -a- indicates announcement on unlocked log. Notice that
announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
Both parts of bookends and piggy backs are combined;
Only the first member of a rotation group is shown, this may differ from what eventually is aired.
In the case of locked logs both parts of bookends and piggybacks are shown, each with their own AIR.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR.

SSS Indicates zero dollar spot is on locked log -S- indicates zero dollar spot on unlock ked log
aaa Indicates announcement is on locked log -a- indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
Both parts of bookends and piggy backs are combined;
Only the first member of a rotation group is shown, this may differ from what eventually is aired.
In the case of locked logs both parts of bookends and piggybacks are shown, each with their own AIR.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AIR

sss Indicates zero dollar spot is on locked log -s- indicates zero dollar spot on unlocked log
aaa Indicates announcement is on locked log -a- indicates announcement on unlocked log. Note that announcements placed on actual contracts will only show as such after media has been applied to the spots.

In the case of unlocked logs:
Both parts of bookends and piggy backs are combined;
Only the first member of a rotation group is shown, this may differ from what eventually is aired.
In the case of locked logs both parts of bookends and piggybacks are shown, each with their own AUR.
The counts for each group indicate the number of spots where it was possible to establish an equivalent AUR.
