**Local Public Service Programming – Quarter 1, 2016**

## **Public Service Director: Mary Farucci**

The following is a summary of Entercom Denver Radio's local public service programming for January, February, March 2016.

"Colorado Today" encompasses the approximately one hour of local public service programming required under Entercom Denver's license agreement with the Federal Communications Commission.

The show features segments of approximately 12-15 minutes induration, all of which focus on issues that directly impact Denver and Boulder listening areas, and Colorado in general. The topics chosen are partially derived from quarterly ascertainment meetings coordinated by the Colorado Broadcasters Association. Other topics are brought to our attention from local non-profit groups through our on air marketing campaigns.

Colorado Today is locally produced and hosted by Mary Farucci.

Colorado Today runs on Sunday of every week at the following times, on the following stations:

KQKS-FM 107.5 (segments B/C/A/D)	5:00-6:00AM
