CANCER CARE CUP GOLF AND DINNER - The Cancer Care Cup is a dinner and golf charity outing designed by Danny and Gina Terril to raise money to benefit oncology patients and caregivers. The proceeds from the Cancer

Care Cup assist oncology patients and caregivers with the everyday expenses they incur while receiving treatment. As a Pancreatic cancer survivor Danny and his family know firsthand the impact a cancer diagnosis has spiritually, physically, emotionally and financially. In 2012 at the age of 39 Danny Terril was diagnosed with pancreatic cancer, probably one of the most deadly of all types of cancers. While pancreatic cancer survival rates have been improving the disease is still considered largely incurable. For all stages of pancreatic cancer combined, the one year relative survival rate is 20% and the five year rate is 7%. - Since the inception of Cancer Care Cup in 2017, we have contributed over \$200,000 to patient assistance funds to help with expenditures that would otherwise be financially difficult for the patient or their caregivers. With overwhelming support & generosity from our communities and partners such as you, we can continue to help oncology patients and their caregivers.
