December 10th, 2017 Topic: Ohio Means Jobs 30m

OhioMeansJobs has a number of resources to help with career planning and job searching. When making career decisions, individuals must evaluate their interests, skills, aptitudes and experience. They also should consider other factors, such as the future outlook of occupations that interest them. Job openings can result from industry growth or from replacement needs. Some occupations in fast-growing industries may have few annual job openings. Others in slow-growing industries may have a high number of openings because of staff turnover.

December 17th, 2017 Education: Columbus State University 30m

At Columbus State, you can choose from a wide range of programs that will prepare you to transfer to a four-year college or jump right into the workforce. No matter where you are in Central Ohio, you'll find CSCC close by. They have campus locations in downtown Columbus and in Delaware, and Regional Learning Centers in six suburban locations. Plus, more than 50 of our programs can be completed online. Columbus State serves as a trusted business partner for employers in the region. Qualified workers are in short supply in growing industries, and many stable, lucrative careers can be launched with an associate degree or industry-recognized certificate. Columbus State is working to bridge the gap between what students learn and the skills employers need by collaborating with industry partners to create relevant programs and career pathways.
