There follows a listing of some of the significant issues responded to by Station WOOF-FM along with the most significant programming treatment of those issues for the period October 1<sup>st</sup>, 2019 to December 31<sup>st</sup>, 2019. The listing is by no means exhaustive. The order in which the issues appear does not reflect any priority or significance.

Description of Issue	Program/Segment	Date	Time	Duration	Narration of Type and Description of Program/Segment
<p>National Breast Cancer awareness, a campaign to increase awareness of the disease. Other than skin cancer, breast cancer is the most common cancer among American women. With the many different symptoms of breast cancer and some people having no symptoms at all, getting medically checked early is important for all cancers.</p>	<p>News Program</p>	<p>10/15/2019</p>	<p>7:35p</p>	<p>3:00 mins</p>	<p>The Pink Alternative October 15, 2019</p> <p>Deborah SFX: This month is breast cancer awareness month and usually most Breast cancer patients have to find the right option to meet their post sugery needs whether it be for bras, customer or standard breast prostheses or smaller forms called shapers. Certified mastectomy fitter Denise Newby talks about services she offers at the Pink Alternative right here in Dothan.</p> <p>Newby SFX: I'm the only stand alone breast prosthetic fitter business in the Wiregrass as far as I know. a lot of the other areas that did provide prosthetic services are not full service. So I provide services that other areas don't. Here they receive a mastectomy bras which are pocketed bras that hold a silicone prosthesis or other form of prosthesis they can also get turbans here or other mastectomy needs.</p> <p>Camisoles is a post-op surgical garment that the women receive only immediately after surgery. Normal the surgery is done there in the hospital overnight and then the next day they go home. These garments are helped to manage the tubing that the women have after surgery. There drainage tube the bulb that is in the tubing this garment is designed to help manage that because it has pockets underneath it helps to hold everything in place where is before sometimes they have to pin the bulk to their clothes with its garment they don't have to do that. Also helps once the breast is remove its also pocketed and it has what is called puffs to help mimic a breast until they can get the breast prosthetic. They come in different colors and whatever the lady chooses to purchase it in and we also have a</p>

					<p>top that is called Voletta which is also part of the healing process. It gives the woman something to wear until she can get to the prosthetics because this is six weeks time frame before they can wear any prosthetics because you got a lot of the body to heal and you don't want to do anything to cause an infection so these are post-mastectomy care garments.</p> <p>Deborah SFX: How would someone come and be fitted?</p> <p>Denise SFX: First of all, after seeing their doctor Post-Op or either their regular doctor it would need a prescription to file Insurance unless they pay out of pocket. But once they receive the prescription then I received the phone call for appointments. I do accept walk-ins but they get an appointment and they come in there's a consultation to take the place. Then they're fitted and process begins from there to get them fitted for Prosthetics. You know the thought that once you have mastectomy done you can't wear nice things. So here you get a wide variety of bras whether it be plain and simple to something really nice and lacy you get a variety of colors the same as you would if you not had surgery before. I've been a fitter since 2011 and its become a service that gives you a warm fuzzy feeling. Because it's a need and you're able to help someone regain their confidence so that's very important. 	News Program	10/14/2019	7:35p	3:00 mins	<p>Champions of Hope Oct 14, 2019</p> <p>Deborah SFX: The Sandi McCool Champions of Hope is a 5-K, 10-K and half marathon competitive race, 1-mile Spirit Walk and Kids Zone community cancer awareness event presented annually by the Southeast Health Foundation. It will be held on Saturday, Oct 19th at ACOM at 7 a.m. Each year a cancer survivor is selected as the honorary chair.. Al stephin One of this year's honorees talks about his diagnosis of Throat Cancer.</p> <p>Al SFX: I've been cancer free since August of 2017</p>

				<p>everything checked out great back then and since I do follow up check ups every three months with the oncologist and with the ENT and everything is going pretty good.</p> <p>Deborah SFX: What was the hardest thing for you once you heard that diagnosis?</p> <p>AL SFX: The hardest thing for me was is was it really happening which is hard to believe for most of my life I was relatively free of health issues and I thought maybe it would be a heart issue because heart issues run in the family so it was a complete shock it was cancer.</p> <p>Deborah SFX: And how did it change your life?</p> <p>Al Sfx: it changed my life in the sense that it kinda brought it back down to earth you get so arrogant and complacent about my health but it did got me to really think about precious time is you at any time one of these health issues can happen to anybody. It just made me appreciate things a lot more.</p> <p>Deborah SFX: Now that you are cancer free when you got that great news what was your reaction?</p> <p>Al SFX: You know when I did my scan to do the follow up scan its called a pet-scan my reaction to that was hopefully everything is okay and once I got Dr. Atkinson said everything was clear everything was cancer free at this point I was just excited. It was a rough road I rejoiced and thanked God for all his provisions at the time I still do and just very thankful for the support that I got from all of the doctors and nurses from everybody there at Southeast Health they were just wonderful people.</p> <p>Deborah SFX: So how does it feel to be a Champion of Hope Honoree for this year?</p> <p>Al SFX: I was surprised by being approached by that and you know being honored non the less that I can first of all share my story about my cancer treatments and cancer survival but more importantly to give a little back to participate in something that raises funds that stay right here in the area through Southeast Health and it just going to be an awesome event.</p> <p>Deborah SFX: And what advice do you have?</p> <p>Al SFX: The advice I have to give to folks out there right now if something doesn't feel right physically get it checked out. We hear about self exams for women</p>

Brannon Stand Road near the Fortner Street intersection. The event is a fundraiser for Felines Under Rescue (FUR), a volunteer-operated, TNR (TrapNeuterReturn) nonprofit organization that pays for spaying and neutering for dogs and cats Barbara Seaman heads up the event.</p> <p>Barbara SFX: We've been doing FurFest for about 10 years twice a year and we've been doing felines under rescue FUR for 17 years. We started trapping, neturing</p>

and returning feral cats to where they live and they just continue to live there we feed them and they don't reproduce but now we also pay for spay and neuter of cats and dogs if their owner can't afford to pay for it and we also pay for vet care if an owner has a sick or injured cat or dog and they can't afford to take it to the vet. So FurFest is our way of raising money to pay for all the veterinarian bills we encounter.

It's an indoor and outdoor festival, we have vendors set up to sell all kinds of things, homemade crafts and goodies and bake sales and antiques, collectables, art. We started once Laura Pate passed away she was such a big supporter of FUR she would always come with WOOF to FURfest we started calling it the Laura Pate Memorial Furfest in memory of Laura and to honor her memory and her love for animals. So we're doing this in a way to keep her memory and her love for animals alive. It is at Cottage Antiques at the corner of Brannon Stand and Fortner Saturday, October 12th from 9 til 2. We know there are a lot of other functions going on that day but we hope everybody would come out to support us and support all the dogs and cats in the area that we help. Your donations make it possible for us to help the animals that we are able to help.

Deborah SFX: And there's vendor space available do they have to pay for that space?

Barbara SFX: Our vendor space is still available we only charge 15 dollars for vendor space all you have to do is bring your tables we even have chairs set up for you. So if anybody is interested being a vendor they can call me at 693-5277

Deborah SFX: And what can they sell?

Barbara SFX: Anything they have anything they want to sell.

Deborah SFX: And Give us that date again?

Barbara SFX: October 12th from 9 until 2.

<p>Domestic Violence Awareness is making a difference in the lives of thousands of victims, survivors and their families. They should get the best support available. Domestic Violence does not discriminate, it effects people of all social and educational levels.</p>	<p>News Program</p>	<p>10/29/2019</p>	<p>7:37p</p>	<p>3:00 mins.</p>	<p>Domestic Violence Awareness Month</p> <p>October 29, 2019</p> <p>Deborah SFX :October is not only Breast Cancer Awareness Month but also Domestic violence Awareness is also recognized during the month of October. Statistics are staggering nearly 20 people per minute are physically abused by a partner in the United state over 3 million children witness domestic violence in their homes. Karen Boy of the House of Ruth says it's important to talk about domestic because silence allows it to thrive. She says how the healing can begin is to be transparent.</p> <p>Karen SFX: Believe the abuse because its true and it did happen.</p> <p>Deborah SFX Karen, talk to me about how struggles are different for everyone to get oaf of a domestic violence situation.</p> <p>Karen SFX What happens is they get to these moments of loneliness or either curiosity and they make a call. They may not have been with that person for months. Then all of a sudden a song, a conversation somebody maybe having, a picture, a movie, then they want to make a call just to see they just can't let go. But to heal you have to let go. It's okay to miss someone and still say goodbye. Move forward with your life because now it the time for you to full-fill your dreams your purse your goals.</p> <p>Deborah SFX: Boyd says it's sometimes difficult to get out of a bad situation for many reasons.</p>

					<p>Karen SFX: One if maybe finance the other it maybe fear and then the one that's number one for me is love. You know you may love that person so deeply that some can't get out because of that.</p> <p>Deborah SFX: A lot of people are surprised to hear that females between the ages of 16 and 23 are three times more likely than the rest of the population to be abused.</p> <p>Karen SFX: I cover nine counties and I've been in every one of the schools and there is not one time I have not come across one girl one teen that has not been in an abusive relationship and you learn it young. Most people think that abuse starts in adulthood when in fact it doesn't it starts in a person's youth. And so some of what that young person sees in their household or whoever they are around they model then they take on those abusive behaviors. And you learn it young. That's why it's good to talk bullying with the elementary students because if you see a bully you have a potential abuser.</p> <p>Deborah SFX: What does a victim look like?</p> <p>Karen SFX: You, me, her, him there is no particular look it could be anyone you never know. Sometimes you sit next to them in church.</p> <p>Deborah SFX: We are finding that Domestic Violence does not only happen to women. But an increasing number of men are being abused. Just this month in the City of Dothan two men were either stabbed or shot by a female companion. Boyd says the House of Ruth is here to help anyone who is in need of getting away from an abuser.</p> <p>Karen SFX: There is no difference in helping a male as a female. All the services we provide to the female we provide to the males. Most services the males ask of us are court accompaniment. They would like for someone</p>

Each second is an opportunity to take action. There are many ways to help including raising awareness, advocating or volunteering. Bringing about awareness about domestic violence is close to my heart because my cousin Yolanda Rene Cooper of Chicago, Illinois was a victim of domestic violence between 1994 and 2008. Today she is a survivor. Rena survived being shot four times by a complete stranger after she was put out of her home by her ex-husband. Rena Cooper tells her story.</p> <p>Rena SFX: The last Sunday of 2008 I was coming home from church and I pulled into my driveway and there was a person who came from behind a tree I had never seen this person before. I actually thought that they were going to visit neighbors next door. We're talking 10:30 at night. When I walked towards my porch I saw the person coming on my angle. And because I was unable to alert the people in the house I decided to go back to my vehicle and be able to call the police. But when I got halfway back to the vehicle he called me out of my name and told me not to move and he cocked a pistol at me. I turned to my right to run. He let off the first shot</p> <p>SFX: Gunshot After that I feel to the ground because I believe that shot is the one that hit my spinal cord and nicked it to cause me to paralyzed and he stood over me and shot me three more times</p>
--	--------------	------------	-------	------------	--

					<p>SFX: Gunshots</p> <p>Rena SFX: And then proceeded to walk down the street away from the area. I never lost consciousness. I got to the hospital the last thing I remember are they telling me they were putting me under. I was in surgery for four and a half hours. Found out that all of my vital organs were hit except for my heart. One bullet was an in an out a graze. Two bullets richest off of every organ except for my heart. I was in the hospital paralyzed in ICU by the fifth day I was up walking by the eighth day they had released me home to my parents. From there I have my own organization 4 My Voice Matters which is a non for profit organization geared towards bringing awareness to domestic violence and also suicide. The number 4 for the number of times I was shot and My Voice Matters because in the midst of my marriage I lost my voice and once I got it back I promised God I would never loose it again. I also lost a girlfriend to gun violence via domestic violence four months after I was shot and her sister wanted me to come and share my story at a Walk in her honor six years later. Since then I have been able to speak across the country even internationally. I've written a book. The name of my book is "Assassination Avoided, Destiny Defined" and it's a two time internationally best selling book on Amazon.com.</p> <p>Deborah SFX: There are so many amazing organizations working to end domestic violence and support survivors you can call the House of Ruth at 793-2232. I'm Deborah Pearson reporting for WOOF News</p> <p>November 25, 2019 House of Ruth Gift Wrapping</p> <p>Deborah SFX: The House of Ruth is having another successful year with their annual gift wrap fundraiser. We do have a fee its just depending upon on the size anywhere between two dollars and nine dollars but all the proceeds go to benefit our local women's and children's shelter the House of Ruth</p> <p>Deborah SFX: Tell us about the House of Ruth</p> <p>McCallister SFX: Its for women and children that have been abused domestically or sexually abused or assaulted. A safe place that they can come after they have been abused and just a place they can get away from their abuser and try to start a life back over again.</p> <p>They have a lot of resources there at the House of Ruth. They help them with counseling, they try to help them get a new job and if they need to relocate. They help them with a lot and they go to court with them. They are there as an advocate to get them through that process as well so they are not having to be there alone. Basically help them start over again. A lot of times they are having to start completely over whenever they have been through a traumatic experience like that.</p> <p>The House of Ruth provides them with clothing if they need it. If they are going to a job interview they help them with clothing for the interview that would be appropriate so they can help them get that. And they also they help feed them every meal. Every meal is provided for them there. They help them with transportation anything that they can help them with they do.</p>

<p>Fatherhood Involvement. Today 1 out of every 2 working dads say they spend too little time with their kids and want to do a better job at being an involved parent. Having an involved father significantly contributes to happier and healthier children and that is true whether a dad lives with his child or not.</p>	<p>News Program</p>	<p>11/18/2019</p>	<p>7:33p</p>	<p>3 mins.</p>	<p>Fatherhood Involvement November 18, 2019</p> <p>Deborah SFX: What is a good father?</p> <p>SFX: It was fun going fishing with my dad. They way he takes care of us his family how he gives back to his community when you look at him you know he's a really good guy and that he has a really good heart. I think that's why I love him most</p> <p>Maloney SFX: What I try to do is set the example. I'm big on making sure we worship go to church just so leadership by example you can't stress that enough</p> <p>Godwin SFX: Be present in your child's life because if you are there they can ask you questions when they need the questions. Show them their mistakes and be stern and also show love that's the most important thing. Even if you're not living with them be present in their life then you can guide them</p> <p>Flemings SFX: It means a healthy involvement. Being involved because that's what you are suppose to do.</p> <p>Deborah SFX: There is a father absence crisis in America. According to the U.S. Census Bureau, 19.7 million children, more than 1 in 4, live without a father in the home. Consequently, there is a father factor in nearly all social ills facing America today. The month of November is recognized at Fatherhood Involvement month. A time to be educated on how to become better fathers and how to be involved in your children's lives. District 2 Commissioner Janaksy Fleming is one of many good fathers in our local community and he talks about his life growing up</p>

				<p>without a father.</p> <p>Deborah SFX: You didn't grow up with a father in the home so who were your role models who did you look up to as a father figure?</p> <p>Fleming SFX: My uncles and different coaches that I had which probably lead me to education because the people filled a lot into me because of the athletic standpoint they were role models. My mom did a good job of keeping me around athletics to see people that were doing well.</p> <p>Deborah SFX: So your role has now changed ..you are in education and a coach we are in a time where you do not see a lot of fathers in the home are you now that role model or mentor young men can look up to?</p> <p>Fleming SFX: I'm not really trying to be there mentor but you just fall into that role and I think that's the best kind. You don't set out to do things like that it just the kids become more comfortable talking to you and I become more comfortable talking to them and you learn to give them what they need. Not every kid needs someone who is forceful that's on them all the time sometimes they need someone to step in every now and then. I've learned you can't treat every kid the same.</p> <p>Deborah SFX: Fleming reference Dr. Tim Elmore International Author and world-renowned expert on Generation Y and Z, Dr. Elmore uses his knowledge to equip educators, coaches, leaders, parents, and other adults to impart practical life and leadership skills to young adults that will help them navigate through life.</p> <p>Fleming SFX: Tim Elmore was speaking to standpoint of today's society not knowing culturally what our children go through now days with social media and depression is what he talks about in his book. They are seeing people happy and doing things and all of a sudden they think life is like that. This person is happy why am I not happy? Just that time when you're</p>

tragic loss of life.  
Join the AFSP Alabama Chapter at the 2019 Dothan Out of the Darkness Walk! Roxy Flutes tells us more.

Roxy SFX: The American Foundation for Suicide Prevention and we have a walk every year and it is Out of the Darkness Community Walk its going to be November 17th Sunday at Dothan High School on Reeves Street. Registration slash check in is going to be at 1 o'clock the event is going to be 2 pm until 4 p.m. The last two years we had over 700 people to attend so for the Out of the Darkness Community Walk I am the chair for the American Foundation of Suicide Prevention I am the actual company I am a volunteer and advocate and I am with the Dothan Chapter the Dothan area.

So the day of the walk we will have a speaker whose going to share his story of losing his brother seven years ago and we share stories of hope and healing. We do the 22 push up challenge to honor our veterans. We loose 22 a day. Hopefully our JROTC will be out there in uniform we also have a couple of veterans, navy, army that is going to be out there to recognize dignitaries. Then we have Ms Una Corbitt to get us warmed up, we do our little walk. We do give awards for the top three teams that raise the most money. The top team will release butterflies in honor of the angels we lost to suicide. And this year we are going to do our Honor B ceremony. Everyone will have a different color on in honor of what they represent. We will have like if you lost a child, a mother, a partner, a spouse, and a relative, a friend the military. Either you are experiencing or struggling or you're supporting the cause.

So when you register its as AFSP.org/dothan you can sign up as a walker. The majority of everybody they do a team and usually the team is honoring the one they lost. Unless we have our high school kids like Dothan SADD will be there for support, ACOM is there for support or businesses want to come out for support. Last year, I believe we did 22-thousand and the funds

					<p>go to Advocacy, Education, research for prevention, programs and our healing conversations which is a program for those who lost someone to suicide</p> <p>Deborah SFX : In case someone needs to register can they register the day of the event or does it have to be before hand.</p> <p>Roxy SFX: We prefer before so we can better prepare for materials and food however you are more than welcome to register before you get there. We are going to have resources and a little kid's area and different vendors.</p> <p>Deborah SFX: I'm Deborah Pearson reporting for WOOF news</p>

<p>Caregiver Assistants appreciation. Decades of research shows that social support helps needy people and the elderly cope but the feelings of isolation and frustration to anxiety and lack of sleep also affect caregivers in their struggle is just as real. It is important to show our support for all they do for our seniors and the needy in our community.</p>	<p>News Program</p>	<p>12/30/2019</p>	<p>7:33pm</p>	<p>3:00 mins.</p>	<p>Caregiver Assistance Month December 30, 2019</p> <p>Deborah SFX: November is National Family care Assistance month. A program that was created for Caregiver. Caregiver want their loved ones to have the best care possible at the doctors office, at the hospital and even at home and Anointed Touch Caregiver is a locally owned family business here in the Wiregrass that will give you that down home feel. They provide around the clock one on one attention allowing them to know and to understand the unique needs of each patient. Anointed Touch is owned and operated by Lisa Carroll.</p> <p>Lisa SFX: Our goal is to keep our clients healthy, joyful comfortable in their own home. Our friendly staff comes in we try to find the people that match their personality so when they go into the home they really feel comfortable and then the client also feels comfortable with them. We provide in home health care service we go into the home and we assist them with light house keeping, and reminding them to take their medication, we cook for them, we do the basics assisting them with their baths. We are non medical more like compassionate sitting. We have certified</p>

	News Program	12/16/2019	7:34pm	3:00 mins.	<p>nursing assistants which are trained. And then we have just the regular sitters who go in just for compassionate sitting. We do background checks on them and most of them are experienced in what they do. As I do my hiring for these positions I tell them that I know you need the money to do the job . This also is a job that I call it a gift. I'm not your typical caregiver because we go way and beyond. We do extra. A lot of the times the families are out of town we do grocery shopping for them . We do it because we know they are not able to do it for themselves. We provide transportation for them to the doctors even the ones we go in for compassion. We take them to Walmart. Most of our elderly love Walmart, we take them out to eat. They don't drive anymore and like I said most of the time their families are not here. And majority of the time during the holidays I have actually brought some home with me because they have no families to go to. That what I say we go way and beyond we go way and beyond. I love every one of my clients. Just think this is your mother or your father that's the way we expect you to treat the client here as you are taking care of your mother or your father and showing love. Anointed Touch has been in business were are on our 9th year and its really going strong and most of our services are by word of mouth because of the care that we give and the love that we show. We are located at 13 Maycliff Drive that's where my office is right now. We just recently relocated. You can contact me by phone 334-479-8707 is the office number and you can also visit the website <a href="http://anointedtouchcaregivers.com">anointedtouchcaregivers.com</a> and see exactly what we do and see some of the comments that the clients have made also.</p> <p>Deborah SFX: I'm Deborah Pearson reporting for WOOF News</p> <p>Turkey's From Heaven December 16, 2019</p> <p>Deborah SFX: Turkey's from Heaven is a group of people from the Wiregrass area who provide food for</p>

Rebecca Marsallas has been working with the organization for the past 22 years since inception.</p> <p>Marsallas SFX: We've been doing it for 22 years and its open up to anyone who wants to volunteer. There are seven different ways you can help one is to go buy a turkey from any Piggly Wiggly they are 17 dollars you can go through the line an buy it they keep the turkey and then we get it from them to cook you can also make a tax deductible donation to Turkey's From Heaven through our Papal link which is on our Facebook page or you can contact the Facebook page if you want to make a donation in another manner. Also you can come to the Peanut Festival Fairgrounds on Sunday, December 22nd between 6 a.m and 11 p.m. and we will actually be cooking the turkeys. We have a lot of manual work that needs to be done that day. And then on Monday, December 23 you can come help assemble green bean casseroles and bag at 8 a.m. and then start delivering the dinner's at noon on Monday, the 23rd. They will be delivered all around the Wiregrass area to different families in need and we will have the addresses and all you have to do is come to get the food to be delivered to the family. And then the final way we ask people to help is just to pray for all the people, the volunteers and the organizers.</p> <p>Deborah SFX: This is a big undertaking for you guys to do this every year for 23 years. What does it mean to you to give back to the community the way that you have been.</p> <p>Marsalla SFX: To me this is what Christmas is all about. You know we are all called to help our fellow man and love each other and you know for alot of us we know where our next meal is coming from and its not something we have to worry about. There are people that live close to us that is a concern and this brings awareness to all of us to be thankful for all we have and also to give to those who are less fortunate. I would love to have more than not have anybody hungry in the Wiregrass unfortunately thats not the case so at</p>

	News Program	12/17/2019	7:33pm	3:00 mins.	<p>this time of the year its really important for me to focus more on what our reason for being which in my opinion is to help each other out</p> <p>Deborah SFX: And about how many volunteers does it take to do this each year?</p> <p>Marsalla SFX: We probably have between two and three hundred volunteers each year and the really neat thing about this organization is we are not attached to any one group so we have people of all faith of all backgrounds to come together and help and you don't have to call and say you're coming you just show up to volunteer. Its a faith-based we just always have the right amount of people. And it take a village and it also takes so many people to donate to buy 2-thousand turkeys and to buy the supplies to go with that its a hugh amount of money and every year we have plenty people to do it. Its just amazing. So if you have it in you heart to go buy a turkey or to give a donation you're really going to help someone right here in the Wiregrass.</p> <p>Deborah SFX: I'm Deborah Pearson for WOOF news</p> <p>Meals on Wheels December 17, 2019</p> <p>Deborah SFX: Some million seniors face the threat of hunger and millions alone in isolation. With the senior population expected to by 2060 the community is asked to join to be apart of a new generation of Meals on Wheels volunteers. Mark Warren heads up the Meals on Wheels program at First United Methodist Church here in Dothan.</p> <p>Warren SFX: Well we started back in the early 70's I believe 1972 because there was a need for home-bound people mainly elderly folks that either couldn't drive or didn't need to be driving or didn't have the energy to standing to cook, probably didn't need to be around a stove and didn't have the energy to clean up. So we started this ministry to deliver mainly to elderly people</p>
--	--------------	------------	--------	------------	---

				<p>when to this day it still is mainly it is a few folks that are not necessarily considered elderly but they have been hospitalized recently and can't get up to do what it takes to prepare a meal.</p> <p>Deborah SFX About how many volunteers do you have participating in this program?</p> <p>Warren SFX: We have approximately 125 to 130 people we have seven different routes 4 or 5 different churches involved that take routes and supply the volunteers send the list to me and then we coordinated and make a schedule monthly for there.</p> <p>Deborah SFX Where are the meals prepared</p> <p>Warren SFX: At Wesley Place on Honeysuckle. They prepare the meals every morning and the volunteers meet at the front lobby at about 11 o'clock they get there meals that are divided up by routes and then they go deliver them. It usually takes about an hour to do that. A lot of the volunteers are retired folks but we do have some that come and do it on their lunch hour</p> <p>Deborah SFX About how many meals do you deliver within a week?</p> <p>Warren SFX: We are about 75 to 80 per day</p> <p>Deborah SFX And what does a meal consist of?</p> <p>Warren SFX: A meal is going to be a meat, two vegetables, a bread, and a dessert.</p> <p>Deborah SFX: And if someone is listening to this for the very first time and would like to participate, how can they become involved as far as receiving a meal and becoming a volunteer?</p> <p>Warren SFX: If you want to participate in receiving a meal you call 790-7464 and if you wanted to volunteer you can call 334- 596-4282</p>

Each year SARCO allows the community to adopt a senior to provide Christmas cheer for some 400 seniors in the Wiregrass who are in need of basic items for everyday living. Jessica Barefield (BEAR-FIELD) of the Southeast Alabama Regional On Council Aging.</p> <p>Barfield SFX: Santa for Seniors is a project that we do every year and the idea is to bring Christmas cheer to the seniors in the Wiregrass to maybe because of their health their home-bound and maybe they don't have a lot of family left so this is a way to bring Christmas cheer to them and also provide for some basic needs. Everyone on the program is low income so they have some pretty basic requests its items for everyday living is how we like do describe it. So this is just a way for the community to come together and say hey you know we are thinking of you at Christmas and we want to provide for some of your basic needs</p> <p>Deborah SFX: And give us a run down you know of some of the basic items they need the most?</p> <p>Barefield SFX: Some of the commonly requested items</p>
--	--------------	------------	--------	------------	--

				<p>for the Santa for Seniors program is things like liquid nutritional supplement that would be things like Ensure or Glucerna things like that also things like towels, bed linen, bed sheets also cleaning supplies, laundry detergent, paper supplies like toilet paper, paper towels and a lot of people keep a pet that keeps them company so people ask for pet food things like blankets.</p> <p>We are collecting this Thursday, Friday and Saturday our collection site is open from 9 until 6 and we collect the gifts at the former National Guard Armory its near the intersection of Westgate Parkway and Choctaw but we are collecting a little early in the month that's why we like to highlight to people that it is coming up this week</p> <p>Deborah SFX: Can people give donations through maybe your website or at your office?</p> <p>Barefield SFX: When you talk about Santa for Seniors a lot of time we talk about adopting a senior and if its a specific person with a wish list you can buy those items but you can certainly give general donations to the project that can be items or just a cash donation. If you're donating items you can do any of the things that's commonly requested. We have a list on our website but you can also just look at the wish list to get an idea. But also cash donations you can do those through website you can use a credit card or papal or you can make a donation with cash or check at the gift collection sight or at our office on Brannon Stand Road.</p> <p>Deborah SFX: About how many seniors do you all serve through this program?</p> <p>Barefield SFX: We had about 400 it was a little less than 400 but right about that. As far as general donations if its items like they are going to buy say a set of towels they need to bring that by Saturday the final day of the gift collection. If they are doing cash we do that throughout the month because so they can do cash throughout the month of December. You can do that online or just through our office on Brannon</p>
--	--	--	--	---

	News Program	10/22/2019	7:34pm	3:00 mins.	<p>Stand. We use the cash for paying for our larger more expensive items and usually those things don't get purchased until after Christmas so that's why we can take the cash donations throughout the month. So the gifts being delivered they have to be there by the last day Saturday.</p> <p>Deborah SFX: I'm Deborah Pearson reporting for WOOF News</p> <p>Deborah SFX: The 1st Annual Dayspring Hospice Moonlight and Jingle Bell Market will be held this week October 24-26th at the Dothan Civic Center. Erin Stevens Clinical Manager of Palliative Care at Day Spring Hospice and she says funds raised from this event will help with programs and services provided by Day Spring Hospice.</p> <p>Stevens: It's our first annual Jingle Bell Market it goes to benefit the Dayspring Hospice organization and those money goes to take care of patients who are indigent who need hospice care. Hopefully we can begin to take care of bereavement camps and just really provide general needs for hospice patients that arise while they are under our services.</p> <p>Deborah SFX: Lauren Pike of Day Springs Hospice</p> <p>Lauren SFX: So the event kicks off Thursday, October 24th and we will have what we call the Moonlight and Istle Party it is from 6 until 9 at the civic center and tickets are 30 dollars for that and that gives you the first opportunity to come in and shop with the vendors. We will also have a silent auction that evening the Moonlighters will be playing and we will have holdovers for you to snack on while you shop. So it's kind of a fun shopping night and just a great way to kick off the event. We have about 40 vendors so far signed up to come on. And we have everything from Christmas decorations, clothing items. Jewelry, art, food, boll weevil soap company will be there with there soaps, candles, pretty much anything you might can</p>
--	--------------	------------	--------	------------	--

					<p>think of it that you will need for your holiday shopping list that you will be able to find.</p> <p>We have 40 vendors and we have tried not to overlap as far as what each booth will have so there should be a wide variety for you to choose from start checking off some things from your holiday list.</p> <p>The event will go through Thursday, October 24th. We will start the with the preview party that night on Friday, the 25th the market is open to the public to come in and shop. And tickets are 10-dollars for you to come in. The market hours are 9 a.m. until 10 p.m. We will also have McAllister's Deli and the River Nile will be on hand for you to get lunch so if you come for lunch or dinner time you can come get you some lunch and hang out and not have to leave to go find food you can stay and shop.</p> <p>On Saturday the Market is open from 9 a.m. until 6 p.m. and again we will have the vendors with the food as well so you can come in and eat lunch hang out get your shopping done. Tickets are available for purchase at the Civic Center Box Office and you can go online and you can purchase them both for the preview party and general shopping days and you can purchase them at the door. But if you want to go ahead and get them in advance you can purchase them through the civic center website or you can stop by the Civic Center box office and get those or they are available at the door.</p>

	Newscast	11/14/2019	3:55pm	2:00 mins.	<p>November 14, 2019 3:55 Newscast</p> <p>November is National Hospice and Palliative Care Month. Hospice and palliative care programs across the country are reaching out to raise awareness about hospice and palliative care. Erin Stevens says Palliative Care is relatively new and most people are not familiar with this type of holistic model of care.</p> <p>Stevens 1 SFX Palliative Care is a particular kind of care done in the home that provides care of patients that don't have to have a terminal illness where with Hospice you have to have a terminal illness meaning the doctor feels like you might have 6 months or less to live. Palliative Care is the kind of care that sends a nurse practitioner into the home and we can take of a patient at any stage in their diagnosis of any serious illness. It is really a great precursor to Hospice it really feels like a gap in care for patients. So we want to recognize our Palliative Care month and National Hospice Care Month.</p> <p>Day Springs is the local hospice for the area founded in 2003 out of Enterprise. Day Springs has three offices located in Enterprise, Andalusia and here in Dothan and it serves.. Houston County, Geneva County, Pike County, Coffee County and Covington County</p>
