ISSUE: Growth/Treasure Valley Traffic Congestion

PROGRAM: Greenbikes and other Alternatives

The latest Treasure Valley Survey from Boise State University shows 66 percent say traffic and congestion is a big problem. Director Dave Fotsch with Boise Green Bike at Valley Regional Transit says while there's general agreement about congestion, there's not a lot of realization that every person in a car is contributing to that congestion. More education is needed so people make fewer car trips, utilizing carpooling, buses, walking, biking, and e-scooters. Rentable Boise Greenbikes are another option for getting around once you are downtown, more racks are now available to locking them up when finished. Parking is another traffic complaint. Fotsch says there is little interest in building more parking garages because they're expensive and take up real estate that could be used for housing and businesses.
