**RUCTION AND INITIATION OF RF OPERATIONS – WNYB (DRT)
hannel 27 – 548 to 554 MHz)**

**ERATION. THE RESPONSIBLE PARTY FOR OVERSEEING AND/OR
MAINTAINING CLINICAL OR BIOMEDICAL ENGINEERING EQUIPMENT AT THIS FACILITY MUST RECEIVE
THIS LETTER.**

Dear Administrator or Biomedical Engineer,

Radiant Life Ministries, Inc. wishes to notify you of the impending construction of a new UHF digital replacement translator facility for the full power television station WNYB in your area. We are notifying you of this change because patients at your facility may use biomedical telemetry devices that operate in the television broadcast band that could potentially be affected when this change takes place.

As of November 20, 2023 the station will begin testing at its authorized antenna power level of 10 kW ERP. This testing is in preparation for full time operations at this power level to commence on or about November 24, 2023.

As certain biomedical telemetry devices have been allowed to use unoccupied TV channels in their area on a secondary basis, under the rules of the Federal Communications Commission (see 47 CFR 15.242 (a)(1)). If interference to or from these devices arises with regard to a TV broadcast service, the devices must cease operation on that channel. It is the responsibility of the medical facility or operator of the device to identify and retune its equipment to an alternative non-interfering channel.

The purpose of this letter is to provide you information and give you reasonable opportunity to resolve any issues. It will be important for you to discuss these changes with your technology supplier, especially if there is a possibility that biomedical devices used in your facility are likely to malfunction when the WNYB DRT facility begins broadcasting. If you plan to replace your biomedical equipment, we urge that you purchase equipment designed to operate in the frequencies set aside for medical use.

The contact information for the engineering representative in charge WNYB (DRT), along with the commencement date, TV channel and frequency band for the Station is listed on the attached page. Please contact the individual listed on the attached page who is associated with WNYB (DRT) if you wish for more information or want to report anticipated or actual interference problems.

Kind Regards,

Michael J. Daly
