

WOGA-FM

**2nd Quarter
ISSUES & PROGRAMS**

2020

To : Public File

Date : July 2, 2020

Subject : Issues and Programs (Second Quarter 2020)

Our station works very hard to identify the concerns of our listening audience. By maintaining a close relationship with government officials, area business leaders, schools, churches and private citizens, we receive a very thorough understanding of the significant issues and needs that affect local residents.

Therefore, we offer live airtime, public service announcements and use of our website to educate the community regarding the vital local issues, between April 1, 2020 and June 30, 2020, we helped many non-profit organizations and civic groups by providing them forums to promote themselves and their programs that benefit the local residents.

During the second quarter, 2020, the station encouraged listener involvement in activities that will positively impact our community.

The following pages will detail those issues and the programs that we have determined to be significant to our listeners for the period between April 1, 2020 and June 30, 2020.

**David Burket
Traffic and Billing Manager**

Community Services Announcements

US Census Bureau
