

Quarterly Issues/Program List
Period: 09/04/16 – 10/15/16

The following is a listing of some of the significant issues responded to by station WNYH, Huntington, New York, along with most significant programming treatment of those issues for the period above. This listing is by no means exhaustive. The order in which the issues appear does not reflect any priority or significance.

Description of issue	Program/Segment	Day/Date	Times	Duration (in min)	Narration of type and Description of Program
Community Issues	Change the Odds	09/07/16	07:55 AM	5.00	Stand Up to Cancer's mission is to raise funds to accelerate the research to groundbreaking therapies for cancer patients. It is up to all of us to change the odds of getting cancer in our lifetimes.
Community Issues	Employment Opportunities	09/14/16	10:55 PM	5.00	The average time a resume spends on HR's desk is 7 seconds and most are often dismissed if they don't possess typical credentials. Here's some tips on how to show you'll be an incredible candidate.
Safety Issues	Child Car Safety	09/20/16	07:25 AM	05.00	Car crashes are a leading cause of death for children under 13. Car safety for children should be a priority to parents.
Community Issues	AARP	09/28/16	05:15 PM	15.00	1 in 5 Latinos in the US are unpaid family caregivers. This new program encourages Latino caregivers nationwide to access free Care Guides, self-care tips, planning resources, legal and financial guidance, and more.
Community Issues	Disaster Relief	10/05/16	06:00 AM	10.00	Millions of people are impacted each year by natural disasters. The best way to help those affected is by making a cash donation. Cash donations help support communities in the immediate aftermath of a disaster and are also critical for longer term recovery efforts.
Health Issues	Manage your BP	10/11/16	01:50 PM	10.00	1 in 2 Americans have high blood pressure. Uncontrolled high blood pressure can lead to heart failure, heart attack, stroke, vision loss, kidney disease, and even death. However, people with high blood pressure can create a treatment plan with their doctor that can help reduce their risk for heart attack, stroke, and other related health issues.
