CATEGORY: ENVIROMENT/SAFETY

ISSUE: A severe thunderstorm warning is now in effect until 4:45pm this afternoon for North Central Washington. Winds gusting to 60mph, and quarter-sized hail is possible. Hair damage to vehicles is expected as well as wind damage to roof, siding & trees. Hail could be 1-inch in size. In addition, a flood advisory is in effect until 7PM this evening. Minor flooding is expected in low lying areas.

LENGTH: 2:12

DATE: July 27, 2023 at 4:53pm.

CATEGORY: HEALTH/POLITICAL

ISSUE: Voters are asked to renew the Three Rivers Hospital levee for their Emergency Room department. This will affect residents of the Methow Valley who will be asked to renew a 1-year property tax levy to support those services. The levee will be on the August 1st primary ballot which has already been mailed to voters in Okanogan/Douglas County Hospital District #1.

DATE: August 15, 2023 at 7:35am

CATEGORY: HEALTH/EXCESSEIVE HEAT WARNING

ISSUE: An excessive heat warning has been issued by the National Weather Service for Chelan, Douglas & Okanogan counties. This warning will remain in effect for most of this week. Severe heat my cause illness or even death, so make every attempt to stay indoors and in an air-conditioned environment, if possible, drink plenty of fluids with no alcohol never leave any person or pets in your vehicle and check and relatives and family. North Central Washington libraries are now operating as cooling centers during normal business hours this week. For additional heat-related safety tips, go to the Chelan-Douglas Health District on Facebook.

CATEGORY: ENVIROMENTAL

ISSUE: A fire alert has been issued on SR20 between Rainy Pass to the Blue Lake Trailheads. Drivers should expect delays from 9am to 8:30pm daily to support fire response activities in that area. A pilot car is now in place and the highway is now open, but travelers should expect delays as fires continue to move towards SR20. For more information on this SR20 fire alert go to the WSDOT website at <https://wsdot.wa.gov>.
