Faron Cole, Joseph Colini, Samuel Hampton II, Mark Galambos, Limarie Vargas, Samuel Vicente. How can we overturn immoral and sinful laws in America? From my perspective, I might think I cannot do that much, but I can use my right to vote. I can do something by praying. The Bible says, we should be praying for those in those in those places of government. So, we need to pray. First of all, we need to pray but also use your right to vote.

Before the mafia came to New York the local police ran the crime in their districts. It was them getting bribes here and turning a blind eye to something over there. And it became notorious that it was all structured crime and the local police were involved in it. And so, in 1894, the mayor of New York appointed Theodore Roosevelt to the city police commissioner's where he became the president of the board and he reformed the department cleaning out corruption and installing telephones in the station houses. And Theodore Roosevelt actually walked the officer's beats with the officer on the streets after midnight to make sure they were on duty and to make sure there was no corruption.

Faron Cole, Joseph Colini, Anthony Medley, Samuel Vicente, Stephen Owens, Tim Neal. Is gambling a sin? Some may say well gambling is not a sin. Well, neither is, you know, losing your house, losing your car and losing your marriage. Because the Bible says that if you can't even provide for your family, you're worse than an infidel. So yes, I would say yes. And so, don't, don't put your trust in a scratch off ticket and a Powerball. Put your trust in this on Word of God right here, and you'll be just fine. You won't even need a scratch-off ticket.

Eugene Norris, Nancy Galambos, John Laird, Juanita Bagley-Watson, David Hughes II, Ronald Turner, SR. Will there ever be a one-world government? Okay, well the Bible doesn't use that phrase, one world government or a one-world currency but we know as we're seeing the Book of Revelation, in Revelation, 13:1, it talks about how the dragon stood on the shore of the sea. And I saw a beast coming out of the sea. It had ten horns and seven heads within the ten crowns on its horns and on each head a blasphemous name. So, therefore we can come and draw the conclusion that the Antichrist in the last days will appear. And we conclude that there will be some sort of a world governing system that will be different than what we have today.

Dale Heard reports on why people and businesses are fleeing some of America's largest cities, which suffer from serious crime, homelessness, and at the same time, high taxes, not enforcing drug laws and other progressive policies also driving many away. What's known as the Urban Doom Loop is happening in San Francisco, Philadelphia, and Chicago. For the first time ever, the city of San Francisco is spending six million dollars for a national tourism campaign, hoping to change the perception that one of the world's most beautiful destinations has turned into an urban nightmare. James Homan is with Michigan's Mackinac Center for Public Policy and he states the lesson city leaders should be learning is that people want safe clean places to live, not cities beholden to the latest progressive policies.

Davey Blackburn is a former Pastor whose life was thrust into the national spotlight after an unimaginable tragedy struck his family. His pregnant wife died after being shot in the head. Here I was, overnight, a single dad of a 15-month-old. I had just lost my best friend, ministry partner, and our unborn baby. And now I'm trying to sort through the grief myself, as well as trying to help our congregation figure out what just happened, and sort through their own grief. The primary emotions I was feeling was this deep sense of sadness and loss and shock. I didn't feel any kind of rage or anger or anything like that yet until I saw the men once they made the arrests.

A recent upsurge in spitting and hitting attacks on clergy and the vandalism of Christian sites, Christians in Jerusalem's Old City say they've been repeatedly assaulted. Israeli president Isaac Herzog and police commissioner Yaakov Shabtai met leaders of the Orthodox and Catholic churches of the Holy Land. In recent months we've seen very serious phenomena towards the Christian denominations in the Holy Land. Our brothers and sisters, Christian citizens, feel attacked in their places of prayer, in their cemeteries, and on the streets. Christians in Jerusalem's Old City say they are often harassed, spit on, and even physically attacked by religious Jewish youth. I view this phenomenon as extreme and unacceptable in any shape or form.

Tim Walker, David Gray, Nick Lindsay, Joseph Colini, David Hughes II. What should Christians do to reach more teens and younger adults? I say this with a certain degree of brokenness and humility. That we need to learn to love them the way that God loves them. We need to understand how much he wants to redeem them to himself. Jesus was talking about having a hundred sheep. If he loses one of them, does he not leave the ninety-nine and go into the wilderness and go after that one. And I mean, seek after that in every piece of brush and every place that you can look, he's out there seeking and he wants us to have that same heart that the Father wants to redeem all of his creation back to himself. And I truly believe that we're going to have to be ready to deal with brokenness and hurts from family life. We need to be sensitive to God's spirit. Maybe that's a little too simplified, but that's what's on my heart right now.

Samuel Hampton II, Ricky Holmes, Kathaleen Wuopio, Joseph Colini, Ronald Turner, SR., Patricia Heathman. According to Romans 8:28 through 35, why should we witness to others? In context, Romans 8:28 is really affirmation to the believer and we know that all things work together for the good, so whatever I'm going through it's for my good. And then when it talks about those who he predestined that again, is assurance to the believer, even though that I'm going through all of this, I'm in the plans of God. And this whole scripture, the reason why you should go witness to the people because this is talking to the believer. When we're talking when we're witnessing to a person, they're a nonbeliever. So, we want to get everybody possible saved.
