For example, Benjamin Rush not only said, "I rely upon the merits of Jesus Christ for a pardon of all my sins," but also stated that the Constitution "is as much the work of a Divine Providence as any of the miracles recorded in the Old and New Testament." Today's guest, Dr. Robert Jeffress, points to Psalm 33:12 which says, "Blessed is the nation whose God is the Lord."

Just as the Lord sent the bear and the lion to prepare David to defeat Goliath, she believes that God used Brandon's medical issues as a way for him to spend time at home watching their worship team practice, igniting his interest in music. Program Name: Breakpoint This Week

Issue: Worldview, Forgiveness, IRS

Time Aired: 11:30 AM

Duration: 30:00

Description: John and Maria start BreakPoint This Week with a recent commentary related to forgiveness. Maria notes a special point in the article where it states that we are choosing to forget about forgiveness, abandoning a guilt-innocence society for an honor-shame culture.

Then they briefly revisit a story they covered last week, where the IRS sent a letter to a Christian group stating they didn't qualify for tax exempt status. But, due to public backlash, the IRS has granted the Christian group this status.

Maria shifts the conversation from the IRS to the Supreme court, which refused to hear an appeal by Baronelle Stutzman who is now facing financial ruin. Baronelle has been bullied by Washington state and has an ominous road ahead. John reshapes her story and reminds us why the Church needs to come alongside her as she continues to faithfully follow the Lord.

John offers clarity for the situation in Haiti, where the President of Haiti was killed and now the country faces political upheaval yet again.

Date: 7/22/2021

Program Name: The Point

Issue: Abortion, Christian Living, Church Issues, histor

Time Aired: 12:45 PM

Duration: :60

Description:

My daughters loved the "Little House on the Prairie" books by Laura Ingalls Wilder. Part of what makes these stories so captivating is what it took for pioneer families to survive the brutal elements as they headed west in the late 1800s.

In fact, in 1900 the infant mortality in the U.S. was at about 10 percent. For every 1,000 babies born, over 100 did not live to their first birthday. Due to incredible medical advances, that rate had plummeted to just point-five percent by 2018.

Before we are tempted to celebrate, however, here's a tragic caveat. Also in 2018, 1.89 out of every ten reported pregnancies were aborted, according to the CDC.

In other words, the true infant mortality rate today is worse than at the turn of the last century. This isn't progress. More medical technology cannot address the deadly and dehumanizing worldview that has infected the modern world. Only the idea that every human life bears God's image will turn these numbers around.
