3. Outdoor Adventures	<p>Outdoor Idaho “The Outfitters” They are the bold ones, the ones you want on your side when things go wrong in the outdoors. Idaho’s outfitting industry has always attracted colorful characters: modern-day mountain men, whose job it is to connect city dwellers to the natural world. Each</p>	<p>10/13/16 8 p.m. 30 minutes</p>

	<p>year nearly 200,000 people enlist the services of Idaho’s outfitters and guides, to take them into some of America’s wildest places. But this is an industry reliant upon discretionary income, dealing with a younger generation that seems to favor virtual reality over the real thing. Outdoor Idaho profiles outfitters and guides in their element and looks firsthand at the lives they lead and the challenges they face.</p> <p>Outdoor Idaho “Owyhee Adventures” It’s truly some of the most remote country in the lower 48: dry, desolate, inaccessible. And yet its towering pinnacles, twisting waterways and narrow canyons are hidden gems, with the power to rejuvenate and inspire. We enter this desert via packrafts and by foot, with explorers accustomed to challenges, to bring back video of a landscape only an adventurous handful will ever bother to visit.</p> <p>Outdoor Idaho “Beyond the White Clouds” We hike into the nation’s three new wilderness areas... the White Clouds wilderness, the Hemingway-Boulders wilderness, and the McClure-Jerry Peak wilderness... and report on what we find. We also examine how “wilderness” won out over a national monument.</p> <p>Outdoor Idaho “Working for Wildlife” This program explores the interesting and challenging ways that Idahoans are attempting to assist wild animals, including rehabilitating orphaned black bear cubs so they can be transplanted back into the wild; recovering bird species like the California Condor; tracking wolverines and winter recreationists, to see if they can co-exist in high mountain areas; collaring deer in the winter through an elaborate process of helicopters, fences and volunteer deer tacklers; and taking baby cutthroat trout from Henrys Lake to high mountain lakes.</p> <p>Outdoor Idaho “Jewel of the North” Priest Lake is the least developed of Idaho’s three large northern lakes and retains much of the natural beauty that has enticed visitors for decades. This program captures the beauty of the landscape and also showcase the area’s many recreational opportunities. It also portrays its unique history and the people who believe this place really is the “jewel” of Idaho.</p>	<p>11/17/16 8 p.m. 30 minutes</p> <p>12/4/16 7 p.m. 1 hour</p> <p>12/8/16 8 p.m. 30 minutes</p> <p>12/22/16 8 p.m. 30 minutes</p>
4. Health	<p>Second Opinion “CPR in America” This program sets out to do something no television show has ever done—teach as many people as possible the life-saving skill of Hands-Only CPR. 90% of people who suffer out-of-hospital cardiac arrests die. Receiving immediate CPR can double or triple</p>	<p>11/12/16 7/6 a.m. MT/PT 30 minutes</p>

	<p>a person’s chance of survival. But 70% of Americans feel helpless because they don’t know CPR or they’re afraid of hurting the victim. CPR in America aims to change that.</p> <p>Second Opinion “Opioids to Heroin Addiction” Experts say the heroin epidemic, which is a growing problem nationwide, is largely spurred by people who first become addicted to prescribed opiate pain medications. As the pills become more expensive and harder to obtain, people move on to the cheaper and more potent high that heroin can provide.</p> <p>Second Opinion “Borderline Personality Disorder” Often misunderstood and under-diagnosed, borderline personality disorder is a serious mental illness that leaves those affected struggling to control emotions and maintain healthy relationships.</p> <p>Second Opinion “Tourette Syndrome” Tourette syndrome is a neurological disorder that presents in early childhood or adolescence with the first symptoms often being involuntary movements, or tics.</p> <p>Second Opinion “Kidney Transplant” With the increase of chronic diseases such as Type II Diabetes, the need for kidney transplants is on the rise. Both deceased and live donors are needed, and our experts shed light on the organ transplant process.</p>	<p>11/19/16 7/6 a.m. MT/PT 30 minutes</p> <p>11/26/16 7/6 a.m. MT/PT 30 minutes</p> <p>12/3/16 7/6 a.m. MT/PT 30 minutes</p> <p>12/31/16 7/6 a.m. MT/PT 30 minutes</p>
